GRAND ROMANCE—Warner Baxter and Madge Evans as they appear in the Fox picture, "Grand Canary." 2PA.

been adapted by Ernest Pascal in conference with Irving Cummings, who directed.

The picture takes its title from the setting on one of the Canary Islands, the action of the story bringing together the characters of the Spanish isle during the yellow fever epidemic. Baxter's role is that of a doctor who is cast by coincidence in the midst of two epidemics, one love, the other yellow fever.

Miss Rambeau in playing the comedy role of Mother Hemingway, matron of a Santa Cruz hotel of question able repute, is returning to Fox Film studios for her second role in Lasky productions. Her other role was as the queen in 'Warrior's Husband,' a performance that earned her present assignment.

Others in the cast include Zita Johann, Roger Imhof, H. B. Warner, and Barry Norton.

vehicle late last year and has since chased by Lasky as a Bakter starring Tense drama, enacted amid settings of vivid beauty!

This, advance reports declare, describes 'Grand Canary,' Jesse L. Lasky's latest production for Fox Film, which comes to the New Lyceum Theatre, on Monday and Tuesday, August 27 and 28. In the stellar role appears the popular Warner Baxter, while opposite him will be seen Madge Evans, who also was his screen sweetheart in 'Stand Up And Cheer.'

'Grand Canary' was produced from the recent best-selling novel of the same name, by A. J. Cronin. It was filmed agaist authentically reproduced backgrounds of Grand Canary, one of the picturesqut Spanish-controlled Canary Islands, and the settings are said to strike a new note in exotic beauty.

The Croin novel was especially pur-

Doctor—Deep breathing, you know, will kill microbes.

Patient—Yes, Doctor, but how can I force them to breathe deeply?

WARNED AGAINST ANTI-FAT DRUGS
URGED CARE IN REDUCING WEIGHT

'If you are overweight, or for any reason find it desirable to get rid of a few excess pounds, don't prescribe for yourself. Above all, don't take anti-fat drugs, no matter how extensively they may be exploited. Go to your doctor and follow his instructions. He will direct you as to what is needed for your own particular case.'

Along with this advice which comes from Dr. R. H. Riley, Director of the Maryland State Department of Health, Dr. Riley warns specifically against the use of alpha dinitrophenol, which has recently been placed on the market, under various names, for medicinal uses and extensively advertised for its 'reducing' properties.

'Alpha dinitrophenol,' Dr. Riley said, 'is a chemical compound that has been used for sometime in the manufacture of explosives. More recently it has been used as a medicine to speed up the cellular activity of the human body. In this connection it has been widely advertised as a 'reducing' agent.

'It is a extremely dangerous and treacherous compound and should be avoided unless it is prescribed by a physician who is thoroughly familiar with the constitution and characteristics of the individual to whom it is given. Numerous workers in munition plants are reported to have suffered ill effects from exposure to it in connection with their work and articles published during the last year in the Journal of the American Medical Association have shown how serious its effects may be when used as a medicine.

'Some people are particularly sensitive to certain drugs and that is true of alpha dinitrophenol, as of other drugs. It has been shown to be especially dangerous to persons suffering from heart disease, diseases of the liver or kidneys, chronic rheumatism, tuberculosis and alcoholism, as well as to persons suffering in other ways.

'The danger from the administration of alpha dinitrophenol and related compounds is so great that the Federal Food and Drug Administration has warned the public against their use. State Departments of Health are beginning to take up the matter, also. In Louisiana, for instance, the same restrictions are applied to the use of this chemical as to poisons generally, and its sale, as a medicine, is not permitted except upon the written prescription of a physician.

'The advice of the Maryland State Department of Health in regard to all of these anti-fat remedies it: 'Don't touch them. Your doctor knows your constitution—your weak and your strong points. Go to him. If you need to reduce, he will tell you what to do and how to do it.'

Simpkins—I told you to beware of that fellow and that you could only believe half he says.

Jubb—Oh, I knew that already, but the mistake I made was in believing the wrong half.

SUBSCRIBERS TO THE BUDGET FUND

Officials of the Chestertown Volunteer Fire Company have made public a list of those who have subscribed and paid their subscriptions to the budget fund of the local fire-fighting organization. This budget fund takes the place this year of the annual carnival and officials of the fire company urge anyone who hasn't contributed and desires to do so to get in touch with the committee, L. G. Brown, A. L. Sparks and R. Clarke Davis.

The list of paid subscribers below is not necessarily complete, since until each receipt book is filled the secretary of the fire company does not have the names at hand.

Those who have paid their subscriptions to date are:

Rev. C. L. Atwater, Paul N. Adams, Mrs. Hiram Brown, L. Y. Brown, B. R. Bartley, George W. Baldwin, Thomas H. Davis, S. Scott Beck, Carl N. Bordley, William T. Brown, A. H. Covey, Howard Clendaniel, Chestertown Gas Co., Stephen R. Collins, Dr. H. P. Copeland, Samuel E. Cooper, C. P. Crowding, Wm. M. Culp, George T. Cooper, G. F. Clark, W. C. Dempsey, J. C. Davis and family, Oriole Shoe Store.

Thomas W. Eliason, L. W. Ford, R. H. Fisher, Baurice Fox, Gulf Refining Co., James Groves, Miss Clara Glenn, John George, H. T. Hartman, W. S. Hurlock, John E. Hessner, Dr. H. C. Hughes, Hadaway's Restaurant, Ben Heller, Maude D. Hudson, Holt Oil Co., Mike Ianneo, W. T. Jewell, C. C. Jones, Homer King, Robert Kennedy, J. S. Kreeger, J. W. Kirby.

The NEW McCormick-Deering Spreader Features an ALL-STEEL Box

THE new McCormick-Deering No. 4-A *all-steel* spreader is convenient, low to the ground, simple, and compact. It features a galvanized, rust-resisting, copperized, non-warping, heavy-gauge steel box of 60 to 70-bushel capacity. Eight roller bearings and Zerk lubrication, combined with perfect alignment of all parts, make this new *all-steel* spreader unusually light in draft. Two horses can haul capacity loads in it all day long.

Five spreading speeds are provided, permitting the use of just the right amount of manure at all times. The manure is torn and shredded by a saw-tooth upper beater, a spike-tooth lower beater, and a wide-spread spiral before it is spread in an even layer over the soil. A special endgate can be provided for use when liquid manure is to be hauled. A brake is available as special equipment. Also, there is a lime-spreading attachment which changes the No. 4-A into an efficient lime spreader.

See this new *all-steel* spreader at our store at your first opportunity.
