THE ABOVE TICKET represents those men who have been selected by the Democratic voters in the County and State to represent that party at the general election in November. They have all proved their ability to effeciently carry out the pledges of the offices which they seek either through past services or through their reputation and business ability proven by years of life in their respective communities. There should be no question of a sweeping Democratic victory in Kent County, as sixty-four per cent of the registered vote in this county is Democratic and the qualifications of the candidates justify the unanimous support of this large majority. As for the State ticket headed by Governor Ritchie, Kent County's large share of the State governorment during the past four years should be sufficient to warrant a continuation in office of those who have made it possible for the voters of this county to share in these benefits in reduction in taxes alone. Among the State benefits received by Kent county and which it is very desirous that they be continued are: State maintenance of county roads, school equalization fund, retirement of county road bonds, and payment of interest on county road bonds. These items alone meant a reduction of approximately fifty cents on the county tax rate. Should this burden be returned again to the county it will mean an immediate increase of approximately that amount in the tax rate. Is it not better to return to office those men who have made this reduction possible rather than gamble on political promises of others espiring to office.
