NRA MEMBER U.S. WE DO OUR PART

NAMED ON NATIONAL PRISONS COMMITTEE

JAMES HEPBRON AGAIN HONORED

James M. Hepbron, criminologist and managing director of the Baltimore Criminal Justice Commission, has been elected a member of the board of directors of the National Committee on Prisons and Prison Labor whose headquarters are located in New York.

The organization was established in 1909 to study the whole problem of labor in prisons and correctional institutions.

In addition to directing the Criminal Justice Commission in Baltimore, Mr. Hepbron is consultant to the Philadelphia Criminal Justice Association and secretary of the United States Federation of Justice. He spent the early part of his life near Worton

He has made a widespread study of penal institutions both in this country and abroad, his most recent investigation taking place last summer when he visited a number of outstanding prisons in the Middle West.

Supper served at 5 p. m. Price 50c, children 35c.

SEWERAGE DISPOSAL LOAN APPROVED

THIRTY PER CENT OF LOAN DONATED BY P. W. A.

COST TO CHESTERTOWN ESTIMATED AT $27,000

$44,000 LOAN APPROVED BY P. W. A.

The Federal Public Works Administration have approved the application of the Mayor and Council of Chestertown for a $44,000 loan for the purpose of building a sewerage disposal plant and the necessary sewerage pipe lines for Chestertown. Word of the approval of the loan was received on Wednesday by Senator S. Scott Beck in a telegram from Senator Millard E. Tydings.

The application for the loan was made by the Mayor and Council following an order from the State Board of Health last fall that a change must be made in the sewerage system so to prevent the emptying of raw sewerage in Chester River.

The original order set February 1st, 1934, as the time limit in which the order was to be carried out but due to the delay in securing the Feberal loan the time limit was extended. The action on the part of the health board followed numerous tests of the river water in the vicinity of Chestertown, was found to create an unhealthy condition.

The Chestertown improvement is part of a State-wide move to stop the emptying of raw sewerage into the tributaries of Chesapeake Bay. A number of other towns in the State have complied with the order and have completed their plants.

It is predicted by engineers that the $44,000 estimated cost is above the actual cost of construction and that when contracts are let a loan of $40,000 will be amply sufficient to complete the project. Should this loan be reduced to $40,000 the actual indebtedness to Chestertown would be approximately $26,667 as on P. W. A. loans to municipalities, 30 per cent is a gift and does not have to be paid back. Under the provisions of the loan it includes 4 per cent interest and the period for paying it off may be extended to fifty years. In some cases it has been arranged so that the first payment on the loan does not have to start until five years after the loan is granted.

The Council has not received official notice of the granting of the loan although it will probably be one of the things to be considered by the Council at the regular meeting November 3rd.

The confirmation of the report that the loan had been granted was received at the Transcript office on Thursday by a telephone communication from Congressman T. Alan Goldsborough. Congressman Goldsborough has been working to assure the loan as he conscientiously does for all appropriations for this Congressional District.

YOUTH IMPROVEMENT STARTED HERE

INTERDENOMINATIONAL TRAINING TO START NOV. 1ST

Every pre paration is being made to support the High Schools of Kent County in their effort to develop and improve our Youth. With the approval of our County Superintendent Mr. Louis Robinson and the hearty support of each of the four High School Principals, a Questionnarie was submitted to the High School Students on Monday of this week by Rev. W. Vaughan Moore. The purpose of this was to discover some of the immediate needs of our Youth.

The Questionnaire covered twenty-four Areas of Experience which normally enter in to the life of every Youth. The Areas covered were as follows: Friendship, Bible Vocations, Religious Concepts, School, Boy-Girl Relations, Sunday, Conflicts, God Hme, The Holy Spirit, Citizenship, Jesus Christ Conduct, Science, Social Problem Church, Money, Worship, Self Knowledge, Organizations, Prayer, Time, Christianity.

The Students were requested to check five in which they were most deeply interested. From the more than four hundred returned a careful checking revealed Friendship receiving 254 votes, Vocations 226, Conduct 150, Boy-Girl Relations 125 Time (leisure) 118. Each of these five will be discussed at the Standard Training School (an inter denominational activity) to be conducted in the Methodist Protestant Church, Chestertown, six Thursday Evenings beginning Thursday November 1st. An entire evening will be given to the consideration of each of the five Areas chosen. The procedure will be, presentation of the subject by the discussion leader, group thinking and discussion, with summary by the leader.

This course is open to all Young People seeking an intelligent way to greater Self Expression which is the gateway to the more 'Abundant Life.' For further particulars consult your Minister or Church Counselor.

Democrats Gather at Rally Here

O'Connor, Radcliffe, Gordy and Goldsborough Speak.

Indicate a Sweeping Democratic State and County Victory

The Old Lyceum Theatre was packed to the doors and many were forced to leave because of inability to hear the speakers from the out-side at the first County Democratic rally which was held in Chestertown last Saturday evening.

Mrs. Charles Whaland, chairman of the Democratic State Central Committee, opened the meeting by introducing Mr. John Carvel Sutton as toastmaster. Mr. Sutton was defeated in the primaries for the Legislature and stated in his opening remarks that although defeated, he is going to work and vote for the entire Democratic ticket.

The first speaker of the evening was Mr. Herbert O'Connor, candidate for Attorney General, who stated that there should be no question about Kent County returning a strong Democratic majority. He stated although he lived in Baltimore he was thoroughly familar with the lead this county had taken in Democratic politics, both State and National, over a long period of years and that men from Kent County had been outstanding since the pioneer days of the county. He urged a Democratic victory as a evidence of support of President Roosevelt who is putting forth every possible effort to restore prosperity to the Nation. He pointed out the efforts that have been made by the present Administration to reduce the cost of criminal justice which is very outstanding in this present Court session.

Mr. William S. Gordy, candidate to succeed himself as Comptroller was the next speaker. Mr. Gordy has made an outstanding record in handling the financial affairs of the State and he pointed out the excellent financial condition of the State under Governor Ritchie in spite of the financial upheand in the country. Mr. Gordy reviewed Kent's and other counties share of the State administration. He showed that Kent's tax rate has been reduced from $1.48 in 1932 to 93 cents in 1933. This was largely attributed to the fact that the State has taken over the maintenance of County Roads, the payment of road bond interest, the reduction of the county's share of schools from 67 cents to 47 cents. This county tax rate in 1933 of 93 cents was further reduced in 1934 to 84 cents through economical administration of the County Commissioners.

Mr. Radcliffe, candidate for United States Senate urged the importance of a Democratic victory due to the fact that being at the gates of Washington it is highly important that President Roosevelt received the support of his party in Maryland. He praised the support Governor Ritchie had given the Roosevelt administratin in carrying his various endeavors to rebuild a nation. Mr. Radcliffe, who is Federal P. W. A. Administrator for the Eastern States and has played a prominent part in National projects in all parts of the county, is in a position to know these facts.

Congressman T. Alan Goldsborough, candidate for renomination, attacked the Republican platform, pointing its absurdity in endorsing the present National Democratic endeavors, and stated that the only way the Republican party can endorse these endeavors is to urge a Democratic victory in the State of Maryland. He pointed out the impossibility of the Republican party to carry out their campaign pledges. Congressman Goldsborough has become an outstanding member of Congress and the high positions which he holds on important committees indicates the President's opinion of his ability.

The effect of the meeting was optomism for a sweeping Democratic victory.

GOVERNOR RITCHIE'S PLAN FOR OYSTER INDUSTRY. OCTOBER 15TH, 1934

The condition of the oyster industry in this State is reflected in the comparative figures given in detail in the Annual Repart of the Conservation Department for 1933, on Page 131.

In 1920 the production of Maryland oysters was .... 4,959,962 bu.

In 1933 it was ..... 1,805,118 bu.

Showing a decrease of.. 3,154,844 bu.

This decrease in production was naturally accompanied by a material decrease in the number and wages of those following the industry as a livelihood, forcing many of them out of emplyment, and it has seriusly affected also the business of numerous merchants, storekeepers and others who are largely or entirely dependnt upon the oyster industry for their living.

If the decrease in production goes on much further, the industry cannot survive. It is very near the bottom now, and unless the downward trend is stopped, there are competent judges who believe that in a few years it will simply cease to exist. In any event, the industry is a very sick patient, and favorable and cheering publicity will not save it. What is needed is a plan adequate to effect the cure.

The Legislature of 1929 adopted some very comprehensive oyster legislation. The underlying policy was shell and oyster planting on the natural bars of the State. This policy was put into effect, and it was hoped that it would rehabilitate the industry. Experience since has shown that the policy is sound, but that it was not undertaken on a sufficiently extensive basis.

The plan I now propose may not meet th approval of everybody. No plan will. But all things cnsidered and all allowances made. I think it is the plan which offers the greatest assurance of success, and it embodies the best thought and recommendations of those engaged in the industry.

In the first place, I am not one of those who believe in the private leasing of the natural oyster bars of the State. My attiutde about this is well known, and is stated in the platforms on which I have run for Governor before, as well as in our present platform, and in my Messages to the Legislature.

The plan here submitted is based upon our present platform plank in regard to planting, and more definitely is as follows:

1. The production which should be our goai for a rehabilitated oyster industry is not less than 5,000,000 bushels a year.

2. Shell planting should be continued on the public bars, but we should concentrate much more on the planting of seed oysters, because they will reach marketable size earlier. The number of seed, oysters planted under existing laws was helpful to many acres, but far too few to replenish the oyster supply in general. The aim should be to plant as promptly as possible up to 3,000,000 bushels of seed oysters. While estimates vary, well informed people in the industry believe that this amount of seed oysters plus the oysters on the bottoms now, shuld yield an annual production of about 5,000,000 bushels, which would replenish the industry.

The seed aras at the head of the Chesapeake Bay and in the tributaries should be extended for future transplanting.

3. It is not probable that so many seed oysters can be found in Maryland waters. It is true that many packers and watermen dispute this, and estimate the supply in the seed areas at from five to ten million bushels or more.

On the other hand, more conservative authorities estimate the seed oysters available for transplanting at a considerably smaller amount, and should this be the case, then the additional seed oysters would have to be obtained from the seed areas of other States.

The success of the plan, however, depends upon the quantity of seed oysters transplanted, so every effort must be made to secure the maximum number of seed oysters which are available and suitable for planting in Maryland waters.

4. The transplanting would be a very large undertaking, and would furnish much needed employment to dredgers and tongers.

5. The transplanting should be done between March 15, 1935 and June 15, 1935. Informed people believe that if this is done the new oysters can be harvested next Fall or early Winter. More conservative opinion is that they should not be harvested until the Fall or eearly Winter of 1936.

6. The cost of this planting program would probably approximate $500,000. Every effort would be made to induce the Federal Government to share this.

7. There must be strict enforcement of the Cull Law, with an adjustment of the leeway, if necessary.

The above is a very extensive plan, a major undertakng. It involves factors which must be worked out with judgment, skill and experience. It requires, almost above everything else, a high degree of cooperation and mutual confidence between the different branches of the industry and the Conservation Department.

It is no secret that this does not exist now to the extent that it should. There is no need to discuss this situation at the present time, but in the near future ffull consideration will be given to the advisability of some reorganization or new set-up within the Conservation Department before carrying out the plan proposed.

In this connectin, it seems it me that the quite different functions of the conservation of commercial seafood, on the one hand, and f game and inland fish on the other, which are now combined, could be separated to the mutual benefit of both, as I understand is already done in Pennsylvania, Virginia, Delaware, North Carolina and other States.

COURT ADJOURNS UNTIL NEXT TUESDAY

NOLAND STORE ROBBERS GET 18 MONTHS

What might be considered a record is the fact that although Court has been in session in Kent County since Monday there has not been one single case tried before a jury. The criminal cases tried to date have all been before Court. The Grand Jury finished their work in the record time of two days and brought in only seven indictments which is considered another record. This small amount of criminal work at the Court sessions can be largely attributed to the recent act of the Maryland Legislature giving Police Magistrates jurisdiction over larceny cases where the value of the goods stolen does not exceed $25.

Clarence Newsome, Betterton business man, was foreman of the Grand Jury with Charles H. Brice as clerk and Olin S. Davis as assistant clerk. Besides these three other members of the jury were: Arthur M. Lusby, Charles J. Reiche, Charles H. Hudson, William F. Gale, S. Herbert Lusby, George W. Plummer, Wroth Stavely, Harvey B. Moore, Rollison Baxter, John R. Dowling, B. Neal Willson, Thomas S. Toulson, William A. Hyland, William B. Cleaver, Julian Jones, Walter T. Bramble, T. Ringgold Jones, Andrew P. Toulson, Thomas W. Trew and James F. Hurtt.

The report of the Grand Jury, which was submitted to Associate Judge Thomas J. Keating, was as follows:

"We, the Grand Jurors of Kent County, with your selection of Clarence Newsome as our forman, do make this our formal report:

"We have been in session two days, have examined 42 witnesses had seven presentments and found seven true bills.

"We have visited the jail and found same in good, clean and sanitary condition.

"The Grand Jury has indicted in slot machine cases which present certain exaggerated features. This Honorable Court and to future grand juries that all persons who have slot machines in their possession be indicted after this warning. They also recommend that the officers continue to seize all slot machines in the county and arrest the violators and be especially diligent in arresting those who place slot machines in the county. They also recommend that the sheriff confiscate the slot machines which has been seized and turn over to the county the money which they contain.

"This Jury extends its appreciation to the Honorable Court, the State's Attorney, the Sheriff, the Clerk of Court and all other officials for their courtesy and assistance during this session."

As court convened on Monday J. Cordray Loud was appointed bailiff in the place of Charles W. Ryckman.

Drawn for service on the petit juries were: Harry C. Cacy, Walter B. Harris, Thomas J. Davis, John A. Kelley, Carroll K. Dulin, Samuel C. Emory, R. Bradford Johnson, Robert A. Bowers, Fred G. Usilton, W. Melvin Warner, W. Tilden Brice, Jr., Edward M. Wilkins, W. Leo Gale, Herbert S. Ford, Joseph M. Norris, J. Hydie Thompson, J. Abner Bryden, Charles P. Jones, George M. Glenn, James G. Beck, C. Bradley Kerr, James B. Stevens, C. Lee Gill, George E. Bramble, Noble M. Moffett.

The appeal case of George Whitely for disorderly conduct was dismissed on motion by the State and Howard Howe was found not guilty on a charge of disorderly conduct. Court adjourned on Tuesday until Thursday, and Thursday morning the Jury was dismissed until next Tuesday. A number of cases were tried before Court on Thursday as follows:

Joe Davis, appeal from Justice Kerr's verdict of 35 months in the House of Correction for assault and battery on Maude Price near Rock Hall, was found guilty and sentenced to 30 months in the House of Correction. He has spent five months in the Cunty jail.

Godfrey Richetts and William Graves were found guilty of being connected with the robbery at Noland's store were sentenced to eighteen months in the Maryland House of Correction. Both boys are 19 years old and have criminal recrds. Only a small portion of the loot was recovered. Julia Graves, charged with receiving stolen goods, was found not guilty. The Court adjourned on Thursday until next Tuesday.

—A meeting of the Regatta Committees of he Chester River Yacht and Country Club will be held Sunday night, October 21 at 8 p. m.

FIRE DESTROYS BARN

Fire of unkown origin destroyed the barn on the farm of Mr. H. Stockton Startt, tenanted by Mr. Edward Perry near Fairlee, last Sunday evening.

Mr. Perry was in the cow stable milking when a young boy at the house saw the fire in the peak of the barn. As the fire was in the top of the building Mr. Perry with the assistance of neighbors, was able to get all of his stock and equipment out of the building, confining the loss to the barn and a quantity of hay stored in it.

The Chestertown Fire Company succeeded in saving a number of outbuildings close to the burning building by keeping them wet with water from the booster system. The Rock Hall Fire Company responded to a call with their new fire truck which carries 250 gallons of water and assisted in preventing the fire from spreading.

The loss, which included the building and hay, was estimated at $3500.

HOSPITAL BOARD NAMED

At a meeting of the temporary Board of the Kent and Upper Queen Anne's County Hospital, held at the hospital building on Thursday evening of this week the managing Board was named who will have charge of the operation and management of the local hospital.

The temporary Board which has been functioning during the past four years, during which time the hospital building has been built as well as a great deal of litigation with reference to the financing of construction has been worked out.

This Board has worked faithfully against many odds to carry out the wishes of those who showed through their generous subscriptions that a hospital was wanted and needed in this section.

In naming the Board care was given to name those people to represent the various sections of the territory to be served by the hospital who were suggested by the contributors from that section. Replacements were necessary in some cases due to sickness, death, etc.

The new board as named to represent the first Board of Directors of the Kent and Upper Queen Anne's County hospital are:

Mrs. Nora C. Maxwell, of Chestertown.
Mr. Wm. G. Smyth, of Chestertown.
Mr. A. L. Sparks, of Chestertown.
Mr. R. H. Rogers, of Chestertown.
Mr. R. O. Wright, of Chestertown.
Mr. L. G Brown, of Chestertown.
Mrs. W. H. Wyllie, of Fairlee.
Mr. G. E. Leary, of Rock Hall.
Mr. B. Trew Durding, of Rock Hall.
Mr. Harry Massey of Church Hill.
Mr. Howard Turner, of Betterton.
Mr. W. T. Nickerson, of McGinnis Corner.
Mr. S. C. Loller, of Worton.
Mr. C. M. Melvin, of Millington.
Mrs. Robert Young, of Kennedyville.
Mr. Joseph George, of Sudlersville.

The above named Board will meet at the hospital building next Thursday evening at which time officers will be elected.

Among those who have worked deligently on the temporary hospital and assisted materially in the construction and helped solve the many problems that have been overcome is Mrs. John H. Clendaniel who is unable to serve on the permanent Board. Others to whom a large part of the credit is due for the work that has been accomplished are the late W. Irving Walker and Fred S. Russell.

THE PRESENT PRICE of turkeys on the hoof in Kent County is 25 cents a pound.

MR. HARRY N. STAVELY assumed his duties as Judge of the Orphans' Court on Tuesday and Thursday of this week.

CAPT. WASH WOODALL rescued another party of fisherman from Baltimore early Sunday morning near Love Point. The boat had broken its tiller and the motor had gone dead. With a sea rolling Capt. Woodall towed them into Love Point. It seems that we print something nearly every week about Capt. Woodall rescuing somebody.

He ought to fly a Coast Guard flag.

WINNERS, MILLER'S AT ROCK HALL were 1st prize, Mr. Thomas Maslin, 2nd prize, Mrs. Arthur Cooper, 3rd prize, Mrs. Annie Taylor.

MR. EDGAR WALLS, of Crumpton, with his dogs won the field trials at New Brunswick, N. J. Mr. Walls won $100 prize. Since September 9th one of Mr. Wall's dogs has won $239.10. Mr. Walls has entered his dogs in thirteen trials this summer and they have been consistant winners.

MR. DUNCAN DERRINGER says 'From now on I am taking my time.' The other night he thought he would put the gray paint on his canvass back decoys. With an old lantern he mixed up the proper shade of gray. After completing his work he stood and admired them thinking it the best paint job he had ever done in decoys. But when he viewed them in daylight to his horror they were painted pink. From now on the decoys will be painted in daylight.
