HUNTERS! ATTENTION!

Ernest N. Smith, Executive Vice-President of the American Automobile Association, has called our attention to complaints coming from A. A. A. members riding over Maryland roads to the effect that hunters are very careless in shooting near travelled highways. Such action is very unbecoming the hunting public of Maryland and very serious accidents may occur from such practices.

Whether it be a state highway or a county highway, hunters should not shoot across or in the vicinity of any travelled roads. I am sure that the majority of the hunters of Maryland do not desire to cause any casualties and would be grief-stricken if their carelessness was the cause of someone being injured and we appeal to you at this time not to hunt or shoot near travelled highways at any time.
E. Lee LeCompte, State Game Warden
