Having won two games in the Maryland College league by defeating Hopkins and Western Maryland, Washington College plays its third league game tonight, Saturday at the armory when Mt. St. Mary's will be the visitor.

One of the largest number of spectators to witness a basket ball game in Chestertown packed the armory last Saturday night to see the local five win over Western Maryland 38 to 36. On Friday of last week Washington won over Hopkins 26 to 16.

For the dopesters who like to figure things out. Mt. St. Mary's has defeated Loyola. Hopkins defeated Mt. St. Mary's. Washington defeated Hopkins and Western Maryland.

IN THIS ISSUE

In this issue wil be found an abridged version of Dicken's famous story, 'David Copperfield.'

It is told in such a simple style that it can be easily comprehended by children, and also in such an interesting way that adults will enjoy recalling the story again.

Charles Dickens is coming to his own again, and his stories are being read more and more.

This version of the story is just as it is shown in the movies and is being sent out by the Metro Golden Co.

'Eat, Drink and Be Merry,' we'll soon be sixty and won't have to work anymore. We say, 'anymore,' if you consider thirty hours a week work.

Yes, is certainly is nice for us poor boys, this thing if thrift and saving up for a rainy day is all bunk. In fact it looks like thrift is going to count against you. Spend everything as you get your hands on it, nothing to worry about, the government will take care of you.

Why work the thirty hours even? Unemployment insurance will take care of you or else the government will give you a job. In any case it comes to a decision of working (?) thirty hours a week, why loaf on the government.

If this present legislation goes thru, any citizen of the United States, who has not been used to luxuries as you might call them, will be rich.

It is certainly to the credit of the United States that when they staged a revolution it was bloodless. Two years of strife and battle and no bloodshed. Taking everything into consideration conditions are better, but let's hope we do not have a relapse.

One thing that has been considered a failure during the revolution is the N. R. A. Failure yes, but not for the lowly working man. To the employer and the high paid working people it was a blow. But to the fellow who had nothing under him but the floor, it fixed a wage scale and regulated his hours, so it was no failure for him. He is the boy you want to keep your eye on.

There is one friend besides myself that I cannot help but feel a little concerned over. That is the farmer. How is he going to work his labor so long when that laborer can cast his eye into town and see how well off his brother is.

A hand for the local boys. Why some people wish bad luck to their own home folks is more than I can understand. When Washington College puts a team in the field or floor there are some among us who wish them defeat no matter who the opposition can be. The same thing can be said for our local baseball clubs, but the most outstanding show of this is at the fights at Centreville. The local boy climbs into the ring with some unknown opponent and instantly the home folks start yelling for the local boy's head.

A glaring example of this is the Cosden boys of Cordova. Whenever they are scheduled to fight you can bet your bottom dollar they will be there. They never fail to show up or send a substitute like so many of the visitors do. They give their best in the way of a fight and have never been known to lay down for the count. That is a real sportsman and yet they are not so popular.

Another one. 'Reds' Smith who trans a string of boxers at Betterton has never failed to have his men put in appearance and they are aways in the ring on time. All of 'Reds' men have fought with the best that was in them. Why should they not be popular.

'Big Boy' Smith from Princes Anne became very unpopular. He was another one, always there and willing to take on any opposition. To keep from dissappointing the fans he fought a 'singer' one night who showed up as a substitue. Real sportsmanship.

While on the subject I was reminded of the fact that tahe Golf team of the Chester River acht and Country Club had never failed to be on time at every match and have a full sixteen man team.

Real sportsmanship should be appreciated.

Esthetic Sense Defined

The sense of beauty, or the esthetic sense, has been defined as the power for wise use and enjoyment of natural surroundings and the human body in the first place, and, in the second, a similar power in the work of human creation—a noble building, a great picture, a refined piece of handicraft, poetry and music.

Holes in Swiss Cheese Are Principally Bacteria

Holes in cheese are principally a matter of microscopic animals, bacteria, if you prefer. First, there's a sphere-shaped organism called streptococcus thermphiles, which operates at high temperatures, breaking down sugar into acids. Then there's lactobacillus bulgaricus which goes to work after the cheese has cooled and streptococcus has quit making more acid.

Lastly, there's the rod-shaped propionibacterium shermanii, really more responsible than any of the other bacteria for holes in cheese because in growing it gives off carbon dioxide gas. The gas gathers in bubbles. Slice a Swiss cheese bubble and you have a hole.

The Swiss, according to an authority, make cheese by instinct, more than anything else, by rule of thumb, as it were. They've been making it for centuries. They rear their bacteria in the whey, and add the whey to the milk.

It is recognized as a safe, sure, QUICKEway. For it will relieve an ordinary cold almost as fast as you caught it.

Ask your doctor about this. And when you buy, be sure that you get the real BAYER Aspirin Tablets. They dissolve (disintegrate) almost instantly. And thus work almost instantly when you take them.
