FIRE CO. ELECTS OFFICERS

(continued from page 1)

"Another year has rolled around and still finds our organization going strong, while towns all around us have suffered great losses through fire. We, through the mercy of God, and the willingness and alertness of our men, have suffered no great loss. The year which has just passed has been to me a more pleasant one in that everything has worked smoothly, and that there seemingly has been no petty jealousies or hard feelings in our ranks.

"I have been very happy to have been associated with such a fine body of men and to have served as your President. During the past 15 weeks our attendance has been greater than at any other time during the year. This, as you know, has been brought about, by the weekly drawing of winning names and I reccommend that this drawing be continued during the coming year, for this has acted as a great stimulus to our company. There is nothing more disheartening to your President than to hold meetings week after week with hardly more than enough to make a quorum.

"There are some recommendations I should like to make, but owing to the condition of our Treasury, I do not think it the proper time to make them. We will, however, have the report of a committee which was appointed to make recommendations on a new truck, and which in my judgment is badly needed, and which I think at this time can be successfully financed, while our present apparatus is in fair condition. I feel sure all of you know that it has given us years of service and that we are liable to have trouble with it most any time.

There are very few organizations in the county whose financial condition is as good as it was 5 years ago. The depression which has swept the country has made it especially hard for all volunteer fire companies and I deem it my duty at this time, to urge all our members to be reasonable in their demands, and as economical as possible, for while we are out of debt we must make the best use of the funds we have in hand.

"There was a great deal of uneasiness in our company during last winter on account of our band being disorganized. This I am glad to say has all been cleared up, and I wish to extend our thanks to Mr. W. H. Elliott under whose leadership the band was reorganized and some new uniforms purchased. Also to Prof. L. B. Van Petten who is now directing the band and through his efforts has been brought up to a high standard and in our judgment is second to none on the Eastern Shore of Maryland.

"In July of the past year we decided not to hold a carnival, which was a great load lifted from the shoulders of all of us. The credit for this is due to Mr. L. G. Brown, one of our very good members, who solicited contributions from the citizens of the town and whose work in this respect has been untiring, and he has the thanks of our entire organization.

"There was collected about $1500.

"In August we suffered the loss of one of our best beloved members, Fred S. Russell, a man who was loved by all of us; a man whose place in this organization will be very hard to fill; a man of wonderful ideas; and one who was always ready and willing to do his part. While he has left a vacancy in our ranks, there lingers in our hearts a sweet memory of him.

"I cannot close this report without thanking the officers and members for your kindness and consideration of me and for the manner in which we have all worked together. It has been a pleasure to have been associated and to have served as your presiding officer during the past year. I especially wish to thank our secretary, Mr. Raymond East, who has been a wonderful help to me. He has been faithful and prompt in all his duties and he is deserving of the thanks of the company.

"In closing my term of office as your President, I again, appeal to you for harmony in our ranks during the coming year, and I ask you to give to my successor and all other officers whom you may elect tonight your hearty support."

CONSTIPATION Can be Helped!

(Use what Doctors do)

Why do the bowels usually move regularly and thoroughly, long after a physician has given you treatment for constipation?

Because the doctor gives a *liquid* laxative that can always be taken in the right amount. You can gradually reduce the dose. *Reduced dosage is the secret of real and safe relief from constipation.*

Ask your doctor about this. Ask your druggist how popular liquid laxatives have become. The right liquid laxative gives the right kind of help, and the right amount of help. When the dose is repeated, instead of more each time, you take *less*. Until the bowels are moving regularly and thoroughly without any help at all.

The liquid laxative generally used is Dr. Caldwell's Syrup Pepsin. It contains senna and cascara, and these are *natural* laxatives that form no habit — even in children. Your druggist has it; ask for—

Dr. Caldwell's SYRUP PEPSIN

RESOLUTIONS ADOPTED AT FARM CONVENTION

O'NEAL AND GOLDSBORO TALK AT BANQUET

With added support of a large increase in State membership, the Maryland Farm Bureau Federation took a firm stand on a wide range of resolutions at the closing session of their annual meeting in Baltimore last week. Many of the larger questions had been presented at earlier sessions by national leaders both in farm organizations and governmental departments.

Nearly a score of important resolutions bearing upon agricultural and allied interests were adopted at the Friday session. The tax resolution, embodying a 20 page report compiled by experts under the direction of the Maryland Farm Bureau and the State Grange, was unanimously adopted. Based on this report, the committee recommended immediate enactment of legislation providing for a state income tax as a permanent adjunct to the State's taxing system; revision of the present inheritance tax, and urging greater uniformity among the counties in tax collection methods. Other resolutions critizied the present phone rates and urged the Public Service Commission to continue its fight for lower schedules. Other resolutions recomemded the construction of power dams on the Potomac; State owned ferries in lieu of subsidies, and opposed further shortening of the working week particularly as applied to agriculture or to the processing of farm products.

Following the general tone sounded by M. L. Wilson, Assistant Secretary of Agriculture, and of Chester H. Gray, Washington representative of the American Farm Bureau Federation, who outlined the Farm Bureau's 1935 legislative program, the committee adoptd a resolution urging the retention of the AAA as permanent legislation, but recommending certain modifications to provide for greater flexibility in application.

A resolution looking toward the establishing of Irish potatoes as a basic commodity under the provisions of the Adjustment Act, was also adopted.

In addition to a resolution pledging support in the development of an intelligent 'land use' policy, Edward A. O'Neal, president of the American Farm Bureau Federation, in his address at the banquet on Thursday night, struck a warning note against the launching of such ventures as subsitence homesteads on a large scale without due and proper consideration of all angles involved.

Congressman Goldsboro's speech at the banquet drew applause when he declared that the major question confronting the American people was the problem of distribution. Mr. Robert Irvin, secretary to Governor Nice, spoke briefly at the banquet and brought greetings from the Governor. Dr. R. A. Pearson, president of the University of Maryland, was toastmaster.

Charles T. Cockey, Jr., of Baltimore County, was reelected president of the federation, and Harry Nuttle, of Caroline County, was relected vice president; C. E. Wise, Jr., was renamed to the post of secretary treasurer.

January and February are rich in birthdays, January the 13th is the birthday of Robert E. Lee general, hero, and gentleman.

There was a great service held in his memory in the great choir of the Cathedral at Washington last Sunday. Great crowds were there to listen to the Bishop of Washington and Douglas S. Freeman, editor of 'The Richmond News Leader' eulogize Gen. Lie's blameless life and his great influence over the young men whom he taught after he had laid aside his military duties.

KENNEDYVILLE
