COMEDY ROUND-UP

RUGGLES OF RED GAP

A cast of Hollywood's stellar come-dians have been assembled for the leading roles of Paramount's 'Ruggles of Red Gap,' which comes on Monday and Tuesday, April 1 and 2 to the New Lyceum Theatre. Reading from top to bottom and lef to right, they areRoland Young, Maude Eburne, Lucien Littlefield, ZaSu Pitts, Charles Laugh on who has the title role, Mary Boland and Charlie Ruggles.

Charles Laughton, eminent English actor who plays his first full-length comedy part in the title role of Paramount's 'Ruggles of Red Gap,' coming on Monday and Tuesday, April 1 and 2 to the New Lyceum Theatre, now believes with the rest of his professional brethren that comedy roles are far more difficult to play than those of dramatic calibre.

Laughton, whose film career has been principally concerned with a series of sinister and psychopathic characterizations, says, 'Although I have played a number of comedy roles on the stage, I didn't fully realize the difficulties of being funny until I began 'Ruggles of Red Cap'.'

Even 'The Private Life of Henry VIII,' which won Laughton the coveted Academy Award, could hardly be described as a hilarious picture, and his brief flash in 'If I Had a Million,' although extraordinarily funny, was too brief to be counted as comedy characterization.

With several scenes in 'Ruggles of Red Cap,' that are almost pure slapstick, Laughton feels that his new picture will cause a complete revaluation of his acting ability in the eyes of the American picture-going public.

A cast of stellar Hollywood comedians have been assembled to assist Laughton in 'Ruggles of Red Cap.' They include Mary Boland, Charlie Ruggles, ZaSu Pitts, Roland Young and Lelia Hyams.

Set in the gusty and booming 1900's, 'Ruggles of Red Cap,' is the comedy of a couple who win a perfect butler in a poker game in Paris. They bring him back to Red Gap, U. S. A., to dazzle their provincial society. To their amazement and his own, the gentleman's gentleman turns into a 'regular guy.'

A true picture of the Cape Cod life of today, as well as of yesterday, because it has little changed—portrayed in RKO-Radio's 'Captain Hurricane,' which features the incomparable quartet—James Barton, Helen Westley, Helen Mack and Gene Lockhart.

John Robertson, the director, Josephine Lovett, his wife who did the screen play; many of the actors, the art director, and many others connected with the picture have lived on the Cape and know it well.

They have reproduced with fidelity the life on the Cape—where the women, waiting the return of their husbands from the sea, sit in dignified aloofness and watch 'the pass,' as they term the parade of summer visitors.

There is a strong social barrier between the old residents and the visitors who come from the city for the summer. They have a great pride, these Cape folk.

Many people of the Cape are descendants of the hardy souls who came over on the Mayflower, and they are proud of the fact.

All their quaint beliefs and habits form a delightful back ground for 'Captain Hurricane," RKO-Radio Picture which comes to the New Lyceum on Wednesday and Thursday, April 3 and 4.

If you like chuckles with your chills, grins with your gasps, and smiles with your shudders, don't miss 'Death Flies East,' Columbia's baffling mystery drama of death in mid-air, which shows at theNew Lyceum on Friday, and Saturday, April 5 and 6 or part of a double feature program.

An exciting drama, 'Death Flies East' combines mystifying moments with laugh provoking situations. Director Phil Rosen, ably aided by authors Philip Wylie, Albert Demond and Fred Niblo, Jr., has turned out a picture which holds you breathless and tense, and never once insults your intelligence.

As the title suggests, the action of the film takes place almost entirely within the confines of a modern air liner eastbound from California to New York. Death strikes one passenger in a mysterious fashion while another barely escapes the lethal grip. The rest of the passengers, recovering from their terror, hold their inquest and apprehend the murderer before the plane reaches the nearest city where police are waiting to investigate.

Conrad Nagel and Florence Rice in the principal roles perform with finesse and ability.

SUDLERSVILLE GIRL SCOUTS

HAVE BUSY SEASON WHICH CLOSES JUNE 1ST

Troop No. 1 Girl Scouts of Sudlersville have had excellent attendance during the fall and winter and have accomplished the program decided upon in the fall.

A Christmas party was given the troop by Mrs. Howard Jaquett on Saturday, December 29th. During the freeze early in Jan. the troop went to Millington Lake on a supper hike. We enjoyed skating and stedding built a huge fire and cooked supper.

One new scout, Margaret Jones, of Millington was invested on February 16. A Valentine party was held on February 16 and greatly enjoyed.

The February 23 meeting was given over to international songs, readings and stories in observance of International month. Armorer Randolph Collier of Co. K. is instructing the troop in the use of ligh fire arms and target practice. The girls are making splendid progress and thoroughly enjoying it.

This winter a fine reference library has been started by the troop. The first contribution is a book of birds published by the National Geographic and was a gift from Mrs. Jos. M. George, Sr., Harriett Walls was made librarian with Charlotte Everett assistant.

The troop is planning to hold one major benefit on April 26 in Cox Hall, Sudlersville. There will be cards, Bingo, refreshments and prizes. The proceeds will be used for various needed equipment and the summer camp fund. Weekly meetings will close the last of May with a Mother and Daughter supper prepared by the troop. At this time awards and badges will be presented.

Subscription to the Transcript $1.50 per annum.

TIME TO TEST SEED CORN FOR GERMINATION

County Agent, J. D. McVean, calls attention to the need of testing seed corn to determine its suitability for planting.

If the germination is low and weak the corn should not be used for seed. Farmers expecting to sell seed corn, especially, should know the quality of the corn they are selling. Any farmer desiring to have his corn tested should get in touch with the County Agent. About a pint of grain from representative ears should be supplied in order that the germination test may be made.

It is possible to have seed corn certified if the farmer knows its origin and t traces back to a certified source. Seed corn should bring a good price this spring as demand will be greater than usual due to the poor corn in the drought areas.

Sudan Grass

For those needing an emergency summer pasture grass and where sweet clover is not a certainty, sudan grass is worthy of careful consideration. True it does not make early spring pasture, it is not a legume and is not entirely safe to use after killing frost comes, yet it furnishes an abundance of feed in relativeiy short time and will continue to produce abundantly throughout the growing season.

Each year extension service receives inquiries about this crop. It will make a fair coarse hay if cut early enough and weather conditions permit proper curing. Ordinarily other hays are more dependable.

The time for seeding sudan grass is when the weather becomes warm, usually a week to ten days after corn planting time. In six or seven weeks under normal conditions, the grass is large enough to graze. Once established it grows very rapidly and frequently the difficulty is to control it by grazing it. If over grazing is practiced, however, it should be given a few days rest from grazing, in order that it may regain a growing start, otherwise the crop may be ruined.

The rate of seeding varies from 15 to 30 pounds to acre, probably 20 pounds would be adequate in this area.

Invented the Banjo

The banjo as we know it today is scarcely one hundred years old and is distinctly an American instrument, since it originated among the negroes of the South. They developed it into the five-string or "Dixie" banjo which has been replaced in most dance orchestras by the "tenor" instrument with a shorter neck and but four strings. Original banjos were undoubtedly patterned after primitive instruments of the African west coast negroes. Similar instruments with grass strings are still used on the Guinea coast.—Pathfinder Magazine.

"Nerves" "NERVES" "Nerves"

Dr. Miles NERVINE *"Did the work"* says Miss Glivar *WHY DON'T YOU TRY IT?*

After more than three months of suffering from a nervous ailment, Miss Glivar used Dr. Miles Nervine which gave her such splendid results that she wrote us an enthusiastic letter.

If you suffer from "Nerves." If you lie awake nights, start at sudden noises, tire easily, are cranky, blue and fidgety, your nerves are probably out of order.

Quiet and relax them with the same medicine that "did the work" for this Colorado girl.

Whether your "Nerves" have troubled you for hours or for years, you'll find this time-tested remedy effective.

At Drug Stores 25c and $1.00.

WHERE'S MOTHER?

TELEPHONING AUNT EMMA

THEY are talking about the church affair next week.

Mother does a good deal of telephoning every day to members of the family and to the neighbors.

She says it keeps her from ever feeling lonesome any more.

And she feels safer knowing that she can reach the doctor on a moment's notice and get help quickly if there's a fire.

WORTON

Miss Emma C. Cooper returned to her home in Pleasantville, N. Y., Thursday after spending some time with relatives here.

Mr. and Mrs. George T. Williams, Jr., of Baltimore, visited his parents, Mr. and Mrs. George Williams last week end.

Mrs. Henrietta Rasin has returned to her home after spending the winter with her daughter, Mr. and Mrs. Harry J. Rouse, of Aberdeen, who accompanied her home for the week end.

We were sorry to hear of the death of Mrs. Jean Gibson, of Baltimore, who was a sister, of Mrs. W. E. Loud and was a frequent visitor here. We extend our sympathy to the family.

Owing to Rev. Hamblin being away to conference there will be no preaching or Sunday School next Sunday.

The Ladies Aid will meet at the home of Mrs. Marion Rash, Thursday afternoon, April 4th.

Mr. and Mrs. W. O. Draper, of Easton, visited her parents, Mr. and Mrs. C. H. Clayville Sunday. Mrs. Clayville accompanied them home, she and Mrs. Draper visited Baltimore this week.

Mr. Thomas Hadaway has returned home after spending some time in Baltimore.

Mr. and Mrs. Charles Joiner, and Mr. Paul Joiner spent Sunday with relatives in Philadelphia.

George Rasin, Jr., student of Washington College is spending this week at his home here it beeng spring vacation.

Mrs. Harry Williams, Mrs. Roger Harris and George Clayville spent Wednesday in Wilmington.

We are glad to report Norman Carter, Jr. is still improving at his home near here.

HOW TO ENCHANT YOUR HUSBAND

Butterscotch: 'You say that Gaybird loves his wife more since she has sued another woman for alienation o faffections?'

Milk Toast: 'Yes, he never suspected before that his wife considered his affections worth $100,000.'

JOHNNY ON THE SPOT FOR COAL—149

Our coalis a hit—every little bit of it. It is properly screened at the mines and delivered to you in full weight tons. Our delivery punctuality will please you.

FORD V·8

In A Class By Itself

THERE is no way to compare the Ford V-8 with any other car because there is no other car like it.

The Ford enables you to step up into the fine-car class in performance, beauty, comfort and safety. But there is no stepping up in price. That is kept down by Ford low-profit policies and unique manufacturing methods. These are as different as the car itself.

It takes eight cylinders to give the modern performance you need these days. The Ford is powered by a V-8 — the finest type of eight-cylinder engine. You have to pay more than $2000 for that in any other car.

FORD MOTOR COMPANY

IF YOUR BREATH HAS A SMELL YOU CAN'T FEEL WELL

When we eat too much, our food decays in our bowels. Our friends smell this decay coming out of our mouth and call it bad breath. We feel the poison of this decay all over our body. It makes us gloomy, grouchy and no good for anything.

What makes the food decay in the bowels? Well, when we eat too much, our bile juice can't digest it. What is the bile juice? It is the most vital digestive juice in our body. Unless 2 pints of it are flowing from our liver into our bowels every day, our movements get hard and constipated and ¾ of our food decays in our 28 feet of bowels. This decay sends poison all over our body every six minutes.

When our friends smell our bad breath (but we don't) and we feel like a whipped tomcat, don't use a mouthwash or take a laxative. Get at the cause. Take Carter's Little Liver Pills which gently start the flow of your bile juice. But if "something better" is offered you, don't buy it, for it may be a calomel (mercury) pill, which loosens teeth, gripes and scalds the rectum in many people. Ask for Carter's Little Liver Pills by name and get what you ask for—25¢. ©1934, C.M.Co.
