BODY OF BABY FOUND ON SHORE

INFANT'S BODY, WRAPPED IN NEWSPAPER FOUND BY NEGRO

The body of a baby boy wrapped in a bundle of newspapers was found last Sunday on Tillery's Shore below Matapeake by Harrison Johns, Negro caretaker of the farm.

The infant which was several month's old had been placed there as it had not washed ashore from the bay, but there were no marks of identification or other clues that would aid in a search for the parents.

A footprint believed to be that of a woman, still remained in the sand near the body, according to the Negro, whose wife notified Dr. Charles E. Snyder at Stevensville.

State's Attorney Edwin H. Brown, of Queen Anne's county, ordered the body interred and is continuing an investigation. At last reports there had been no further developments in the case.

BRIDGE PROSPECTS HIT STUMBLING BLOCK

UNFORSEEN CONGRESSIONAL OPPOSITION ARISES

The details of starting the Chesapeake Bay Bridge found a stumbling block this week when Congressman Coal, of Baltimore county wants to be shown before he introduces a bill in the House extending the time of starting the bridge. The present time limit for starting the bridge expires next month.

The newly apointed Bridge authority is working on the project in an unofficial capacity and up until Mr. Coal's recent statement prospects were very bright for speedy construction.

FIRE THREATENS BLOCK IN CHESTERTOWN

STARTS WHEN OIL STOVE EXPLODES

A fire, which started when an oil stove exploded, threatened a block of frame homes on upper High street Thursday at noon.

The home of Mr. Charles Lloyd, where the fire started, was enveloped in flames when firemen arrived on the scene and soon spread to the home of Mr. Alfred Crew which is attached to the Lloyd home.

Firemen kept the flames confined to the two homes with two fire trucks pumping through four lines of hose. It was one of the most serious conflagrations here in recent years and only through heroic action on the part of the local firemen was more serious destruction prevented. The entire rear of the Lloyd home was burned out and fire was fast gaining headway into the Crew home until stopped by the flow of 800 gallons of water per minute which was being pumped by the two trucks.

Gasoline Fire Early Wednesday Morning

The fire on Thursday was the second real test of the new No. 3 pumper, the first test being early Wednesday morning when a gasoline fire started in the basement of the tenant house on the farm of Mr. Walter Bramble at the Western end of town when a negro employee was drawing gasoline from a tank.

The gasoline became ignited and the entire cellar was in flames when firemen arrived. They confined the flames to the cellar.

IN MEMORIAM

'Where are the legions that held the world in thrall,'
Bloodless shadows marching through oblivion
Serfs in all armies man had raised,
Now blown dust on the winds of time;
And the ideals which those legions mocked,
Were fought out in men's hearts and minds,
To decide a world's destiny.

Where are the battalions that plodded across the plains
Raising dust-clouds on every known road of the world
Supplying human fodder to the guns that wrought
Famine, Pestilance and Plague
All for a world's democracy,

Generation by generation the spore is spawned
Giving grist to the mills of the Gods of greed;
Each year new recruits are being taught
To destroy man's eternal kinship to man
And the glory ever measured by the cross
Fresh on the mound of our heroic dead
That man's avarice might be served.

LARGE STILL RAIDED NEAR GOLTS

SIX ARRESTS MADE—REPORTED LARGEST RAID ON EASTERN SHORE

What is considered by Federal agents to be the largest raid ever made on the Eastern Shore, took place near Golts Wednesday evening when a 150 gallon still was found and six arrests were made.

The still, which had been in operation only about a week, was found in a deep ravine on the farm of Mr. Woodall Jones between Sassafras and Golts and was in full operation when Federal officers and local deputy sheriffs walked up on it.

In addition to the 150 gallon still, officers confiscated 1200 gallons of mash, large quantities of east and oak chips and also coils and other equipment. 2000 pounds of sugar, a Ford truck and Chevrolet automobile were confiscated.

Previous to the raid, Tilghman Cook, tenant on the farm was arrested while driving a truck containing a large quantity of sugar and 30 gallons of alleged illegally made liquor. The officers then went to the still and found it in full operation, arresting Willie Pruit, of Belair, three other men runging from the scene. These three men, Cleveland Cacy and Track O'Donnell, of Virginia and Kenneth Horsey, of Golt were arrested at the Horsey home at 1 a. m. Friday morning. George Allen, colored, was held as a witness.

The arrest of Willie Pruit, who is reported to be the largest bootlegger on the Eastern Shore, ended a search for him of several months in connection with the violation of the Federal liquor laws. He originally hails from North Carolina, Track O'Donnell and Cleveland Cacy admitted ownership of the still.

The six men were given a hearing before Mr. Raymond Horney, Federal Magistrate, at Centreville Friday afternoon.

Included in the raiding party were: Federal officers Wliliam Roe and Henry Thompson and local deputies, John Bennett, Jr., Archie Lesage and Earl Pinder.

SENATOR ENSOR MEETS COUNTY COMMITTEE

Former Senator A. G. Ensor, of Harford County, Farm Representative of Federal Housing Administration, was in Kent on Tuesday renewing acquaintences and meeting with the Special Farm Advisory Committee composed of Mrs. Harry T. Williams, Howard S. Leaverton, L. A. Sutton, E. T. Massey, John Carvel Sutton, Frederick G. Usilton, Charles Kibler, and G. Ellsworth Leary.

The purpose of his visit was to explain the provisions of the Federal Housing Administration plan for repair, modernization and improvement of rural homes and out-buildings. Mr. Ensor is connected with the Title One Phase of the Act of Congress known as the 'National Housing Act.' Title 1 is called 'Housing Renovation and Modernization.' Broad interpretations permit of all sorts of improvement about farms such as lines for electric service; septic tanks; windmills; water systems; bath rooms; built-in equipment and wiring for electricity; new gates and fencing; milk houses or built-in cooling vats; concrete improvements in dairy barns and many other items. The primary motive back of the plan is to provide means for making the much needed farm improvements for all who desire them and feel they could pay for them over a period of 1 to 3 years, and in some cases 5 years. Repairs have been sadly neglected during the depression. Repairs should be made at once in the interest of sound economy. Incidentily, the repairs will put materials and skilled workmen to work and money in circulation thus improveing the economic situation for many groups,

ANDELOT ANGUS MAKES SALE

Among recent sales of Aberdeen Angus cattle, made by Andelot Stock farm, located at Worton Point, Kent County, were two foundation herds of high class breeding. One group went to LaBarrer and Dunkerley at West Friendship on the Frederick Road. The buyers are beginners in breeding of high class beef cattle. The second foundation herd were sold to the Glen Mary farm owned by Mr. Steele of Great Mills in St. Mary's County.

The Andelot Stock farm is the source of foundation herds for many beginners in high class breeding cattle, as well as commrecial beef production herds. This large enterprize in Kent County is a real asset. The various groups of black cattle are a sight worth seeing.
