EXTENSION OF THE time for building a bridge across Chesapeake Bay from Miller's Island to Tolchester is still held up by Congressman Cole, of Baltimore County. This necessary Congressional action is merely permission from the Federal Government to build a bridge across Chesapeake in view of the fact that that body has control of all inland waterways as far as obstructions to navigation is concerned. It is in no way connected with the granting of the loan for building the bridge or approval of the plans of the Chesapeake Bay authority. It is routine procedure in Congress that has been going on each two years since the Chesapeake Bay Company was first granted the authority to build the bridge eight years ago. With Congressman Cole, representing the Western end of the bridge, holding the bill in the Committee, and Congressman Goldsborough, representing the Eastern end of the bridge refusing to take any interest in the matter, it looks as if the upper end of he Eastern Shore has very little influence with their Congressional representatives. Congressman Goldsborough's indifference in the matter is based on his belief that there is no sentiment on the Shore for the bridge, that the proposed location is not the place for the bridge, and that he is afraid that a Federal loan for the bridge would take away from other P. W. A. grants to the Shore.

As to there being no sentiment on the Shore for the bridge, the question arises as to whether there is any sentiment against it except that which comes from Kent Island and Caroline County interests who are promoting real estate on that island. These interests are apparently afraid of the eventual elimination of the Matapeake ferry due to the fact that motorists will use the bridge in reference to the ferry. If this be true is it not an argument for the bridge as the traveling public will use the quickest and easiest means of transportation and if that be via bridge should they be denied this quickest and easiest route to and from the Western Shore. There was no sentiment on this section of the Shore for or against the Choptank River bridge or the various highways radiating out of Salisbury because while they were of little value here yet they marked progress in transportation in the State. It is very apparent that the average Shore citizen does no understand the provisions of the bridge bill which was recently passed by the Maryland Legislature in the fact that the bridge will in no way be a State obligation. A paragraph in the bridge bill reads, 'The cost of said bridge shall be payable out of revenue only and shall in no way be the debt or obligation of the State of Maryland or any sub-division thereof.'

As to the location of the bridge, the proposed location is the only one that has been formally proposed and the only one that has been approved by the engineering department of the U. S. Army. A bridge further down the Shore would make it of no use to a large section in the northern part of the Shore.

As to the taking away of Federal funds from other shore projects, what more suitable use could be made of P. W. A. funds than the bridge which represents a self liquidating project that will benefit thousands of motorists and tourists. As a project for National defense which is always of great interest to the spending of Federal funds, the bridge would offer a more direct route from Washington and Baltimore to the coast, particularly as modern army transportation is by fast moving trucks and the fact that the deepening of the C & D Canal will accomodate naval vessels. Has Congressman Goldsborough forgotten the support he has received from Kent County in past political campaigns and his own statements as to what Kent County has done for him sufficiently to ignore the requests of the people in this county?

HOGANS SUIT AT EASTON MONDAY

DEPOSIT INSURANCE
An Extra Measure of Protection

The management of this Bank always has taken every possible precaution to safeguard the funds of its depositors. In keeping with this traditionally conservative policy, deposits made here are now insured by the Federal Deposit Insurance Corporation.

The insurance thus provided applies to all deposits, including personal and corporate deposits deposits of public funds, and trust funds awaiting investment.

At the present time, the maximum amount insured for each depositor is $5,000. This does not mean that a depositor with an account of, say $500, is guaranteed $5,000, but it does mean that this $500 is fully insured. Deposit insurance is for your protection. It is a permanent part of the National law.

FOR THOSE WHO REMAIN

When death visits a home, the first concern is to perform the last service to the loved one in a becoming manner. What ever is done must express all the reverance and affection that is felt at such a time. But in addition to this a further responsibilty rests upon the funeral director. It is his privilege and duty to lessen as far as lies with in his power, the burdens laid upon those who remain. By countless little acts of thoughtfulness he can make the way easier for them.

We consider this part of our work as important as any other. Our highest aim is to have our patrons look upon us as trusted friends, ready and anxious to render sympathetic assistance to those who remain behind.
