THE COMMISSIONERS OF Kent County set the 1935-36 tax rate at $1.21 on Wednesday of this week. Faced with the problem of providing for heavy additional financial burdens caused by the refusal of the State Roads Commission to continue paying road bonds and interest, a large increase in the tax rate was inevitable. From the results of the election last November it is very evident that a majority of the voters in the county were content to assume this additional burden which they previously had been relieved of and the only alternative the Commissioners had was to sufficiently raise the rate to care for it. The Commissioners are to be congratulated on their effort to meet the situation in as an economical way as possible by raising the rate and floating a bond issue for the balance.

FROM ALL appearances the fate of the proposed Chesapeake Bay Bridge will depend entirely upon how kindly it is treated by Old Man Politics. There is little question of the worthness of the project at it is an ideal example of that for which the original four billion dollars was appropriated by Congress in the fact that it will give employment to all kinds of skilled and un-skilled labor and at the same time be of constructive public benefit. It is one of the few self liquidating projects that has been proposed for Maryland as compared to the tremendous grab for small local projects that are in no way self liquidating. The political situation is surrounded by petty jealousies and prejudices which are always prevalent in State and Federal affairs in spite of the fact that they are deplored by the large majority of the tax paying public. Just what will be the outcome depends largely upon the willingness of the average citizen to calmly sit by and let it go on. After all, those who are paying the bill should have some say as to what they are buying.

DEPOSIT INSURANCE
An Extra Measure of Protection

The management of this Bank always has taken every possible precaution to safeguard the funds of its depositors. In keeping with this traditionally conservative policy, deposits made here are now insured by the Federal Deposit Insurance Corporation.

The insurance thus provided applies to all deposits, including personal and corporate deposits deposits of public funds, and trust funds awaiting investment.

At the present time, the maximum amount insured for each depositor is $5,000. This does not mean that a depositor with an account of, say $500, is guaranteed $5,000, but it does mean that this $500 is fully insured. Deposit insurance is for your protection. It is a permanent part of the National law.
