THE AMERICAN PRESS ASSOCIATION

FROM RECENT STATEMENTS from P. W. A. officials it is very apparent that Federal funds will not be available for the Construction of a Chesapeake Bay bridge from Kent County to the Western Shore unless pressure can be brought to change the present rulings. This pressure is sadly lacking because those who are in a position to bring it are more interested in other Shore and Baltimore projects to take a chance on interferring with them. Reviewing the recent hope for a bay bridge we find.

1st—The Democratic Maryland Legislature passed the Bay Bridge bill as presented by Senator Arthur Brice of Kent county with little opposition.

2nd—Governor Nice delayed signing the bill and had delegations from Baltimore and Kent County appear before him and beg for his signature.

3rd—The Governor finally agreed to sign the bill after he was convinced that there was sufficient sentiment for it and that he would have the political authority of appointing a new Bay Bridge Authority of his own choosing. The proponents of the bridge succeeded in getting the necessary resignations to grant him this authority.

4th—It was understood that the Bay Bridge bill was approved by the administrators of the $4,000,000,000 P. W. A. fund and there was no question of a loan from that source. It became very evident later that these supposed authorities were speaking out of turn and that they merely had a job and subject to those higher up.

5th—It soon became apparent that the two Congressmen, Cole and Goldsborough, representing the territory leading to both ends of the bridge were opposing the project, who it will have to be admitted have some influence in Washington.

6th—Opposition seemed to spread among those officials who at first approved the project until recent rulings have apparently killed the issue.

7th—Governor Nice after first causing considerable worry among the proponents of the bridge until he secured his hand-picked Bridge Authority and power to change legal advisors receives considerable publicity by rushing to Washington to find out why, etc., the P. W. A. turned thumbs down on the project saying that he could muster half the population of Maryland to back him up on his demands.

8th—The people of Kent County will have to be content to see their share of P. W. A. funds spent on digging out the big ditch between Queen Anne's and Caroline Counties to drain more land for cultivation at a time when farmers are receiving a premium for cutting down production and leaving land idle. Also the deepening of the C. & D. Canal so that ocean going vessels may ply between Baltimore and Philadelphia to the detriment of the interests of shipping companies of more shallow draft.

With this brief history of the bay bridge project as we see it are the people of this county going to sit calmly by and accept the final verdict as it has been handed out or are we going to find out why? If this 'why' does not satisfy us what are we going to do about it? There is evidently little to be done except await the outcome of the internal friction between Ikes and Hopkins in Washington. The former leans toward the construction of lasting structures of general public benefit while the latter favors the spending of the appropriation for ditch digging, etc., which is of a temporary nature and spends practically all of the four billion dollars for labor. It is apparently to the interests of the bay bridge advocates and also the Board of Visitors and Governors of Washington College who have applied for a $300,000 loan for new buildings that Mr. Ikes wins out. In the meantime Kent countians may extend their efforts toward trying to change the present attiude of our local influential office holders.

KILLED IN FALL FROM TRUCK

James Lehman, of Baltimore, was instantly killed last Sunday night when he apparently fell from a truck owned by Mr. Emory Bonwill and driven by Mr. Ernest Hastings.

Mr. Hastings gave Lehman a ride to Baltiomre from Kent County where he had spent the week end with his relatives who are engaged in cutting asparagus on the Copper farm. Hastings stopepd his truck to let Lehman out upon arriving in Baltimore and found him lying in the roadi dead. He had evidently either jumped or fallen from the truck as it stopped.

Hastings was exonerated for all blame although he was held for driving with an expired chauffer's license. His license had expired the day before and he was going to have it renewed Monday morning.

LAW REQUIRES SAFETY GLASS

The state law prohibiting the replacement of any glass but safety glass in automobiles goes into effect July 1.

This means that replacement of broken windshield or window glass will have to be shatter-proof glass.

RECEIPES FOR STINGS AND BITES

STINGS AND BITES
By DR. WILLIAM J. SCHOLES

Many insects and reptiles excrete a poison by means of which they defend themselves and destroy their prey. What guns are to man such excretions are to these lower forms of life.

The stings of nearly all insects owe their effect to the formic acid which is the active ingredient of the excretion; the bites of reptiles to a venom which they excrete.

Treatment Of Insect Stings

A number of remedies are available for relieving insect stings. Ordinary ammonia is probably the most handy and as useful as any. Sometimes vinegar, pure or diluted is equally effective.

A useful application to prevent mosquitoes from biting is equal parts of oil of citronella and alcohol, which is to be applied freely to the exposed skin.

A 1 per cent or 2 per cent solution of carbolic acid relieves the itching, is antiseptic, and repels the insects. The exposed parts should be freely sponged with a piece of absorbent cotton saturated with the solution.

Collodion (commercially known as New Skin or Liquid Court Plaster) is another very useful remedy. It can be made even more effective by the additon of bichloride of mercury in the proportion of 1 to 1000 or by adding 5 grains of salicylic acid to the ounce.

Treatment of Snake Bite

Four thngs are to be done when a person s bitten by a poisonous repitle. Needless to say they should be done at once, as they are ineffective once the poison has entered the blood stream. Although I have them listed consecutively, they are to be performed practically simultaneously.

The first step is to suck the wound. Then slash the wound made by the fangs of the snake. Cut across the fang holes deeply enough to get a free flow of blood.

The second step is to fill the wound with permanganate of potash. Use the pure crystals and do not be afraid of using too much. The permanganate destroys all the poison it touches, but that is as far as its value reaches. Consequently it must be applied 15 minutes after the patient has been bitten.

Tourniquet Essential

The third step is to apply a tourniquet (bandage) around the limb, well above the bite. This band must be tight enough to stop the circulation. It should be removed for a second or two after it has been on for an hour, then reapplied for another hour.

The fifth step is the injection of snake antitoxin. This is know as antivenin. It is a protein in the serum of an animal that has had repeated injections of small amounts of snake venom. This, like the other procedures, must be performed at once. Delay of an hour or two makes it useless. Unfortunately, antivenin is seldom available, but that doesn't make the case hopeless as the other three procedures, promptly employed, will save 99 per cent of all patients.

SUMMER SUGGESTIONS

By BETTY WEBSTER

When I was a little girl I always felt rather 'out of it' because my birthday came in August and most of the other children could celebrate theirs during the school term.

When I learned, however, that August is the only month of the year in which no holiday is observed, I became quite elated and set my birthday up as an event to be considered carefully in the otherwise barren month.

There is a lovely flower given to August, the poppy, and a pretty stone, the sardonyx, and parties can be made charming for the August child.

Poppy Party Popular

A poppy party is unusual and unforgettable. A pretty, soft, shade of red can be used in decorations and a bowl of real popies, if they are procurable, or paper ones, makes a lovely centerpiece. The paper tablecloths and napkins with poppy designs are nice to use also and, since this is a 'pop-py' party, the favors may be paper snappers containing trinklets.

The refreshments of sandwiches, 'pink lemonade,' ice cream and birthday cake are simple and always delicious.

A spell-down, musical chairs or 'going to Jerusalem,' and a guessing contest will furnish sufficient amusement.

This party can have any other flower substituted as its motif and be just as successful.

How To Make The Pink Lemonade

Juice of 3 lemons
Juice of 1 orange
Cherry, strawberry or grape juice to color
Sugar to taste
Water
This will make six to eight glassfuls.

Pink Sandwiches

2 cakes of cream cheese mixed with cream
Cherries, halved

Spread buttered bread with cheese mixture. Cut with biscuit cutter. Decorate each round with cherries.

Or—

Crab meat or salmon mixed with boiled salad dressing; spread on buttered bread; cut with biscuit cutter; garnish each round with a slice of stuffed olive.

Or—

Spread buttered bread with any red jam or jelly; cut with biscuit cutter; garnish each round with half a shelled nut.

"Nerves" "NERVES" "Nerves"

Dr. Miles NERVINE *"Did the work"* says Miss Glivar *WHY DON'T YOU TRY IT?*

After more than three months of suffering from a nervous ailment, Miss Glivar used Dr. Miles Nervine which gave her such splendid results that she wrote us an enthusiastic letter.

If you suffer from "Nerves." If you lie awake nights, start at sudden noises, tire easily, are cranky, blue and fidgety, your nerves are probably out of order.

Quiet and relax them with the same medicine that "did the work" for this Colorado girl.

Whether your "Nerves" have troubled you for hours or for years, you'll find this time-tested remedy effective

At Drug Stores 25c and $1.00.

INSURANCE

It is better to be glad than sorry therefore do not neglect to place insurance on your HAY and WHEAT as soon as in stack or barn with

JAMES G. BECK.

DEPOSIT INSURANCE

An Extra Measure of Protection

The management of this Bank always has taken every possible precaution to safeguard the funds of its depositors. In keeping with this traditionally conservative policy, deposits made here are now insured by the Federal Deposit Insurance Corporation.

The insurance thus provided applies to all deposits, including personal and corporate deposits deposits of public funds, and trust funds awaiting investment.

At the present time, the maximum amount insured for each depositor is $5,000. This does not mean that a depositor with an account of, say $500, is guaranteed $5,000, but it does mean that this $500 is fully insured. Deposit insurance is for your protection. It is a permanent part of the National law.

WOOLEN PRICES BOUNDING UP!!
Leading Mills Completely Sold Out!
Many Withdraw Lines!

Do you know what's going on in the clothing business? Just read these FACTS!

So far practically every woolen mill in the country has gone on record announcing higher prices! In the Daily News Record, issue of May 25, (leading trade paper of the clothing industry) The American Woolen Company, the largest woolen mills in this country, announce the withdrawal from sale of all fabrics for men's clothing. This was done after an advance of 20c per yard earlier in the week! You know what this means!

Our prices HAVE NOT ADVANCED. In fact we are quoting exceptionally low prices for the remainder of our Spring and Summer woolens worsteds. NOW when you can save real money in tailoring—NOW, is the TIME TO BUY

Remember you're looking at cold-blooded FACTS- Not hearsay — not gossip — but the TRUTH.

For your own good—BUY NOW and buy enough to carry you through two seasons.
