LOCAL WATERMEN are apparently disappointed in the newly appointed three man Conservation Commission recently appointed by Governor Harry Nice. They had visioned a commission composed of at least one practical waterman. Instead they find three gentlemen who are probably able men but evidently without the knowledge of the watermen's problems.

THE REPORT OF the Library Board of the Woman's Literary Club which appears elsewhere in this issue means more than the figures show. Although it is a public library it is not supported by public funds but is maintained through the hard work of a few public spirited women with card parties, etc. The receipts from subscribers to the fund do not even meet the cost of new books not to speak of rent, librarian salary, etc. It bears out the age-old saying that 'anything free is not appreciated.'

THE DIFFERENT interpretations of the Federal P. W. A. rulings as applied to loans at least gives one something to write about. Last week P. W. A. engineers in the State put a damper on the Chesapeake Bay Bridge prospects by publically stating that the building of that structure would not meet the Federal loan requirements due to the fact that too small a proportion of the money spent would go to labor. This week, however, the intrepretation of the ruling is changed to the effect that the labor proportions apply only to that part of the loan which is an out right grant which makes the bridge loan within the regulations. With that angle settled, the question of the loan depends largely upon the influence that can be brought to bear in Washington. The most logical and apparently only way of effecting this influence is through Congressional representatives which up to this time has been very lax. It is apparently true that the fate of the bridge rests entirely in the hands of the powers to be and to them can be laid the responsibility.

Another local P. W. A. project which has been materially advanced by this weeks Federal ruling is the $300,000 loan for bufilding construction at Washington College. As far as can be learned this project is meeting with no political objection and should therefore stand among the favored federal grants.

# DEPOSIT INSURANCE

## An Extra Measure of Protection

The management of this Bank always has taken every possible precaution to safeguard the funds of its depositors. In keeping with this traditionally conservative policy, deposits made here are now insured by the Federal Deposit Insurance Corporation.

The insurance thus provided applies to all deposits, including personal and corporate deposits deposits of public funds, and trust funds awaiting investment.

At the present time, the maximum amount insured for each depositor is $5,000. This does not mean that a depositor with an account of, say $500, is guaranteed $5,000, but it does mean that this $500 is fully insured. Deposit insurance is for your protection. It is a permanent part of the National law.
