Bids will be advertised within the next week for widening and deepening the canal to a width of 250 feet and 27 foot depth.

The initial expenditure, which has been authorized by President Roosevelt, calls for $5,107,000 and the work will be done within the next fiscal year. Actual work on the improvement will get under way early in August.

The condemnation proceedings are in cases where the price offered by the Government did not satisfy the property owners, and it is thought that they will be settled by compremise.
