Mrs. Anna Fitzpatrie and children are guests of Miss Rebecca Wood.

Mr. and Mrs. Charles Miller have returned to their home in Washington, D. C., after spending several months here.

Miss Edna Shriley is visiting Mr. and Mrs. Thomas Middleton in Baltimore.

Mr. Alfred Walbert, son of Mr. and Mrs. James Walbert has an infected foot which Dr. Burgard operated on. He will be confined to the house for a month.

Mrs. Hillary Akers and children Miriam and George, and Mrs. Mayme Satterfield spent several days at Rehobeth last week.

Mr. and Mrs. Raymond Fisher and daughter were week end guests of her parents, Mr. and Mrs. James Walbert.

Miss Lillian Donnelly is spending some time with her sister, Mrs. Beatrice Scott and Mr. Scott, of Wilmington.

Mr. and Mrs. Charles Brady are receiving congratulations on the birth of a baby girl.

Miss Millie Jones was guest of Capt. and Mrs. William Witt and family last week. She is now visiting her sister and son in law, Mr. and Mrs. Charles Brady.

Miss Caroline Hadaway is visiting Miss Ellener Middleton in Baltimore.

Mr. and Mrs. William Leppo spent several days last week with Mr. and Mrs. Hilton Crouch.

Mrs. Grace Scott and Mrs. Bessie Buckler motored to St. Mary's County Monday where they were the guests of Mr. and Mrs. G. L. Buckler Mrs. Buckler is going to remain the rest of the season.

Mr. and Mrs. William Davis and family were guests of Mr. and Mrs. Bradley Kerr and family Wednesday.

Miss Grace Davis is spendisg two weeks with her parents, Mr. and Mrs. William Davis, of Quaker Neck.

Mrs. Joseph Apsley and daughter, Mrs. William Vesper spent Thursday at Tolchester with friends and relatives.

Mrs. Pearl Wheat and son, Edward, are spending sometime with her sister, Mrs. Raymond Hersh and Mr. Hersh.

Mrs. Allen Urie and daughter, Anna Mae and Mrs. Lester Bowers and daughter visited Mr. and Mrs. William Cooper, of Worton Wednesday.

Mrs. Albert Chaires, Mrs. Rolph Tucker and Mrs. Chaires' children, visited Mr. and Mrs. Medford Jones and son at Kennedyville Wednesday.

Mr. Medford Porter was Sunday guest of Miss Edna Dierker.

Mrs. James Downey and sister, Mrs. Warram are entertaining Mrs. Morris Messick and daughter, Patsy from Norwood, Pennsylvania.

Mrs. Harry Carter, Sr., was guest in Chestertown, of her daughter, Mrs. John Bennett, Jr., Tuesday.

Mrs. George Ashley and grand daughter, Mary Anne Dixon, of Centreville, visited their many friends and relativs at Tolchester, Thursday.

Mr. John Coleman visited Mr. Beauchamp, LeCompte several days last week.

Mrs. James E. Middleton and family, entertained Rev. and Mrs. Alonza Travers from Hendrickson last week.

Mr. and Mrs. Robert Shallcross were week end guests of Mr. and Mrs. Robert Crew in Betterton.

Rev. and Mrs. Walter Glass are here on a vacation from his charge in Burrsville. They are being entertained by Mr. and Mrs. Jefferson Ayres.

Alfred and Owen Walbert were week end guests of relatives in Baltimore.

Mrs. William Elbourn was taken ill in church Sunday morning and had to be taken home where the attending physician ordered her to take a long rest.

Mr. and Mrs. Frank Ayres are entertaining their son Prof. Byard Ayres.

Mrs. Sterling Crouch has returned after spending several weeks at Gynn Oak Park.

Tuesday evening a lawn party was very delightfully held at the summer home of Dr. Norbert Nitch. It was given in honor of Miss Mary Isabel Schneider. Among those there were Mrs. William Francis, Mr. and Mrs. Amandus Schneider, Norbert Nitch, Jr., Ralph Schneider, Edgar Strong, Casey Dowling, Joe Strong Downey, Albert Strong, Carl Orr, Kenneth Kelly, June Francis, Helen Strong, Amy Lee Wilkins, Jane Lussier, Jane Nitch, and Julia Wilsox.

Service at Rock Hall M. E. Church as usual. Rev. Hardin of Fairlee, pronounced the Benediction and Rev Travers gave the address. Epworth League was led by Miss Mary Smith Mr. Ralph Bean gave a fine talk o the topic.

CONSULTANT IN ARBORI CULTURE

SPEAKS TO COMBINED GARDEN CLUBS

Mr. R. Gleason Matton, of Philadelphia, delivered an address on Tuesday evening to the Garden Clubs of Kent and Queen Anne's Counties at the home of Mrs. J. D. Maxwell where the Kent County Club entertained the members of the Queen Anne's Club with a picnic supper, followed by Mr. Mattoon's talk.

The topic of the address—Troubles and Control of Insects was directed at the invasion of scale insects which are ravishing trees.

Japenes Beetle

More prominent in the minds of everyone than any other, and on which attention of all who grow flowers or trees, is the ever increasing Japanese Beetle. This menacing insect, Mr. Mattoon claims is very much on the increase and is now attacking trees which have never previously been infected. Traps, a common usage, in attempts to eliminate this dreaded beetle, should be placed away from things to be protected. Traps draw the insect, and therefore rather than place them on front lawns, or where ever the protection may be needed, place them several hundrd yards away. Better, of course, than traps is the spray. Spraying should be accomplished by the 25th of June. The spray, which naturally acts as a repellant, should have plenty of the white substance in its consistency and should follow the proportion of:

25 lb. Lime.
3 lb. Arsenate of Lead.
3 lb. Sticker.
100 gallons of water.

Mr. Mattoon claimd the only hope for real cure of the beetle would be the starlings and rusty grackle. Therefore it behooves all in practice of shooting these birds to put their guns aside.

Locust Borer

Branches were shown of the damages of the borer, but of this fatal insect litle can be mentioned to overcome its ravishings.

Bag Worm

Bag worm, plentiful on Cedars, was next discussed and examples of its damages were shown. Spraying again, was urged; this, by the 10th of June. The preparation in this case to follow is:

3 lb. Aresenate of Lead.
100 gallons of water.

Lilac

Many recognized the noted oyster shell scale, on clipped branches which Mr. Mattoon displayed that infests particualrly the lilac bushes. This blight starts to hatch as the apple tree blossoms begin to fall and spraying should be done during that period. Coating thoroughly with any contact spray of nicotine, oils, etc., will do wonders if performed at the period prescribed. In reference to all trees, emphasis was laid on the fact that scale insects attack trees when weakened, for instance, in moving them, and at this time special care should be taken.

Tulip Soft Scale

This hideous scale insect which exudes honey dew, causes the ants to make patches of mud on the branches, or at the base of the tree which, form as a cup to catch the honey-dew. However, this scale is not so difficult to control with a spray of oil, 1 to 15 pints water, which should be exercised at the close of the autumnal season

Red Spider

Living in a webb, and of 3 species, this insect attacks red cedars, the spruce and the larger species, the fruit trees, although in general, the smallest species does the most damage. Rather hard to discover, a simple test was offered to learn of its presence.

Hold the branch on the hand and hit very hard; if hand is covered, the result is the Red Spider. By thoroughly drenching tree with water of sufficient pressure, this insect can be controlled but the water must be of strong pressure due to the inhabitant's form of webb living. Red Arrow, nicotine or oil may be used with strong pressure as a spray, all of which should be accomplished by the 20th of May.

Dutch Elm Disease

Spreading in the North, this bark boring beetle is raidly spreading its disease. Scouting should start by May 15, but lack of appropriations has rendered its extinction to a small degree.

The meeting closed with questions from the group which Mr. Mattoon gladly answered. All lovers of trees should have felt a great benefit from this instructive discussion.

What is the yardstick for a cigarette...

Take mildness for one thing—how does it measure up for mildness?

Chesterfields are *milder*—not flat or insipid, of course, but with a pleasing flavor.

Then take taste for another thing—does it have *plenty* of taste?

Chesterfields taste *better*—not strong but just right.

In other words, They Satisfy—
that's my yardstick for a cigarette.

Chesterfield ... *the cigarette that's MILDER*
Chesterfield ... *the cigarette that TASTES BETTER*

DETAILS OF HUNTING SEASON

WILD FOWL HUNTERS OF MARYLAND RECEIVE A SEVERE GLOW

DUCK AND GEESE HUNTERS RECEIVE SEVERE BLOW

(By E. LEE LE'COMPTE STATE GAME WARDEN

Federal regulations for the taking of Migratory birds, as proclaimed July 31st by the Federal Government, will very materially curtail the hunting of wild water fowl in Maryland. However, these regulations were adopted for the preservation of the birds. During a conference with Honorable Jay N. Darling, Chief of the Bureau of Biological Survey, Washington, D. C., August 8th, we were informed that his Bureau hoped that the very drastic restrictions placed on the wild fowl hunters at this time would increase the brood stock returning to the breeding grounds in the Spring of 1936, and with a favorable breeding season, they hoped the regulations could be made more lenient during the hunting season of 1936. It was a case of accepting these drastic regulations permitting 30 days hunting or a CLOSED SEASON.

Federal Regulation No. 1, prohibits the use of a gun larger than a No. 10 guage. Said gun shall not carry more than 3 shells at any one time. Must be plugged with metal or wooden filler incapable of removal through the loading end thereof.

Federal Regulation No. 2, prohibits the use of any Floating device, and stationary blinds caunot be erected more than 100 feet from the shore line as determined by ordinary high-tide. However, said blinds can be erected off of points to exceed 100 feet.

Federal Regulation No. 3, prohibits the use of Sink Boxes, Sneak Boats or Bushwhack Rigs throughout the United States. 'These regulations absolutely prohibit the hunting of wild water fowl on the Susquehanna Flats, as there are no other means of hunting on that Territory.)

Federal Regulation No. 4, prohibits the use of any grain or grain products of any kind or feed whereby water fowl are lured, attracted or enticed to the hunter.

Federal Regulation No. 5, prohibits the use of live water fowl decoys. (This would prohibit the placing of live water fowl decoys on land or water, and persons owning toll geese in shooting on land would not be permitted to have the toll geese on the same field where the shooting occurs during said shooting or hunting, but could fed their domesticated or toll geese on some other part of their property.

Federal Regulation No. 6, prohibits hunting except between 7 A. M. to 4 p. m. standard time. Prohibits the hunting or killing of Snow Geese. Ross's goose, wood duck, ruddy duck, Bufflehead duck and swan.

Open Seasons

Doves—October 1st to January 15. (This regulation eliminates dove shooting in Maryland, as the State Law provides an open season September 1st to September 30th, inclusive, closed October 1st to November 14th inclusive, open November 15th to December 31st inclusive. Federal law prohibits hunting in September, and the State law prohibits hunting of doves October 1st to November 14th. Federal law supersedes the State Law in Septmber, and the State law supersdes th Federal law October 1st to November 14th. Usually doves leave Maryland territory before November 15th).

Wild Water Fowl—Wilson Snipe Or Jacksnipe—November 20 to December 19 each day of the week except Sunday.

Woodcock—Novmber 15th to December 15th.

Bag Limits

Wild Ducks—10 in aggregate of all kinds.

(No person permitted to possess more than 10 ducks at any one time. In case a guide shooting ducks with his employer or others, all birds killed by said guide shall be counted in the daily bag.)

Wild Geese and Brant—4 in the aggregate of all kinds.

(No person any one time may possess more than 4 geese and brant.)

Rails—15, cannot possess more than 15 at any one time.

Sora—25, cannot possess more than 25 at any one time.

Coot (chicken duck)—15, cannot possess more than 15 at any one time.

Wilson Snipe or Jacksnipe—15, cannot possess more than 15 at any one time.

Woodcock—4, cannot possess more than 4 at any one time.

Doves—20, cannot possess more than 20 at any one time.

Shipment and Possession

Federal regulations prohibit the shipment of wild water fowl to exceed more than the daily bag limit in any one calendar week. Package must contain the name and address of shipper and consignee, and an accurate statement of the number and kind of birds on the outside thereof, with the following notation 'Gift, not for sale.'

The State law prohibits more than 4 persons hunting wild water fowl from a blind located on land in any one day, also prohibits the use of a gun carrying more than 3 shells at any one loading, and further prohibits wild water fowl being shot while resting on the water or land, except crippled birds not otherwise retrievable. Also prohibits the placing of any blinds on the land less than 300 yards apart measured in a straight line when located at a distance of more than 50 yards from the natural shore.

HARRISON W. VICKERS, Attorney

Order Nisi

Harrison W. Vickers, Attorney
Versus
John H. Robinson, John H. Davis

In the Circuit Court for Kent County
In Equity No. 2937

ORDERED this 30th day of July, 1935 by the Circuit Court for Kent County in Equity, that the sale of the Real Estate mentioned in these proceedings, made and reported by Harrison W. Vickers, Attorney, under and by virtue of the authority contained in mortgage from John H. Robinson and John H. Davis to the Third National Bank of Chestertown, Maryland, dated May 6, 1932, be ratified and confirmed, unless cause to the contrary be shown on or before the 4th day of October next, PROVIDED, a copy of this order be inserted in some newspaper printed and published in Kent County, once in each of four successive weeks before the 26th day of August next.

The Report states the amount of Sales to be $1,600.00.

True copy, ROBERT A. SHALLCROSS, Clerk.

COMMON CAUSE OF BALDNESS

One of the chief causes of premature grayness, falling hair and ultimate baldness is lack of circulation in the scalp.

To overcome this and bring an abundant supply of blood to nourish the hair roots, massage scalp at night with Japanese Oil, the antiseptic counter-irritant.

Thousands of men and women report amazing results in stopping falling hair, growing new hair on bald areas and in eliminating dandruff and itching scalp.

Japanese Oil costs but 60c at any druggist. Economy size, $1. FREE "The Truth About the Hair." Write Dept. 36.

Robert Harley Fisher
vs.
Margaret Scioli Fisher

In the Circuit Court for Kent County
In Equity No. 2941

The object of the Bill filed in the above entitled cause is to procure a Decree for divorce a vinculo matrimonii.

The Bill states:

1. That on or about the 30th day of May, 1929, Robert Harley Fisher was married to one Margaret Scioli at Elkton, Maryland, by a Minister of the Gospel at that place.

2. That immediately after said marriage the said Robert Harley Fisher and Margaret Scioli lived in Philadelphia, Pennsylvania, which was then and there their home until September 9th, 1930.

3. That though the conduct of your Orator toward his wife, the said Margaret Scioli Fisher, has always been kind, affectionate and above reproach, the said Margaret Scioli Fisher on September 9th, 1930, without any just cause or reason abandoned and deserted him and declared her intention not to live with him any longer and that such abandonment has continued uninterruptedly for at least three years and in fact until the date of the filing of this Bill, and is deliberate and final and the separation of the parties beyond any reasonable expectation of reconciliation.

4. That the said Robert Harley Fisher has been a resident of the State of Maryland and has resided within the State for more than two years previous to the filing of this Bill for divorce. That he has resided and been a resident of Church Hill, Queen Anne's County, Maryland, from June 1932 until April 1, 1935. On April 1, 1935 he removed to Betterton, Kent County, Maryland, and has been a resident of Kent County, Maryland, since April 1, 1935.

5. Your Petitioner has never heard from his wife since she left him in September, 1930, but has been informed that she now resides in the State of Kansas. That there were no children born of said marriage.

It is thereupon, this 29th day of July, 1935, ordered by the Circuit Court for Kent County, in Equity, that the Plaintiff, by causing a copy of this order to be inserted in some newspaper published in said Kent County, once in each of four successive weeks before the 26th day of August next, give notice to the said Margaret Scioli Fisher, non-resident defendant, warning her to appear in this Court in person or by Solicitor, on or before the 9th day of September, next, to show cause, if any she has, why a Decree ought not to be passed as prayed.
