Modoc Meets Streamlined Zephyr

PUSHING a three-car stainless steel Zephyr train was an easy task for Modoc, giant elephant of the circus. The train, built by the Edward G. Budd Manufacturing Co., in Philadelphia, weighs little more than an ordinary Pullman car and runs on roller bearings. That explains why Modoc rolled it along with as much ease he would a wagon on the circus lot.

WAKE UP YOUR LIVER BILE—
WITHOUT CALOMEL
And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

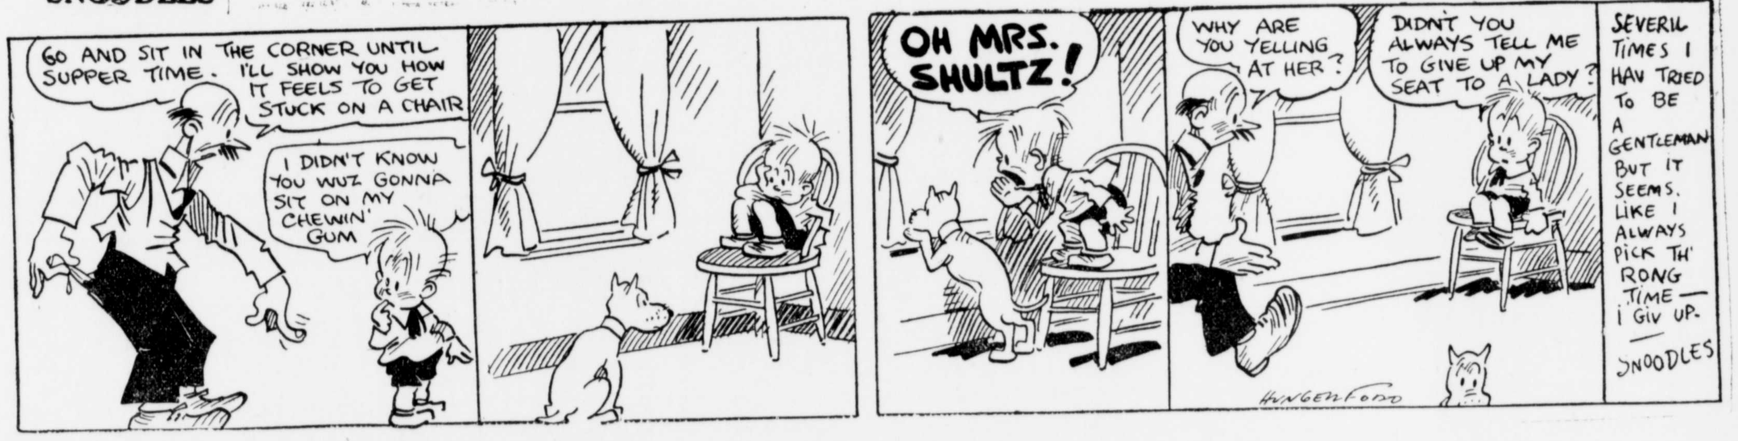

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resent a substitute. 25c at drug stores. © 1931 C. M. Co.
