The Social Wanderer

Dear Roamer:

I greet you again, with a wave of the hand, the toss of my hat and the stroke of my pen! September is here and the forerunner of the choicest season of the year to me. Parodying on Every Man A King. I might say Every Season A King, and Autumn, to me is King. Since I wrote you last, floods have descended upon us, regattas sounded their seasonal knell, schools opened, and the Fall Flower Show is over. So what? It's that what that I like about Fall. Grand days to walk, to ride, to golf to relax, to feel peppy, to bridge, to do most anything and feel like doing it, without that mad helter skelter which summer entails and you're much too hot to do it, which in Spring, your vitality is lagging and which in Winter it's too cold to do. However, this is not supposed to be a composition or theme on 'Why I Like Fall,' it's supposed to be a social column, and so forgive my 'stalling' around a bit, and I'll proceed to get under way.

Before I do, however, let me drop a word about the Flower Show. I'm sure, if you went, you'll agree with me, that it was the best in years. Again, the autumn flowers, are to me, more lovely than any, and the displays were exquisite in spite of the rains. The fashion shows, for the youthful as well as the adults were simply intriguing, the puppet shows, just as clever as could be and the folk dances delightful. You really missed it if you didn't go.

On Thursday of this week, we had the honor and pleasure of congratulating Mr. Horace Beck on his 70th birthday. CAMBRIDGE SCHOOL BUILDING BURNED

Fire of unknown origin but believed to have been caused either by lightning striking the building or by short circuited electric wires almost completely destroyed the new Cambridge High School building Friday morning, with a loss estimated at from $175,000 to $200,000, which is partially covered by insurance.

The fire was discovered when Mr Roland Harper, the janitor, entered the building about a quarter to seven o'clock. He stated that the flames seemed to be e ncircling the electric switch box and when the firemen arrived it was found that the whole upper portion of the building between the roof and the ceiling was a mass of flames and in a short time the roof fell in.

The building was started in 1928 on a lot containing about six acres, which was purchased from Mr. Robert E. Tubman and was a portion of the Glasgow Manor estate. The site is considered one of the most beautiful locations in the estate. The contract for the building after spirited bidding, was awarded to Messrs. Charles E. Brohawn & Bros. and when completed was estimated to have cost about $170,000. In addition to this there has been installed furniture and other equipment that has probably cost from $12,500 to $15,000.

While the firemen were fighting the flames which are smoldering within the four walls, which are still standing, it seems likely that with the exception of a small quantity of furniture which was saved the building and contents will be a total loss.

School will open next week in hastily arranged quarters.
