Women's Page

'O, Woman! in our hours of ease,
Uncertain, coy and hard to please!
As fickle as the shade,
By the light quivering Aspen made.
When pain and anguish wring the brow,
A ministering angel thou.'

O women! your help is needed now by those poor soldiers lying out beneath the Ethiopian Sun, with their wounds festering in the heat.

Mussolini, in his ambition to gain more territory, will lose thousands of brave men.

And what anguish they are causing among the Ethiopians who know nothing of modern warfare.

They have never heard of the airplanes, those great flying birds, which rain down bombs upon them, leaving ruin and death in their wake.

War will be until the end of time, they say, and it is considered a terrible thing to be a pacifist in time of war, but it is a destroyer.

Could the rulers of the world think as did the great Milton, in his description of War.

They err who count it glorious to subdue
By conquest far and wide, to overrun
Large countries, and in the field great battles win,
Great cities to assault. What do these worthies
But rob, and spoil, burn, slaughter and enslave
Peaceable nations, neighboring or remote,
Made captive, yet deserving freedom more
Than those, their conquerors, who leave behind
Nothing but ruin, whereso'er they rove,
And all the flourishing workers of peace destroy?

In speaking of war, Fort Tryon was marked out as one of the outstanding spots of the Revolution.

'Our First Woman Soldier.'

We learn of the heroism of the first American woman who took an active part in actual warfare in defense of American liberties, Margaret Corbin, forms a chapter in the story of the defense of Fort Tryon. She accompanied her husband and shared with him his life as an artilleryman. On the occasion of the assault she was aiding him in loading and cleaning one of the guns when at the most critical moment he was killed. Immediately she took charge of the cannon and loaded and fired it herself with 'skill and vigor' until she herself was wounded.

A fine granite monument emblelished with bronze work and an inlaid cannon dedicated at the time of the Hudson-Fulton celebration in 1909 impressively commemorates the defense of Fort Tryon and bears the following inscription:

On this Hilltop Stood
Fort Tryon
The Northern Out-work of Fort
Washington
Its Gallant Defence Against
The Hessian Troops by
The Maryland and Virginia Regiment
16 November 1776
Was Shared by
Margaret Corbin

Preservation Society.

Indian Warriors Caught Hunting Airplane's Eggs

Cabuyaro, Colombia.—Several Indian warriors, caught by a sentry while hunting for something beneath the wings of a tri-motored Ford transport plane, confessed they were looking for the 'big bird's eggs.'

The savage tribes of this desolate region saw their first planes only recently, when the Colombian government established an airline from Bogota to Puerto Carreno, on the Orinoco river. Awed, they traced the 'big bird' to its 'nest.'

Things We Ought To Know

Do your feet and ankles always ache when you have been standing on them for a long time washing or ironing? For a job like this, during which you do most of your standing in one spot, purchase one of these thick, sponge rubber mats they make for pads to kneel on in the garden, and stand on it as you work. You will be amazed how much less tired you will be.

To Remove Paint

Paint can be removed from clothing not matter how hard or dry it has become, by using equal parts of ammonia and turpentine well diluted with water. Wet the spot two or three times with the solution, then wash thoroughly with soap and water.

Potato Chips

If you have had trouble getting really crisp potato chips, try this plan: Slice potatoes and boil 3 minutes. Drain and rinse in cold water, place on dry cloth to absorb the remaining moisture. Fry in deep fat, smoking hot, and see the difference!

Replaceable Knobs

Whn the knob comes off the lid of one of your cooking utensils, put a screw up through the hole and attach a good-sized cork to it. This will prevent burnt fingers, since the cork is a nonconductor of heat, as well as fix the lid for all time.

HOUSEHOLD HINTS

SAUCY FLAWN

Line a deep baking dish with rich pastry and fill with thick, well-sweetended apple sauce. Bake 40 minutes at 475 degrees for the first 15 minutes, then reduced to 275 degrees for 25 minutes. Cool.

Spread the top with orange marmalade or strawberry jam and sprinkle with finely chopped nut meats. Form a lattice of half-inch strips of pastry over the top. Place in hot oven until nicely browned. When cold, cover top with freshly whipped sour cream, putting it on in swirls or piping it on with a pastry tube.

GALENA

Mrs. William Towler returned home on Sunday after spending a few days with her aunt, Mrs. James Cochran.

THE DOCTORS ARE RIGHT

Women should take only liquid laxatives

Many believe any laxative they might take only makes constipation worse. And that isn't true.

Do what doctors do to relieve this condition. They use a *liquid*

A cleansing dose today; a smaller quantity tomorrow; less each time, until bowels need no help at all.

laxative, and keep reducing the dose until the bowels need no help at all.

Reduced dosage is the secret of aiding Nature in restoring regularity. You must use a little less laxative each time, and that's why your laxative should be in liquid form. A liquid can be regulated to the drop.

The liquid laxative generally used is Dr. Caldwell's Syrup Pepsin. It contains senna and cascara — both *natural* laxatives that form no habit even with children. Syrup Pepsin is the nicest tasting, nicest acting laxative you ever tried.

Don't Guess But Know

Whether the "Pain" Remedy You Use is SAFE?

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

THE person to ask whether the preparation you or your family are taking for the relief of headaches is SAFE to use regularly is your family doctor. Ask him particularly about Genuine BAYER ASPIRIN.

He will tell you that *before the discovery* of Bayer Aspirin most "pain" remedies were advised against by physicians as bad for the stomach and, often, for the heart. Which is food for thought if you seek quick, *safe* relief.

Scientists rate Bayer Aspirin among the *fastest methods yet discovered* for the relief of headaches and the pains of rheumatism, neuritis and neuralgia. And the experience of millions of users has proved it *safe* for the average person to use regularly. *In your own interest remember this.*

You can get Genuine Bayer Aspirin at any drug store — simply by asking for it by its full name, BAYER ASPIRIN. Make it a point to do this — and see that you *get* what you want.

The FATE OF YOUR EYES HANGS BY A THREAD

AND THAT THREAD
May Be the Difference
Between
POOR and PROPER
LIGHTING

THERE is as much difference between poor and proper lighting as there is between spoiled and good food. Spoiled food causes illness. Poor lighting slowly but surely causes eyestrain. Good food promotes good health. Proper lighting makes the work of the eyes natural and easy. Consult only competent optometrists about your precious eyes.
