THE QUESTION as to whether the policies of A. A. A. with reference to the processing tax is constitutional will probably be decided by the U. S. Supreme Court next month. Their decision is of vital interest to the farmers of this county who by almost unanimous vote have favored the continuation of the present policy. Since the effectiveness of the present policy Kent farmers have received approximately $300,000 as their share of the processing tax and the market price of their products have materially increased over the two year period previous to its inauguration. It has long been an accepted fact that the price of all commodities is determined by supply and demand and the A. A. A. plan is the only one that has been accepted country-wide as a control of supply. The planting of crops without any knowledge of the price to be received is too much of a gamble and most farmers are not in a financial position to gamble on their income. The A. A. A. has worked out a number of plans in case the present plan is proven unconstitutional but none of them appears to be as sound as thep resent policy.

DIPHTHERIA TESTS TO START MONDAY

IMMUNIZATION FOUND NECESSARY AMONG SCHOOL CHILDREN

Following the Schick testing of the children in the white schools during the past three weeks it was found that approximately one-fourth of those who had received the diphtheria immunization were positive and should receive the second treatment immunizing them against the disease. Beginning December 9th the schedule listed below will be carried on throughout the county. The doctors in the various communities have offered their services in administering the preventive serum. Mothers of pre-school children (between the ages of six months and six years) are requested to bring their children to the schools at the hours designated so that group may also receive the immunization against diphtheria.

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your headaches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Accept a substitute. 25c at drug stores. ©1931 C. M. Co.
