"Stop wasting your starting time"

says...THE ENGINEER IN EVERY GALLON

YOUR CAR NEEDS "Lubricated Starting"

Copyright 1935, T. W. O. C.

YOU not only lose time with a slow-starting winter gasoline, but money, too! Every extra turn of the starter wastes battery power. Every extra pull on the choke increases gasoline consumption. You are safe with Tydol... it's the one gasoline built to give instant *"lubricated starting"*. This amazing gasoline contains a cold-proof, top-cylinder oil that actually lubricates cold-stuck valves and pistons into quicker, surer, safer starting. Tydol is different! Yet it costs no more than ordinary gasolines.
