There are
A DOZEN
DEKALB HYBRID
Corn Varieties
for this Section
Growing in My
PROVING GROUND

SEE
THEM FOR YOURSELF

With hybrid corn, the important thing is NOT where the seed was grown, but how it performs where you plant it. The best way to compare varieties and decide which ones suit you the best is to see them growing side by side in a soil and climate similar to yours. That's why DeKalb has more than 3300 proving grounds or demonstration fields, throughout the corn-growing areas.

ISN'T IT ABOUT TIME?

Some day, friends, you're going to try Arrow Beer, and you'll say, "What was I waiting for?" Then you'll know what you've been missing: a beer that's as delightful as it is different. You could spend the rest of your days searching, but you'll never find a beer that matches Arrow's one-and-only flavor. So why wait? Time's a-wasting!

ARROW BEER
It hits the spot!

From where I sit . . .
by Joe Marsh

Sam Abernethy's the Chief Rumor-Spiker in our town.

If a stranger gets off something like—"I hear they've sunk the S. S. Bumblebee," Sam starts pinning him down. Did he really see it? Where's the evidence?

Because Sam knows, like the rest of us, that nine-tenths of the "inside news" passed around by careless folk isn't rumor—it's lies planted by the Axis to destroy American morale.

Take those rumors about drinking in our Army Camps. Actual, official facts from the government's own Office of War Information showed there wasn't a shred of truth in 'em.

The boys enjoy a glass of beer occasionally—same as a lot of us do!

And from where I sit, they're proving themselves the healthiest, best-disciplined bunch of fighting men in history, like the OWI report stated. That's good enough for me.

Joe Marsh
