To-day, Columbus Day, we celebrate poor old Columbus, the gem of the Ocean, dead but not forgotten—for way back in 1492 he discovered this land of ours, which is the home of the free and the brave. Not a bad place to live, eh what? So let's take hats off and through the years, on this day, remember him as

Yours in gratitude.

Perk Up Potato Salad

Potato salad will taste better if placed in the refrigerator to chill several hours before serving time. This gives the onions and seasonings a chance to permeate the salad, making it uniformly delicious.

Pure Yellow Iron Oxide

An American company specializing in mineral pigments has discovered a vein of material which is reported to be practically identical in chemical analysis and color with pure synthetic iron oxide, in one of its mining properties in Colorado. It is reported that the material which is now being mined has no impurities and exists in a vein about 4 feet wide, estimated to contain several hundred thousand tons. No evidence has been found that this vein occurs anywhere else within a 50 mile radius. It is estimated that about 400 tons per month will be produced.

Excessive Shampooing

Excessive shampooing may wash the natural oil from the hair and leave it dry and brittle. To prevent this, you can "dry-clean" long hair. First, place a piece of cotton batting over the bristles of a hairbrush and press on the brush until the bristles just come through the cotton. Then brush the hair vigorously. Much of the dirt will cling to the cotton.

Every person, young or old, should drink milk. Milk contains a large variety of nutritional constituents, and, considering its cost per pound, more food for the money than any other food material available.

You can squeeze large grapefruit on an ordinary orange juice reamer if you cut the fruit in half lengthwise (rather than crosswise), halve again, squeeze each quarter on the reamer, pressing cut side against point of juicer. Smaller grapefruit can be cut in halves like oranges, juiced on regular reamer.

Danube Has Many Names

"Danube," an Anglicized word, is almost unknown in the river's native lands. Germans know the river as Donau; Czechs, as Dunaj; Hungarians, as Duna. Farther down the river Yugoslavs and Bulgarians say Dunav, Romanians say Dunarea, and the Russians refer to it as Dunai.
