Excessive Shampooing

Excessive shampooing may wash the natural oil from the hair and leave it dry and brittle. To prevent this, you can "dry-clean" long hair. First, place a piece of cotton batting over the bristles of a hairbrush and press on the brush until the bristles just come through the cotton. Then brush the hair vigorously. Much of the dirt will cling to the cotton.

We Thank You
For your co-operation during the coal crisis the past winter.
Looking ahead, we realize that there is little hope for improvement in the production and delivery of coal.
This season all kinds of coal come under the regulations.
We urge you to file your Consumer Declaration promptly—we cannot make delivery without them.
We sincerely regret conditions have made these regulations necessary.
However, We are pledged to serve you to the best of our ability, and trust you will understand and appreciate the position in which we have been placed.

THE Conde MILKER
A REAL MILKING UNIT
Modern in design. Durable in construction. Easy to operate Requires minimum care. A real time and labor saver in any dairy.
DRY PIPE LINE
Low count milk is assured. Milk vapor and moisture remain in the milk pail.
THE ONLY MACHINE USING FILTERED AIR
Keeps pulsator parts and air line free from dust and dirt.

BALANCED PAIL WITH RIGID HANDLE
Never have you used a milker so convenient. The pail is broad on the bottom to eliminate tipping. The rigid handle extends to the topmost part of the unit where it is handy for the operator to grasp with or without cover. The pail can be easily emptied with one hand.
