Mowbray Chapel, Cliff City
7:15 P. M., Song Service.
7:30 P. M., Message by the pastor.

Wash 6 tomatoes. Remove centers, leaving a firm shell. Sprinkle with salt, reverse on plate in refrigerator to chill and drain. Combine 1 cup flaked crabmeat or chopped shrimp with one cup chopped celery and two chopped hard-cooked eggs. Season to taste with salt and pepper. Moisten with mayonnaise. Use as filling for tomatoes. Place each tomato in a lettuce cup, top with a spoonful of mayonnaise and garnish with a slice of stuffed olive or sweet pickle. Serves 6.

Inefficient Land

More than 43,000,000 acres now under cultivation in the United States should be retired to grass or trees because they are too steep, too eroded, too wet, too stony or otherwise unsuited for efficient, economic use in the production of cultivated crops.

PRODUCE MORE FOOD FOR FREEDOM
the CONSERVATION WAY

Man cannot exist without the soil. Without soil, plants could not grow to any considerable extent. Animals that feed on plants could not exist. Man who feeds on both plants and animals, could not survive.

The soil supplies many of the things which make man comfortable and happy. His house and furniture may be made from wood. Paint, varnish and enamel contain oils furnished by plants. Upholstry, drapes and clothing come from plants or backs of animals. Trees are the source of paper for walls, newspapers, magazines and writing purposes. Coal, petroleum and natural gas are plant residues. In addition to vegetable and field crops, the soil supports the grass on our lawns and the trees and shrubs which soften the landscape.

Soils will become more and more important as organic materials are substituted for exhaustible minerals, exhaustible materials of organic origin and organic materials that are difficult to obtain. Modern plastics, to a large extent, are replacing metals, glass, isinglass and rubber in the manufacture of automobiles, telephone and radio equipment, house furnishings, chemical and household utensils, writing equipment and useful and novel gadgets. Nylon, a plastic material, and rayon, a product made from wood are substituting for silk. The bulk of synthetic rubber is being made from coal and petroleum products, and alcohol.

At present we depend for fuel largely upon natural gas, coal and petroleum, or their products, coal gas and gasoline. These are exhaustible. The time will come when they will be too scarce to be used economically. Then we will depend for fuel largely upon wood and products made from trees and other plants. In China, a substitute for gasoline is made from pine stumps. In Italy, charcoal is used to a considerable extent as fuel for automobiles.

Thus, it can be seen that sometime, in addition to producing food and the customary raw materials for industries, the soil must produce substitutes for many of our common products. There is no substitute for the soil.

Farm Population

A net decrease of nearly 17 per cent in the U. S. rural population since January, 1940, has been shown in the farm population estimates recently concluded by the U. S. department of agriculture. The estimates reported a farm population of 30,000,000 in 1940 compared with slightly over 25,000,000 in 1945, which indicates that about one of each six persons had left the farm in the five-year period.

When Your Back Hurts -
And Your Strength and Energy Is Below Par

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.

You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with smarting and burning is another sign that something is wrong with the kidneys or bladder.

There should be no doubt that prompt treatment is wiser than neglect. Use *Doan's Pills*. It is better to rely on a medicine that has won countrywide approval than on something less favorably known. *Doan's* have been tried and tested many years. Are at all drug stores. Get *Doan's* today.

Chestertown, Md.

President Truman...

in his message to Congress on September 6, 1945, said:

"The Cost Of This Transition From War To Peace is as much a part of the cost of war as the transition from peace to war and we should so consider it."

On that same day our casualty list stood at:

DEAD	256,996
WOUNDED	651,261
MISSING	38,293
PRISONERS	123,272
TOTAL	1,069,822

NAGGING BACKACHE
May Warn of Disordered Kidney Action. Don't Neglect It!

Modern life with its ceaseless hurry and worry, irregular habits, improper eating and drinking, exposure, contagion *whatnot*, keeps doctors busy, hospitals crowded. The after effects are disturbing to the kidneys and oftentimes people suffer without knowing that disordered kidney action may cause the trouble.

After colds, fever and similar ills there is an increase of body impurities the kidneys must filter from the blood. If the kidneys are overtaxed and fail to remove excess acid and other harmful waste, there is poisoning of the whole system.

Symptoms of disturbed kidney function may be nagging backache, persistent headache, dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of strength and energy. Other signs of kidney or bladder disturbance sometimes are burning, scanty or too frequent urination.

In such cases it is better to rely on a medicine that has won world-wide approval than on something less favorably known. Use *Doan's Pills*. They have been winning new friends for more than forty years. Be sure to get *Doan's*. Sold at all drug stores.

THE REASON DOAN'S ARE FAMOUS
All over the country grateful people tell others: "*Doan's have helped me; I recommend them to you.*" That is why we say, *Ask your neighbor!*
