COUNTY DHIA REPORT FOR NOVEMBER

The five high herds for November were:

First: Albert T. Nicholson with an average of 1236 lbs. milk and 44.0 lbs. fat from 21 registered and grade Holsteins, none of which were dry.

Second, Roy C. Mitchell (Glencoe Farm) with an average of 1008 lbs. milk and 39.4 lbs. fat from 17 grade Holsteins, 2 of which were dry.

Third: James Alexander, Jr., with an average of 1103 lbs. milk and 38.3 lbs. fat from 18 registered Holsteins, 2 of which were dry.

Fourth: J. Grant Magrogan with an average of 701 lbs. milk and 37.0 lbs. fat from 14 grade and registered Guernseys, one of which was dry.

Fifth: Stanley B. Sutton with an average of 999 lbs. milk and 36.6 lbs. fat from 17 registered and grade Holsteins, none of which were dry.

The ten high cows for the month were:

First: Wilbur Morris, Jr's, Snow White, a registered Ayrshire, with 72.8 lbs. fat from 1581 lbs. milk.

Second: Kent Oaks Farm's Heather, a registered Ayrshire, with 70.9 lbs. fat from 1265 lbs. milk.

Third: Wm. R. MacCubbin's Beauty a registered Jersey, with 69.8 lbs. fat from 918 lbs. milk.

Fourth: Wilbur Morris, Jr's. Scarlet, a registered Ayrshire, with 68.2 lbs. fat from 1482 lbs. milk.

Fifth: James Alexander, Jr's. Essie, a registered Holstein, with 66.1 lbs. fat from 1891 lbs. milk.

Sixth: Roy C. Mitchell's Whitey, a grade Holstein, with 65 lbs. fat from 1755 lbs. milk.

Seventh: A. Earle Nicholsno's No. 19, a grade Holstein, with 64.8 lbs. fat from 1662 lbs. milk.

Eighth: Albert T. Nicholson's Hope a registered Holstein, with 64.3 lbs. fat from 1891 lbs. milk.

Ninth: W. Franklin Moffett's Buttercup, a grade Holstein, with 63.7 lbs. fat from 1593 lbs. milk.

Tenth: W. Franklin Moffett's Little Beauty, registered Holstein, with 62.7 lbs. fat from 1140 lbs. milk.

Rose Planting

Many rosarians advocate fall planting of rose bushes. Young plants set out in the fall establish new rootlets, which enable them to begin growing early in the spring. When freezing weather comes, cover plants with leaves or straws.

Dangerous Compounds

Although chemicals such as glycerin, nitric acid, sulphur, and potassium chlorate are relatively harmless by themselves, combinations of some of these chemicals are particularly dangerous and can result in an explosion which may cause loss of eyesight, serious burns or even loss of life.

Painting–

I do inside house painting. Reasonable rates and work guaranteed. By the hour or by the job. 40 years experience.
GEORGE HEWITT,
Phone 306-W or 341-W

MARYLAND'S FARM FRONT WEEKLY REPORT

MARYLAND FARM FRONT ....

About 22,000 Maryland farmers took part in the 1945 Agricultural Conservation Program, says Joseph H. Blandford, State Chairman. Of these about 5,000 received lime and fertilizer in lieu of cash payment, and about 17,000 will receive partial payments for materials they purchased from dealers to carry on their farm improvement program.

Reports on the use of 1945 materials have already come in from farmers in eleven counties of the State, he adds, in urging farmers to send in reports promptly to their county AAA office. The faster the reports are completed on activities of this year, the faster the checks can be mailed to the farmers. The AAA is now part of the Field Service Branch of the Production and Marketing Administration.

Adaptable 1946 Plan

Under the new plan of operation, 1946 conservation programs will be tailored to fit each individual farm more closely than in past years. Each county will have a definite allocation of funds within which it will decide how to operate the soil and farm conservation programs best adapted to each farm. A local committeeman will work with each farmer to set up the best possible program, after which the plan will be checked and approved by the county committee.

The total amount of funds for helping Maryland farmers will be about 90% of those available in 1945. A higher share of the cost of materials will be paid by farmers. This change is designed to increase the use of materials. Aim of the work on many farms will be to repair damages to farm lands caused by overcropping in war years.

Spring Pig Crop Goal

An average support price of $12 a hundred pounds Chicago basis has been announced to foster production of 52 million spring pigs in 1946, about the same number as in 1945. For the first time this support price is varied month by month, as well as for different markets. The marketing period for spring pigs over which this price support is effective will run from October 1, 1946 to September 30, 1947, with the lowest point at $10.75 in December 1946 and the highest peak of $13.25 in Spetember 1947. Present hog price support of $3 a hundred pounds at Chicago was announced to run through September 1 of next year, but has been extended through September 30, 1946.

Simplify Surplus Buying

Veterans who enter farming are no longer required to have their applications certified by the AAA Committee when they wish to purchase a used equipment through the Smaller War Plants Corporation for use in their business. The $2500 limit on purchases has also been dropped.

Tractors from Auto Parts

Not all used cars and trucks go to junk dealers and scrap piles. Some are converted into homemade tractors for farms that do not require heavier factory-built equipment, the department of agriculture points out. In one county, the 24 homemade tractors outnumbered the 22 factory models in service. The first of these homemade tractors was really homemade, with individual farmers exercising their ingenuity in adapting old automobiles to produce the power units.

To Clean Out Fowl Ticks

Carbolineum, a wood preservative sold under various trade names, will control fowl ticks. In treating a house, clean the roosts and surrounding woodwork. Then apply carbolineum, being careful to get it in all cracks and crevices. The chemical, which can be applied with a brush or a sprayer, will spray better and go farther if mixed with about equal parts of kerosene. Apply early in the morning to allow the material to dry in thoroughly before roosting time.

Pressure Canning

From the standpoint of accident prevention and food preservation, the best method of canning is by pressure cooking.

To the People of this Community

Leave it to the nation's school children to be on top of the ball when it comes to sizing up the war financing situation. From Pearl Harbor to V-J Day they dedicated each purchase and sale of war bonds to fighting equipment. Then the Japs quit. Schools at War instantly became Schools For Peace. The theme shifted from "Back the Attack" to "Speed His Recovery." The new goal was set at 35,000 hospital units, including a bed, wheel chair, X-Ray machine and surgical instruments.

VICTORY LOAN

Grownups could well listen to one of the millions of youngsters who are taking part in the Victory Loan. Even without a word from the young volunteer, you have one of the main reasons for buying extra Victory Bonds—the future of the "salesman" who may be your own son or daughter. Your war bonds have just helped to defeat the Nazis and Japs who would have educated your children for death. Your extra Victory Bonds will assure a brighter life for tomorrow's citizens.

THE EDITOR

ROCK HALL

Miss Gertrude Crofoot and John J. Heinefield were married on Saturday morning 10 o'clock at St. John Rock Hall Church.

Mrs. Hillary Akers and daughter are visiting her father in England her former home.

Mrs. Edgar Lipscomb was a visitor in Baltimore this week.

Miss Pearle Heinefield and Purnell Bachelor were married on Saturday evening at the Wesley Chapel parsonage by the Rev. S. T. Hamblin.

Mrs. Mary Fuerst is spending a few days at her home here.

BUY MORE BONDS!

AWARDS MADE TO ESSAY CONTEST WINNERS

(Continued from Page 1)

Mr. Vital. This good steer was a March 29th calve sired by Erian B 7th out of Bethel Elba 27th, sired by Bandolier of Anoka 7th.

The steers were then herded together again and Mary Ruth Meredith the winner of second prize was almost equally as critical. She finally selected a very good steer sired by Andelot Queen's Escort and out of Ada Queen L. 31st, sired by Master Bell Boy.

By then the boys and girls got a smell of hot dogs and made a bee line for the serving table. They made their fill of hot dogs, cakes, milk, potato chips and ice cream.

The prize winners were then ushered out into the sun by the photographer.

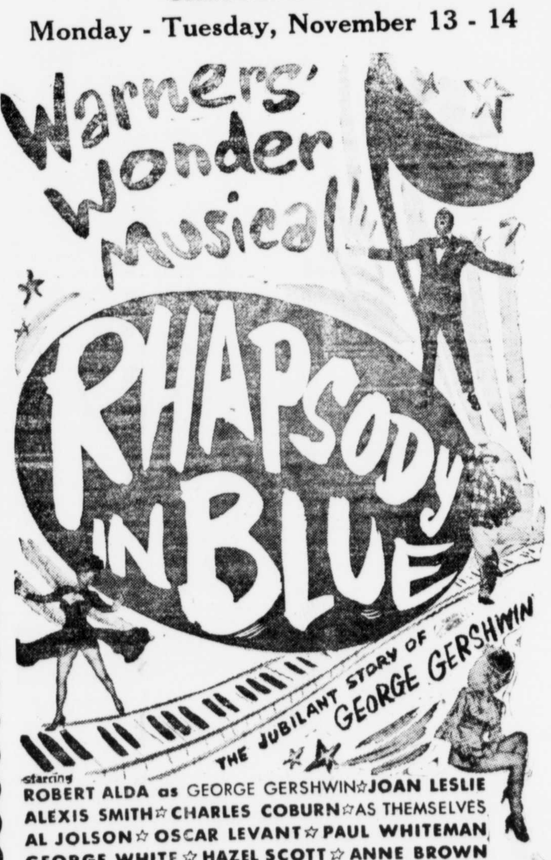

Most of the boys and girls asked if they might make a tour of the farm and inspect the herd. Their wish was promptly granted and James M. Corrigan Manager and George R. Jewell herdsman conducted a tour and answered all questions.

Everything possible was done by Fair Promise Farm to make this day a success and to be long remembered even to the extent of notifying the weather man well in advance for a gorgeous day.
