4-H CLUB NEWS

At Jackson Mills, West Virginia was held the Rural Youth Conference. This was attended by youth from the eastern part of the United States. Irvin Sutton was the representative from Kent County. The conference opened on Wednesday, October 24, and closed on October 26.

Workshops were held daily for 2 hours on Group Singing, Dramatics Recreation, Party Fixing, and Radio Programs. Discussions were held daily on subjects dealing with the community. Several topics were "How Can We Help the Community" and "How the Community Can Help the World."

Since the conference was attended by colored as well as white youth, the discussion of racial problems was brought up. It was pointed out, however, that it was not a question of actually living together, but of living and working educationally and nationally.

The evening programs consisted of Vesper Services and Council Fire Programs. At the Council Fire the group was divided up into smaller groups to work up a program. These programs had the usual challenges and skits.

The original name of this group was American Country Life, but was changed, at this conference, to the Rural Youth of America.

Senior 4-H

Despite dampness and chill winds the Senior 4-H Club held their hike Sunday at Stanley Sutton's woods. The groups gathered every kind of leaf, plant, and fungus that they could name, and some that they couldn't name, with the understanding that the losing team build the fire. They were immediately relieved of this task when the drizzle began, and the hot dogs were 'roasted' on the kitchen range.

A short Vesper Service was held, and after supper, the group enjoyed a few equipment games. Those who were afraid of the weather really missed a good time.

To cook link sausage, prick the casings in several places, lay in a cold frying pan, add 1 to 2 tablespoons of water, cover and steam a few minutes. Remove the cover and cook at medium heat until well done, turning frequently and pouring off fat as it accumulates.

Storing Rugs

Roll rugs and carpets on a strong pole, sprinkling camphor crystals, or similar moth-preventives, in as you roll. Wrap in papers, sealing any portions where moths might enter. Put them in a cool, dry place, preferably standing on end. Be sure they are thoroughly clean before storing.

Farm Roads

America has 2,400,000 miles of rural roads serving 6,000,000 farms, but only 45,000 miles have a high type pavement and 99,000 miles have a low-type bituminous surfacing. The rest of these country highways — 2,256,000 miles — have a non-treated surface, are merely graded and drained, or are simply trails.

Improving Pasture

If only a part of the pasture land can be improved at a time, it often is the best practice to start with the best part of the field.

IN THE CIRCUIT COURT FOR KENT COUNTY
In Equity No. 3479

The Object of the Bill filed in the above entitled case is to procure a decree for divorce a vinculo matrimonii for the Plaintiff, a resident of Kent County, State of Maryland, from the Defendant, a resident of Detroit, Michigan.

The Bill states:
