VOTE

For your new independent Democratic Candidate for Senator of Kent County June 24, 1946 Primary Election. I am as honest and straight as the days are long. I have lots of warm friends who agree with my platform. One who will cut out all foolish laws and make no new ones unless they are worthwhile.

To the People of this Community

Take a tip from your favorite retail merchant. His Christmas counters are stocked for the first time since 1939 with commodities you dreamed about in the darkness of war. And yet he and his employees will go the limit today in telling you for your own good to buy "something else" first.

VICTORY LOAN

As a war-wise thrifty American you need not be told that the name of this product is Victory Bond, that it can never be worth less than you pay for it, that it will return $4 for every $3 invested when held to maturity 10 years hence, that it is your personal servant at the same time it is serving your country's current needs, that it will assure you not only a merry Christmas this year but help to make Christmas merry in the years to come. Your merchant knows a great product. That's why he is putting every effort to stuff the Christmas stockings of this community with extra Victory Bonds.

Buy Victory Bonds Regularly Hold Them; Here's What Happens

Weekly Savings	SAVINGS AND INTEREST ACCUMULATED		
	In 1 Year	In 5 Years	In 10 Years
$3.75	$195.00	$1,004.20	$2,163.45
6.25	325.00	1,674.16	3,607.54
12.50	650.00	3,348.95	7,217.20
18.75	975.00	5,024.24	10,828.74

WASHINGTON, D. C.—War Finance officials said here that weekly savings invested in Victory Bonds—$3.75 per week—for one year will total enough to make a down payment on a home. The timetable shows other small savings and their future values.

A Lot Of Fish

More than 2,500,000 pounds of rock or striped bass were caught in Maryland waters last year, the greatest catch in the history of the industry. The value of the catch was slightly less than a half million dollars.

Daily catch records, submitted on a weekly basis according to the Maryland Fishery Management Plan were received from the commercial fishermen. These records, supplemented by many personal interviews and extended to all types of fish and gear, have made possible the most accurate picture ever obtained of Maryland's fin-fish industries.

This catch of rock was made with fewer units of fishing gear than in pre-war days, and in spite of wartime shortages of men and equipment. Reduced fishing produced more pounds of fish and yielded more dollars to the fishermen. The rock were protected without closed seasons, and without increased size limits.

Difficult Stains

Don't try to remove rust stains. That's a job for the professional cleaner, as is also the removal of stains from velvet or metallic fabrics.

Maryland's Largest

One of the largest trees ever cut in Maryland—a tulip poplar—recently was harvested in a Tidewater County, Cecil. Seven feet in diameter at breast height, it was 202 years old, and yielded the following:

High grade veneer logs	4,700 board feet
No. 1 common lumber	1,500 board feet
Other lumber	300 board feet
	6,500 board feet

Fuelwood from top 4½ cords

The two largest limbs produced sawlogs two feet in diameter. There was no evidence of decay in any part of the tree, which was a seedling many years after the birth of George Washington and some thirty-four years before Maryland's first governor took office.

THE MARYLAND TRAFFIC SAFETY COMMISSION'S SLOGAN FOR THE WEEK IS:

"Be careful with a carfull!"

DRIVE CAREFULLY!

Your Photograph Is Ready for You

The War is over and our "Boys" and "Girls" are coming home, for which we are all grateful.

Many families and friends have called at our Store, for the photograph of their relative or friend, and now we have all of them wrapped and ready to deliver to the owner. Won't you please call for yours at your convenience?

We want to thank all of our friends for the cooperation given us in honoring Kent County Sons and Daughters.
