Kent Narrows Open To Oystermen

The Kent Island Narrows opened to oystermen for tonging marketable oysters last week, David H. Wallace, administrative assistant of the Tidewater Fisheries Commission, announced.

The area includes that between Kent Island and the mainland of Queen Annes county.

Mr. Wallace said about 5,000 bushels of seed oysters two to three inches long had been planted in the area in the Spring.

The area was opened to fishermen in accord with the conservation program of the commission.

Sticking foods can be removed from baking dishes by soaking in borax water.

A rolled magazine makes an excellent emergency coat hanger.

Children love toast spread with honey and cinnamon which has been allowed to soak in.

THE OLD JUDGE SAYS...

STEVE: "How was the hospital dinner, Judge? Sorry I couldn't get there."

OLD JUDGE: "Very interesting, Steve. One of the doctors on the staff read a paper on the research work that is going on at one of the big universities where they are studying chronic alcoholism."

STEVE: "I'd like to have heard that, Judge."

OLD JUDGE: "He pointed out that approximately 95% of the people who drink do so sensibly. Only 5% abuse the privilege occasionally and included in that 5% is the very small number known as alcoholics. Then he quoted a doctor from a famous university who said 'Alcoholics are sick persons and, if treated as such, may be cured.' Alcoholism, he said, is *not caused* by alcohol but by deep-rooted emotional derailments which can be prevented by education and often cured through modern psychology!"

STEVE: "That's the most sensible approach to the problem I've heard."
