Farm leaders throughout the state have participated in planning this first post-war Farm Bureau convention and expect the attendance to exceed 3000 on the convention days 5000 on Thursday, January 10th, which is Farm Bureau Day, when many members will go to Baltimore for the day only.

H. S. Leaverton of Chestertown is chairman of the Farm Bureau Day morning session. The afternoon session will be headed by R. C. F. Weagley of Hagerstown, 1945 President of the Farm Bureau. To the Editors of the Chestertown Transcript, (Please publish)

Dear Sirs:

I wish to make a correction in the spelling of the name of Mr. Edward R. Wallis, whose death notice was given in your paper as Wallace this week.

Mr. Wallis is a member of one of the oldest families in Kent, his ancestors having come directly from County Kent, England to Kent County, Md., from Henry Wallis, 1686 and Samuel Wallis, 1700, one of the earliest vestrymen of ancient Shrewsbury and a Member of the Provincial Assembly. He is also directly decended in the maternial line from Dr. Francis Ludolph Bodien, the first "Cirrugean" of Chestertown. His Revolutionary ancestor was Lieut. Francis Wallis, and he was the grandson of Captain Francis Ludolph Wallis, his father being Corben Ludolph Wallis, who died many years ago. He and his brothers Robert my cousins, live on some of the many thousand acres owned originally by the joint families, who were a long line of planters and farmers and many very distinguished sons. They are the last two of the family now living in Kent, save Robert's sons.

It seems no less than a crime to change the spelling of this distinctly English name Wallis to Wallace simply because editorially the names are considered as one.

I know of no Wallace in Kent County save a merchant in Chestertown from Scotland in early times who left only several daughters, hence the name died with him.

Sincerely yours,
Ellen S. Wallis,
Genealogist of the Wallis Family.

N. B. Further reference to this Early Family of Kent is found in the republished edition of "Old Kent" in your office. E.S.W.

THE OLD JUDGE SAYS...

HARRY: "I don't know what they'll weigh up, Judge, but my cattle and poultry sure have been gettin' fatter since I started to use distillers' dried grains in their ration."

OLD JUDGE: "You're about the tenth one who has told me that, Harry. How do you account for it?"

HARRY: "The by-product recovered from grains used by distillers is very high in vitamin and protein content. It's the best feed supplement we can get to balance the rations we feed our dairy cows, livestock and poultry. Mixed with original grain, these distillers' dried grains have a much greater feeding value than the original grain has."

OLD JUDGE: "Have any trouble getting all you need?"

HARRY: "Yes, at times, even though the distillers produced 1,200,000,000 pounds of it for the year endin' last June. I hope they'll be in a position to produce a lot more next year."

OLD JUDGE: "Then I guess nobody can tell you grain is wasted in distilling."

HARRY: "Not me, Judge . . . I know."
