LOCAL AIR PORT DORMANT BUT NOT DEAD

Promotional activities toward an air port at Chestertown are at present dormant, due principally to the lack of public interest the general delay in construction work and the building of individually owned planes.

Appointment of W. H. Cullimore of Baltimore, an officer in the U. S. Corps of Engineers for the past three years and lately returned from two years overseas duty in Europe, as Airport Engineer for the State Aviation Commission, was announced Monday by Governor Herbert R. O'Conor. This appointment is expected to aid in the establishing of the smaller airports throughout the State.

In the meantime the local air port committee has selected an approved site on the Henry Gill farm, north of Chestertown and the report of activities is in preparation for presentation, according to a statement by Roland Hepden, chairman of the committee.

At Rock Hall, the Business Men's Association has made further progress, as according to reports the site has been secured and work on the construction of runways, etc., is awaiting the allotment of Federal and State funds.

Aviation enthusiasts in that section of Kent County are using the small landing field on the Dr. Fay property.

Another airport, known as the Kent Air Port and located near Worton is in daily operation by a group of enthusiasts who own small planes in that area.

It is thought that with the coming of Spring public interest will increase, airplane companies will start catching up on back orders and that the post war air travel will get under way.

The farm mortgage debt today is less than half of the 1923 peak of about eleven billion dollars. Instead of buying more land or expanding operations on cash income today, wise farmers will whittle at their share of the remaining five and one third billion dollars of farm mortgages.

KENT COUNTY AGAIN FREE OF AUTO ACCIDENTS

Kent County again has a perfect record as far as automobile deaths and injuries are concerned, there being none reported for the month of November. It was the only county in the State that was free of accidents and it is interesting to note that here has been no Sate Police officer stationed in this county for several months.

During the month of November there were 1,366 traffic accidents reported in Maryland with 45 deaths and 728 persons injured—Baltimore City reporting 852 accidents with 20 deaths and 412 persons injured, and the Counties 514 accidents with 25 deaths and 316 persons injured.

Both Baltimore City and the Counties experienced increase in fatalities over November 1944—Baltimore City's increase was 13 or 186% and the Counties 2 or 9%. These increases brought the total increase for the State up to 22.9% over 1944.

The traffic accident rate since V-J day has increased by leaps and bounds, and if allowed to continue will soon climb far above the pre-war records.

Governor O'Conor, the Maryland Traffic Safety Commission and all other agencies interested in Traffic Safety are making a personal appeal to all persons using the streets and highways, either as a driver or a pedestrian, to make at least one firm New Year's resolution—"I will practice Traffic Safety each day during the Year 1946." Let your personal slogan be "I Drive Carefully."

THE LAST DAY
FOR MEN NOW IN THE ARMY TO RETAIN THEIR PRESENT GRADES BY REENLISTING . . .

Men now in the Army who reenlist before February 1 will be reenlisted in their present grade. Men honorably discharged can reenlist within 20 days after discharge in the grade they held at the time of discharge, provided they reenlist before February 1, 1946.

There's a long list of attractive reenlistment privileges in the new Armed Forces Voluntary Recruitment Act of 1945. The ability to keep your present grade is only one of them, but this privilege expires on January 31.

There are plenty of other reasons why many thousands of men have enlisted, and more thousands are enlisting every day. You'll certainly want to know all of the opportunities open to you. If you'll read them carefully, you'll know why a job in the new peacetime Regular Army is being regarded today as "The Best Job in the World."

HIGHLIGHTS OF THE NEW ENLISTMENT PROGRAM

1. Enlistments for 1½, 2 or 3 years. (1-year enlistments permitted for men now in Army with 6 months' service.)
2. Enlistment age from 17 to 34 years inclusive, except for men now in Army, who may reenlist at any age.
3. Men reenlisting retain present grades, if they reenlist within 20 days after discharge and before February 1, 1946.
4. The best pay scale, medical care, food, quarters and clothing in Army history.
5. An increase in the reenlistment bonus to $50 for each year of active service since such bonus was last paid, or since last entry into service.
6. Up to 90 days' paid furlough, depending on length of service, with furlough travel paid to home and return, for men now in Army who enlist.
7. A 30-day furlough every year at full pay.
8. Mustering-out pay (based upon length of service) to all men who are discharged to reenlist.
9. Option to retire at half pay for life after 20 years' service—increasing to three-quarters pay after 30 years' service. All previous active federal military service counts toward retirement.
10. Benefits under the GI Bill of Rights.
11. Family allowances for the term of enlistment for dependents of men who enlist before July 1, 1946.
12. Opportunity to learn one or more of 200 skills and trades.
13. Choice of branch of service and overseas theater in the Air, Ground or Service Forces on 3-year enlistments.
