EAST NECK ISLANDERS MAROONED

Residents of East Neck Island are marooned on the island as far as automobile or even horse and buggy traffic is concerned, due to the collapse of the bridge this week under the weight of a heavy truckload of fertilizer. A truck with trailer, reported to be carrying a load of nine tons of fertilizer for the Johnson farm on the island collapsed about half of the bridge length, or about 60 feet. It is understood that the bridge was posted with a 6000 pound limit notice.

Those living on the island, on which is located some of the best ducking shores on the bay, are compelled to get back and forth from their homes by crossing the narrows in row boats, the water being too shallow for larger boats.

Arrangements are being made by the State Roads Commission for the repair of the bridge but it is expected that it will take several weeks to rebuild the damaged section.

TO OIL TOWN STREETS NEXT WEDNESDAY

LEWIN WICKES INJURED IN FALL

Lewin Wickes, son of Mrs. Lewin W. Wickes, of Chestertown, was injured last Saturday in a fall from a four-story window of the dormitory at St. Johns College where he is a student.

He had attended a fraternity dance earlier that evening and was accompanied to his room by Charles Chester Atwater, also a student there and son of Rev. and Mrs. C. L. Atwater. A short time later he was found on the ground by students who heard the fall. When found he was partly undressed. It was thought that he fell asleep across his bed and walked in his sleep up to the fourth floor and fell through the window. It is understood that he was subject to sleep walking.

He was taken to the University Hospital in Baltimore where it was found he was suffering from a spine injury and minor cuts about the face. He is now under treatment at that hospital, fully growing on the building was torn away and it is thought that this broke his fall thereby avoiding more serious injury.

GOVERNOR SIGNS LICENSE TAG BILL

Baltimore, Maryland, May 14, 1936—Governor Nice yesterday affixed his signature to House Bill No. 39 and thus enacted into law the change in registration date of motor vehicle from December 31st to March 31st. This legislation was introduced in the House of Delegates at the special session by Delegate Earl Bennett, of Cambridge, Dorchester County.

Delegate Bennett when interviewed immediately after the signing of the bill had this to say: "House Bill No. 39 was the only bill I sponsored at the special session." In his opinion, it is the only bill that has ever been introduced which will increase the revenue of the state without levying new taxes. It is his prediction that the State of Maryland will gain more than a quarter of a million in gasoline tax revenue as well as a large amount in registration fees through the encouragement of year round motoring.

Mr. Bennett is known as the Delegate that won his nomination by a campaign expenditure of 11 cents. He has been commonly referred to as the hitch hiking campaigner.

It is understood that the bill will enable motorists to operate their cars until the present tags until March 31, 1937.
