RADIANT LIVING

The Elevating Cross

By Rev. C. M. Griffeth
Pastor Calvary M. E. Church
Sudlersville

It is not the fact that He died on a cross that makes the death of Jesus Christ so precious to us. It is WHY He died there that we cherish His death with such gratitude.

When we come to understand the meaning of His death, it draws our hearts to Him with greater and deeper reverence. It is just to this that He refers in His statement: 'And I, if I be lifted up from the earth, will draw all me unto myself.'

When He shall have been raised to the height of His cross, and men shall have comprehended its significance, then shall every true man feel drawn into a mystic union with Him.

And this is what has happened. As the days began to lengthen themselves into years, men have begun to realize the significance of His death. They have begun to recognize that the cross that slew Jesus was the very cross that lifted Him to the height of Saviourhood.

As with Jesus, so it is in the experience of every one who has borne a cross for His sake, the cross that slays is the cross that lifts. The cross that separates the holy person from the world of sin is the cross that lifts him unto a far more glorious world of holy living.

It is any wonder that St. Paul exclaims: 'God forbid that I should glory save in the Cross of our Lord Jesus Christ by whom the world is crucified to me and I unto the world.'

Feathertouch is two Pens in one...I need them both!

Platinum in the writing fluid channel of the Sheaffer Feathertouch point permits effortless two-way writing. When held normally this pen writes its user's normal script--when turned over it writes a thin, fine line particularly desirable for figure work, marginal notes, and other small writing. Everybody has use for both types of handwriting. Remember that all Sheaffer Feathertouch pens, either lever or visible-barrel type, are one-stroke vacuum-fillers--to keep in best writing condition they fill, empty with force, and clean with one stroke, and take in over 400% more fluid per stroke than multiple-stroke pens.
