KENNEDYVILLE CORN CANNERY PACKING NORMAL CROP

The Kennedyvlle Cannery, which is busily engaged in the cannery of sugar corn, has canned approximately 33,000 cases to date and according to cannery officials the sugar corn crop is up to the average yield. The cannery which started August 1st will continue packing until the crop is depleated which is expected to be about September 20.

This cannery is supplied by 750 acres of sugar corn which is grown in the vicinity of Kennedyville. The price being paid is the same as last year, $12.50 a ton for golden bantum and $11.00 for shoe peg. This price paid is for corn standing in the field, the cannery labor pulls and hauls the crop.

This canning industry employs approximately 100 people of which 60 are local and 40 are imported experienced Polish people.

AMATEUR CONTEST WINNERS AT BETTERTON

The finals of the Amateur contests, regular features of the Thursday night dances at the Betterton Casino, were held Thursday night, August 27th, in the Casino.

The results were as follows:

STATE FIRE COLLEGE OPENS SEPT. 1.

ERNEST LEAVERAGE TO REPRESENT CHESTERTOWN COMPANY

Mr. Ernest Leaverage will represent the Chestertown Volunteer Fire Company at the annual Fire College to be held at College Park September 1st to 3rd.

The purpose of this college is instruction in fire fighting by experts in their various lines and is attended by representatives of companies all over the State.

The improved fire fighting equipment and the continued efforts to fight fires with the least amount of damage to the properties are some of the phases of instruction. Fire prevention is also one of the major activites of fire companies.

Among the instructors will be representatives of the Baltimore and Philadelpha fire departments as well as Sherwood Brockwell, fire marshall of North Carolina who will talk on fighting rural fires.

UNDERGROUND TELEPHONE WIRES FOR RURAL SECTIONS

EXPERIMENT WOULD ELIMINATE STORM TROUBLE

Telephone wire is now being plowed under. Wire buried in from eighteen to twenty-four inch trenches, then covered with soil, a depelopment of the Bell Telephone Laboratories for constructing lines in remote sections where standard pole line construction would be prohibitive, is now undergoing experimentation. Use of this type of circuit, according to the Bell System Technical Journal, will provide facilities for a more extensive development of telephone service n rural cmmunities.

Buried wire installations, after a number of experiments, have been used very satisfactorily both for individual and party line telephone subscribers. The trial installations have been alid in or adjacent to the shoulders of public highways, although in some instances the wire has been burid on private rights of way. Where service connections are made, the wires are brought up above the ground and are connected through small metal wire terminals erected on short poles or post. Where the wire terminates on the subscriber's premises, the same type of electric protection is provided as on open wire lines or exposed cable circuits.

The telephone engineers have not only developed a type of wire with a special insulation that will insure protection against earth dampness, but also have perfected a plow for opening the trench, threading the wire into t and covering it up in a single operation.

This undergrund telephone wire experiment would overcome many obstacles now encountered on rural lines particularly that of storm damage. Severe summer storms and winter sleet and snow storms always cause considerable trouble to rural lines through fallen poles and broken wires. The underground system would also remove unsightly poles and wires from the roadside.

FLOWER SHOW SEPT. 10 AND 11

SUGGESTIONS FOR FLOWER ARRANGEMENT

Good flower arrangement everywhere has its value of proportion and olor harmony. Nature is rarely symetrical. An even number of flowers or sprays, flowers directly one above another, branches or sprays precisely the same height are cousidered very poor arrangement.

For artistic showing there should be a dominant tone rather than an even division of colors.

The darker colors in an arrangement of various tones should be placed low and near the center. Where all the colors are of equal value the larger flowers should be used in that position. If red, blue or purple flowers are being used and one wishes to give full color value, add one of the complimentary colors, perhaps yellow.

FORMER COUNTIAN DIES ON GOLF COURSE

George H. Mallaleu, 74 years old, a native of Millington, Kent County, Md., who had been identified with the woolen manufacturing industry for many years and who formerly was associated in an executive capacity with the American Woolen Mills, collapsed and died Sunday of a heart attack on the sixteenth fairway of the North Jersey Country Club near here.

Mr. Mallalieu was born in Millington, where his father had been engaged in the woolen manufacturing business at Mallalieu Mills for many years. He became associated with the American Woolen Mills more than 30 years ago and for many years was a Midwestern representing of that company. He retired in 1929.

Surviving are his daughter, Mrs. Gertrude Houghtaling of Glen Rock, N. J., with whom he made his home, and three brothers, J. Clifton of Garden City, L. I.; Ellwood of Buffalo, N. Y., and William of Millington, Md.

Funerals services were held at the Glen Rock residence at 2.30 p. m., Tuesday. Burial will be in Laurel Grove Cemetery there.

LIGHTNING HITS HOME HERE

ALSO SETS FIRE TO GALENA HOME

During the electric storm Tuesday evening, lightning struck the home of Mr. W. E. Ringgold on High street which is occupied by Mr. J. M. Todd.

The lightning apparently came to the house on a clothes line which is strung between the home and a chicken house. A part of the screen door was knocked off and the bolt then jumped to the bath room and grounded on the wash basin. Marks on the bath tub showed that it played around that room before finding a ground.

Three chickens in the chicken house were killed although there were no marks on that house.

At Galena lightning hit the home of Mr. Harry Bolton at Galena setting fire to the building. The fire was extinguished without any serious damage.

CLOSE OYSTER BARS IN KENT WATERS

LANKFORD BAY AND WINDMILL FLATS CLOSED FOR CONSERVATION PURPOSES

Notice was received from the Conservation Department this week that all natural oyster bars in Lankford Bay in Chester River and from Rock Hall to Windmill Flat on the bay have been reserved for conservation purposes and all persons are warned not to catch or disturb oysters in these reserved areas from September 1st, 1936, until further notice.

According to the notice seed oysters have been planted in these areas which are marked by buoys or other barriers. The power of the Conservation Department to close areas to oystering is set forth in article 72, section 161 of the annotated Code of Maryland.

COMMISSIONERS PUSH ROAD DEBT QUESTION

COMMUNICATE WITH ROADS COMMISSION THIS WEEK

Following the meeting last week of the Kent County Commissioners and the State Roads Commission with reference to the reported $200,000 indebtedness, the Commissioners wrote the following letter which is a follow-up of an agreement reached at the conference:

August 18th, 1936
State Roads Commission of Maryland,
Baltimore, Maryland,
Gentlemen:

The Commissioners of Kent County have considered the various suggestions at our conference in your office yesterday and we understand that your Commission does not care to entertain any proposition looking to the amicable adjustment of the alleged indebtednes of Kent County to the State Roads Commission on some equitable basis of compromise. Another alternative suggested was the matter be worked out through appropriate legislation at the next session of the General Assembly, and I think we all agree that this may result in a substantial delay in finding an adequate solution a nd that the matter is fraught wth considerable uncertainty as to what legislative action, if any, may be expected.

We understand from conference of yesterday that you prefer to have the matter of Kent County's alleged indebtedness to the State Roads Commission to be established by appropriate litigation and it was suggested in this connecton that your Commission institute a suit against the County Commissioners of Kent County, to which the Commissioners will appear, plead and join in an agreed statement of facts to be submitted to the Court for a prompt adjudication. The purpose of this letter is to indicate that the County Commissioners of Kent County are agreeable to having the matter adjudicated in accordance with your preference in the matter, and we are perfectly agreeable to having your Commission bring such a suit. It is understood, of course, that such a suit will be entirely on a friendly basis with a view of geeting the matters in controversy promptly disposed of.

We understand that you will authorize such a suit and we assure you of our willingness to cooperate, in order to secure a prompt decison.

Very truly yours,
G. ELLSWORTH LEARY,
ANDREW W. WILSON,
GEORGE T. WILLIAMS,
County Commissioners of Kent County

An acknowledgement of the receipt of the letter was received by the Commissionrs as follows:

County Commissioners of Kent County
Chestertown, Maryland
Dear Sirs:

The Commission desires to asknowledge receipt of your letter of August 18th, and said letter has been turned over to Special Assistant Attorney-General Jenifer for his attention.

Very truly yours,
L. H. Steuart,
Secretary State Roads Commission.

The purpose of this action is to clear up the legality of at least $140,000 of the debt which has been hanging as a shadow over this County for a number of years and has been a serious handicap in County road work.

The suit, when brought, will be an amicable one with both sides coperating to the fullest extent in order to clear up the question.

The debt dates back to 1929 when this County bonded for $900,000 for the construction of concrete roads. A study of the debt shows that the Roads Commission over-spent the $900,000 by $140,000 which the County Commissioners claim was beyond the authority of either the Roads Commission or the County Commissioners.
