ONE HEARS A LOT these days about preservation of the Constitution of the United States and also of the tremendous National debt. It apparently is the campaign issues of the Republican Party and is being tooted all the way down the line and may be heard on the sidewalks and in country stores. We wonder what proportion of those who are apparently worrying themselves about the Constitution have ever taken time or have had sufficient interest to read and study it and then are sufficiently versed in government to thoroughly understand its various provisions. If those who are conscienteously worried about the preservation of the Constitution will realize that the National Government maintains a Supreme Court made up of the most able Jurists in the country whose duty is to see that the activities of the Legislative bodies of the country do not violate the Constitution and that the provisions of that Constitution can only be changed by the popular vote of the people then the ranting of political oratory can be taken less seriously. As to the public debt there is no question as to the fact that it is large but when one realizes that this debt has been created by distribution of public funds within the country for sustenance of the people, construction of worthwhile projects and the preservation of industry. There was not a great deal of concern expressed about the tremendous expenditure of public funds during the World War when these funds were being used for destructive purposes. At the end of the Hoover administration this Country was involved in an economic depression considered to be as serious as war and the increased public debt was instrumental in winning this so-called war against economic conditions.

As the present increased value of industry and produce is beyond the public debt created to bring about this increase, is it not, after all is considered, a good investment.

WAKE UP YOUR LIVER BILE—
Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Your whole system is poisoned and you feel sunk, sunk and the world looks punk.

Laxatives are only makeshifts. A mere bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get those two pounds of bile flowing freely and make you feel up and up. Ask for Carter's Little Liver Pills by name. Stubbornly refuse substitutes. 25c at all drug stores.
