RADIANT LIVING

Whence Shall We Buy Bread?

By Rev. C. M. Griffeth
Pastor Calvary M. E. Church
Sudlersville, Md.

The multitudes of Galilee had for three days followed Jesus and listened to His wonderful teaching. And now, for want of physical nourishment, they were faint. But the Christ was not unconscious of their fatigue. Out of His infinite compassion for them, He resolved to feed them.

They were gathered on a gentle mountain slope, bathed in the yellow glow of the setting sun. Turning to a disciple, Jesus asked: "Philip, whence shall we buy bread that these may eat?"

What an opportunity this question afforded Philip to express his faith in the infinite ability and power of Jesus! But Philip saw only the multitude. "Two hundred pennyworth of bread is not sufficient for them, that every one of them may take a little," he estimated.

Blind Philip: Had he but looked, not upon the multitude, but upon the face of Jesus, he would have caught an expression that would have inspired him to respond: "However great the multitude, Thou, O Christ, art sufficient to meet their need!"

What Philip failed to recognize in the hour of need, as many of us fail to recognize, is the presence of the Resourceful Infinite who stands at our side waiting to help us if we would but turn in faith to him.

Whence shall we buy bread? Whence, indeed, O Master, but from thee! Thou art greater than all our needs. In thine Infinite Being we live. Upon thine Infinite Love we keep serene. Out of thine Infinite Power we are supplied. Thou, O Christ, art all sufficient to meet all my need!

FORD

advances into 1937 with the LOWEST PRICE IN YEARS

and new operating economy

THE ADDITION of a new 60-horsepower engine to the Ford line for 1937 brings you a new, low price and gives you a choice of two V-type 8-cylinder engines. 85 horsepower for maximum performance. 60 horsepower for maximum economy.

The 60-horsepower V-8 engine was originally developed for use in England and France, where fuel costs are high. It has been proven there for two years with brilliant success. Now, brought to America, it creates an entirely new standard of modern motoring economy!

The "60" engine, available in five body types, is built in exactly the same body size and wheelbase — to the same advanced design — with the same comfort and convenience as the "85." And it delivers V-8 smoothness at speeds up to 70 miles an hour.

Two engine sizes—but only one car and one purpose—to give you more miles and more satisfaction for your money in 1937.
