WOULD SETTLE KENTS ROAD DEBT

Compromise Bill Introduced By Senator Brice

A bill was introduced in the Maryland Legislature in Wednesday evening of this week, which if passed and signed by Governor Nice, would place Kent's reported road debt to the State Roads Commission on a bases whereby it can be settled. The reported debt, covers a period of years dating back to 1929 and is so complicated and indefinite that a complete understanding of it was practically impossible. Part of the debt was an advanced payment on interest and bonds of Kent's road debt during the years of the depression. The balance and largest portion is apparently for road construction in this county for which no authorization can be found. It is this latter portion that has been contested by the County Commissioners.

The entire reported debt amounts to approximately $192,000 and as long as it remains on the books of the State Roads Commission, Kent County is very much handicapped in getting its share of State and Federal road funds, particularly the Federal funds for farm to market roads.

The bill, as introduced by Senator Brice and in which he is joined by the Legislators from Montgomery and Calvert Counties, provides for a compromise settlement for fifty per cent of the debt.

The bill also provides that the payment of the fifty per cent settlement shall be made by these three counties by the State Roads Commission applying the counties' share of the gasoline tax for road maintenance and new construction to the debt until it is paid. This will apply differently in Kent County as all of the new construction funds must be applied to the payment of the road bonds of which $80,000 mature each year. It would mean that Kent must levy for the maintenance of the county road system until the $90,000 debt fund is paid.

The passage of the bill introduced this week would settle a problem that has been facing the county for several years and the settlement of the debt would be a decided asset.

DUCK HUNTERS TO MEET FRIDAY

All Sportsmen Invited To Attend

A meeting to which all duck hunters and all those interested in that sport are invited will be held at the Chester River Yacht and Country Club next Friday, March 5th at 8 o'clock p. m.

The meeting is being arranged by the Kent County committee of "Ducks Unlimited" which is composed of Messrs. Philip G. Wilmer, Brown Metcalfe and W. Dorsey Hines. The topics of discussion at the meeting will be the new duck laws and the propogation of ducks in Canada.

The committee is arranging for a guest speaker who is familar with the subject and indications point to a large crowd of sportsmen.

Duck hunters in all parts of the country have realized that the present wild-fowl laws are leading directly to a permanently closed hunting season and are not content to remain idle and let it come to pass. The present plan is to build up the supply of ducks by providing protected breeding grounds and then to work for a fairer shooting season with the elimination of many of the technical laws now in effect.. All sportsmen are urged to attend the meeting next Friday.

The present laws have affected the livelihood of thousands of guides and ducking shore employees as well as owners of water-front properties.

FORD ALMANACS FOR DISTRIBUTION

May Be Secured Free At Eliason Motors

Brimful of useful facts and information and other material of human interest, the Ford Home Almanac for 1937 goes to the homes of the United States this week, distributed free by dealers of the Ford Motor Company.

Readers of the booklet will find that, in addition to the time of sunrise and set, adjusted to each latitude; moon phases, eclipses and the usual other information given in Almanacs, the Ford Home Almanac is replete with interesting reading material dealing with ancient and modern prophecies, some of which shaped the destiny of differnt countries; sea mysteries that generations of research have nat solved and other miscellany.

There are also short articles dealing with the views of Henry Ford on various subjects, as well as an article showing in detail what he has done with the $13,000,000,000 which the public has paid for Ford cars and trucks since the Ford Motor Company began busines in 1903. Most interesting are the facts that, of this vast sum, the Ford Motor Company retained for itself but 6.4 cents out of every dollar, spnding the remainder, totaling nearly $12,500,000,000 for wages, taxes and materials.

While such information about one of the modern world's greatest industries will be found interesting by students, teachers and economists, the housewife and mother will also find the little book handy because of the reliable information it brings for first aid treatments in many different kinds of emergencies, hints for the kitchen and care of the garden and a well planned garden chart. The motorist planning a trip to any part of the United States will find in the Almanac a chart giving accurate mileages between important cities.

Wind Storm Damages County Property

The heavy wind storm last Sunday night did considerable damage in all parts of the county although the lower part suffered most.

At the farm of Mr. R. N. Whaley on Chester River, part of the old home was twisted on its foundation and to make matters worse a large tree crashed through the roof on the south side of the building and beams and plaster all over the bed room. Mr. and Mrs. Whaley were home at the time but were sleeping in the north side of the house due to the heavy south-east wind. Had they been in the bed room which they usually occupy they would probably have been injured by falling wood. Nine trees were blown down and outbuildings damaged.

Outbuildings were damaged on the farms of O. E. Yerkey, B. E. Wallace, Clark Grieb, in Quaker Neck and considerable damage was reported in Eastern Neck and also on the Island.

The Pilgrimage will be held annually for the contemplated work will take many years to finish, so the committee will try to have different places open each yead, retaining of course many ones shown before, so both the ne wand seasoned Pilgrim will always find plenty of interest.

The Maryland Fedration is trying to make it financially possible for those of small means to visit at least some of these beautiful old places, so will sell in most of the counties, one ticket that will entitle the holder to visit all the houses in that section at a saving on the siongle admissions.

STATE MOTORISTS PAY SIX BILLION TAX

First Gas Tax Levied In 1922

Motorists of Maryland have paid a total of $75,317,944 since the gasoline tax first was levied in this state in 1922 to finance highways, Governor Nice was informed today by Joseph P. Lanigan, Secretary of the Maryland Petroleum Industris Committee. Mr. Lanigan pointed out that this is the 18th "birthday" of the gasoline tax, which first was levied by Oregon on February 25, 1919.

"Motorists of Maryland have since 1922 contributed more than $75,317,-944 to gasoline tax collections which, on a national basis, have reached a total of more than $6,169,876,693 since February 25, 1919, "Mr. Lanigan said. "Included is their share of the $772,-658,000 total cost of the duplicating February 25, 1919", Mr. Lanigan said, gasoline tax levied by the federal government since 1932.

"State gasoline tax payments of Maryland motorists totalled $8,278,-025 in 1935. Total payments from 1922 through 1935 amounted to $68,-182,556. Payments for the first nine months of 1936 amounted to $7,135,-388.

"The state gasoline tax first was levied in Maryland, as in Oregon, for the specific purpose of financing highways. It has increased in this state from the original rate of 1c per gallon to the present rate of 4c, to which must be added the duplicating federal tax of 1c.

CORONERS JURY HOLDS NEGRO FOR FELONIOUSLY KILLING WHITE MAN

Salisbury Beer Salesman Shot Six Times Following Argument Here Last Tuesday

A Coroners Jury, of which former Sheriff John Vickers was foreman held Roosevelt Maith, local negro, on a charge of feloniously killing Lawrence W. Parsons at an inquest held Wednesday evening of this week. Parsons was shot six times by Maith at the latter's home on North Calvert Street Tuesday evening following an argument.

According to the testimony of witnesses at the inquest Parsons, who is a beer salesman for a Salisbury firm, stopped at the beer parlor of Maith's estranged wife to take an order for beer. Witnesses who were in the room with Maith's wife while Parsons was there stated that he came into the home talked about a beer order, remaining about fifteen minutes and left with the order when Maith came to the house and asked Parsons to go over to his restaurant across the street to collect some money that was owed him.

Other witnesses testified that on the way over to Maith's restaurant the two men were arguing and when they arrived there they went into an alley by the side of the house. Parsons was heard to say "What are you going to do about it" and pulled a pistol out of his pocket whereupon Maith grabbed the pistol, pulled his own gun out of his pocket and started shooting. Witnesses disagreed at this point, some stated that Maith held Parsons' gun while he shot him while others said that Maith took Parson's gun away from him before he started shooting. Maith, after firing six bullets into Parsons body, which emptied the gun, took the but of his pistol and cut him about the face. Leaving the wounded man in the alley, Maith went into his house and later walked out of the front door with both guns in his hands and said "call the Sheriff". Sheriff Bennett and his son, John, being away at the time, Mrs. Bennett called Deputy Pinder, who with William Bennett, went to the scene, disarmed Maith and William Bennett brought him to the jail while Deputy Pinder took Parsons to the local hospital where he died shortly after arrival. Maith, upon arrival at the jail, pulled a felt hat from under his coat and said "here's his hat, I've been waiting for him" or something to that effect. He later stated that he found the hat February 2nd, at the home of Henne Houston and suspcted its owner of going with his wife. Mrs. Parsons and her brother later denied that the hat had ever been owned by the murdered man nor has there been any evdence brought out that Parsons had ever had any association with Maith's wife except business, having sold beer for her beer parlor.

Maith's wife stated that she married Maith in 1932 at which time she was already married to James Hollins. She left Maith in July, 1936, and has not lived with him since that time.

Maith, 34 year old negro, who came to Chestertown from Broad Neck, has a criminal record, having been convicted of shooting another negro, keeping a disorderly house ,being in the gang that stole the safe from the railroad station and numerous minor charges.

Seed Loans Are Available Now

Applications for emergency crop and feed loans for 1937 are now being received at Chestertown by J. D. McVean, County Agent, assisting C. R. Hare of Salisbury, field supervisor of the Emergency Crop and Feed Loan Section of the Farm Credit Administration.

These loans will be made only to farmers who do not have available other sourcse of credit including production credit associations. Regulations in respect to loans this season ar much the same as in 1936 except that the limit this year is $400 per individual as compared to $200, and the interest rate is 4 per cent as compared to 5½ per cent last year.

Emergency crop and feed loans will not be made by the Farm Credit Administration to standard rehabilitation clients o fthe Resettlement Administration whose current needs are provided for by Resettlement.

As in the past, the security for these loans will consist of a first lien on the crop financed if the loan is for the production of crops, and if for the purpose of feed for livestock, then a first lien on the livestock to be fed. The crop lien covers the entire crop. Therefore the landloard's waivr is necessary.
