CHURCH NOTES

RADIANT LIVING

That Annoying Noise

By Rev. C. M. Griffeth
Pastor Calvary M. E. Church
Sudlersville, Md.

Many persons are annoyed by trifling things which others never notice. Perhaps it is the cheerful shouts or the clatter of happy thoughtless children. Perhaps the noise of the workmen next door gets on one's nerves. Or it might be the slightest clash of a dish or the rustling of a newspaper. Perhaps who are nervous have unfortunately allowed themselves to get into the grip of unpleasant reactions.

The radiant persons, on the other hand, realizes that the cause of all this trouble is not an outward one, but an inward one. He recognizes the fact that the real cause of his being unhappily disturbed is not the ward inability to successfully cope noise around him, it is rather the in-with, and master that annoying noise.

No noise will annoy us if we refuse to listen to it. The reason any noise torments us is that we have unconsciously trained our high expectant attitude, ready to cry out at the slightest suggestion of such annoyance.

Such a person is not unlike a dog sleeping with one eye open and one ear cocked, ready to spring forth in savage barking at the slightest approach of such annoyance.

He should turn his attention from such noise and focus it upon himself, and realize that the cause of the annoyance really lies within himself. And then in prayer, he should beseech the heavenly Father to so establish His infinite Quietness within that alhtough a boiler factory might go wild, it would awaken no inward disturbance, irritation, or unhappy reaction but that there may continue within the infinite calmness of God.

WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks punk.

Laxatives are only makeshifts. A mere bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get those two pounds of bile flowing freely and make you feel "up and up." Ask for Carter's Little Liver Pills by name. Stubbornly refuse anything else. 25c.

To restore fluffiness to blankets, add 1 tablespoon of glycerine to the rinse water for each pair of blankets.

To open eggs evenly without shell breaking in jagged points, crack with a knife that is not too sharp.

CHOICE OF POWER TO FIT *your* NEEDS

IN THE NEW 1937 **FORD V-8 TRUCKS**

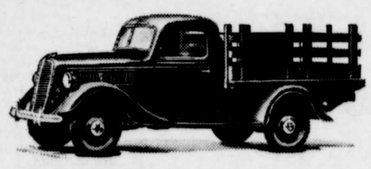

TWO V-8 ENGINE SIZES, 85 AND 60 HORSEPOWER

To apply the power of either engine with greatest economy, optional clutches, transmissions and axle ratios are available. To meet individual load requirements, there are three wheelbases, a wide range of body types and tire sizes, and a full line of accessories and special equipment. With these options, many combinations are available. You can select the correct combination to do your individual hauling or delivery job at the lowest possible cost.

For 1937 the Ford Motor Company takes its greatest forward step in cutting hauling and delivery costs. In addition, Ford introduces the NEW V-type ventilating windshield, NEW radiator shell and grille, NEW hood louvres.

Other features include: NEW light-weight cast-alloy steel pistons, NEW special alloy connecting-rod bearings, NEW cylinder heads, NEW cooling efficiency, more usable power, longer fan belt life, greatly increased life of contact points. IMPROVED mechanical safety brakes assure positive action with quick, smooth, dependable stops.

Such quality engine features as full cylinder-length water jackets, polished cylinder walls, exhaust valve-seat inserts and precision-set, factory-adjusted valve clearances are retained. In addition, torque-tube drive, full-floating rear axle with straddle-mounted pinion, all-steel coupe-type cab and other features continue to assure long-lasting economy and reliability.

A NEW STAKE BODY—Ford has designed this entirely new Stake and Platform body for the 112-inch wheelbase commercial car chassis. It is introduced to meet the demands of many lines of business. Load space measures 80 inches long, 62 inches wide, 29½ inches high. The floor is protected by steel skid-strips and a steel rubrail. Cab is of welded all-steel construction with a steel roof.

Convenient, economical terms through the Authorized Ford Finance Plans of the Universal Credit Company.

THOSE WHO REMAIN

When death visits a home, the first concern is to perform the last service to the loved one in a becoming manner. What ever is done must express all the reverance and affection that is felt at such a time. But in addition to this a further responsibility rests upon the funeral director. It is his privilege and duty to lessen as far as lies within his power, the burdens laid upon those who remain. By countless little acts of thoughtfulness he can make the way easier for them.

We consider this part of our work as important as any other. Our highest aim is to have our patrons look upon us as trusted friends, ready and anxious to render sympathetic assistance to those who remain behind.
