CHURCH NOTES

RADIANT LIVING

Homing With God

By Rev. C. M. Griffeth
Pastor Calvary M. E. Church
Sudlersville, Md.

Have you not dreamed of that ideal home that you would like to build some day? Just such a home as you have been wanting to build is what God Him self can be to you and for you.

When St. John directs us to "abide in God" he means for us to make God our home—to move into Him and live in Him. Just as you imagine you could enjoy the good things of an ideal home, so you can in all reality enjoy the good things of God. In fact the blessedness that attends the soul that makes God his home is a blessedness that far surpasses the imagined blessedness of material ideal home.

One makes his home in God when he permits his mind to dwell on the fact of God, when he opens his heart to the nature of God, when he devotes his life to the expression of God.

One makes his home in God when he brings all his thinking into harmony with the Infinite Mind of God, when he excludes from his mind everying in thought or in imagination that is not in harmony with Infinite Love.

When God becomes a man's home, he finds his mind becoming filled with thoughts that are beautiful, thrilling and uplifting. He finds a comfort and a relaxation that are restful and health-building. He finds a spiritual environment and companionship that are entrancing.

Since I have made God my home, I have found time to live, I have found spiritual enrichment, I have found a happiness that thrills.

A Salt Dome

A salt dome is a plug of salt, sulphur and occasionally other materials, shaped something like a derby hat, pushed up through underlying strata, says Literary Digest. It is a natural bed for the accumulation of oil.

The Use of Tobacco

Tobacco was introduced to England near the end of the Sixteenth century by the noted British explorer, Sir Walter Raleigh, famous for the pipe-smoking incident, who even "took a pipe of tobacco a little before he went to the scaffolde." He was the first to smoke a pipe in England and since then no one can think of a perfect Englishman without his pipe. The use of tobacco then spread to the Continent, although it had first knowledge of the "weed" in 1558 when Francisco Fernandes brought it to Europe after being sent by Philip II of Spain to investigate the products of Mexico.

Carnation, an Old Flower

The history of the carnation family runs back to 300 B. C. The name was derived from the clove tree by the Greeks, due to the scent of the blooms, no doubt, the specific name of which is Caryophyllus aromaticus. The development of the carnation as a greenhouse flower has been carried on in America since 1852, and the first hybridizing work was done on Long Island.

Baily's Beads

Baily's Beads, a phenomenon seen during a total eclipse of the sun, were named after Francis Baily. Just before the moon's disc completely covers the sun the narrow crescent of sunlight is broken in several places, giving an appearance roughly comparable to a string of beads. This is due to irregularity (mountains and valleys) on the edge of the moon's disc.

Gesture

The person who gesticulates much when talking is informative, entertaining and a lovable friend. Many famous people have had this characteristic. The despairing gesture—throwing the arms downward—shows a pessimistic nature. The optimist throws his arms upwards and outwards — he is expansive and wants to embrace the whole world.

Deep Soil Cracks

The cracking of soil in dry weather and the mounding in wet weather which many have believed to be due to the nature of the soil itself is due, rather, to the depth of the soil, experiments conducted by the Soil Survey indicate.

Missionary Needed Axe

An axe was a necessity to the first Christian missionaries to pagan Germany in the early centuries. For, before he could convert he chopped a holy tree down to demonstrate how powerless and inefficient these holy trees were as gods.

WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks punk.

Laxatives are only makeshifts. A mere bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up." Harmless, gentle, yet amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. Stubbornly refuse anything else. 25c.

THOSE WHO REMAIN

When death visits a home, the first concern is to perform the last service to the loved one in a becoming manner. What ever is done must express all the reverance and affection that is felt at such a time. But in addition to this a further responsibility rests upon the funeral director. It is his privilege and duty to lessen as far as lies with in his power, the burdens laid upon those who remain. By countless little acts of thoughtfulness he can make the way easier for them.

We consider this part of our work as important as any other. Our highest aim is to have our patrons look upon us as trusted friends, ready and anxious to render sympathetic assistance to those who remain behind.
