THE MARYLAND Legislature has just completed its second session this year, the one just ended being a special session for the purpose of enacting relief legislation. While the question of what form of taxation should be passed is very important yet probably the outstanding result of the sessions is that relief in Maryland has become a permanent thing. While many of the Legislators favored the elimination of direct relief, they were in the minority. Old age pension and aid to children and those physically handicapped was generally favored but the question of providing direct relief to the jobless promises to be continually a point of contention. The counties are almost unanimous in their thought that direct relief should be eliminated but the claimed need in Baltimore City carries sufficient strength to carry it on. The addition of a small income tax has broken the ice for this system of taxation in the State and should it prove successful it will, no doubt in the future prove to be one of the States chief sources of income unless strong opposition developes. It is one tax that is not fought by a high paid lobby.

THE DEATH of Dr. Charles Wickes Whaland marks the end of a long and useful career. Following the profession of his father he practiced medicine here for sixty three years during which time he, like all county physicians, relieved the suffering without thought of what compensation may be received. Country physicians can well be regarded as leaders in charity.

A McCORMICK-DEERING SPREADER MAKES MANURE MORE VALUABLE

Fresh manure does more to build up soil fertility than manure that has stood in a pile for a long time. A McCormick-Deering All-Steel Spreader provides the easy way to get manure onto the land frequently, before it loses valuable soil-building properties.

The McCormick-Deering is an all-steel spreader, sturdy and strong in every detail. The box is made of heavy-gauge galvanized steel containing copper. It is rust-resisting and non-warping. Capacity is 60 to 70 bushels. It is built low to the ground to make loading easy.

Eight roller bearings, steel sides at the rear, five spreading speeds, pressure lubrication, the upper saw-tooth non-wrapping beater, the lower spike-tooth beater, and the wide-spread spiral are other quality features that make the McCormick-Deering the best buy in a manure spreader. Come in and look it over.

DOG TAXES MUST BE PAID AT ONCE

All persons who own or keep a dog in Kent county must pay a dog license for same. These taxes are past due.

If you have not paid your dog license this is to warn you to do so. If not paid the owner will be arrested and fined.

It is much better to pay the license than to have to pay costs of arrest and fine. See your dog constable and pay your license on or before May 15.
