Red Coral Always Prized

It is red coral that is and always has been prized, not solely for jewelry and buttons, but as a charm to bring safety, health and secrets not revealed to the ordinary person. As ancient Gauls rushed headlong into battle, they trusted their safety to their swords, strength and the "magic" coral imbedded in their shields or helmets. Many Italians and Indians regard coral as protection against the "evil eye." The world's red coral comes from the reefs off the Mediterranean coast of Africa, says the Washington Post, and is obtained chiefly by Italians.

IT'S NEW!

STEP OUT WITH

GAS OIL INE

HERE'S an amazing new motor fuel! It protects as it powers your modern motor... not gas alone... not oil alone, but GAS OIL INE!

Fast-flying, precision-fitted, upper motor parts in today's motors require *constant* lubrication. Without this lubrication, destructive friction steals power and wears down your motor. GAS OIL INE supplies this *constant* lubrication. It takes the place of old-fashioned gasoline and top-cylinder oil.

GAS OIL INE is a perfectly balanced blend of maximum hi-test Tydol *gas* and a new, improved, heat-proof oil. Get a full tankful. Do this today and pay only the very same price you now pay for old-fashioned gas.

Wearing Spectacles

The English assert Roger Bacon started the custom of wearing spectacles in the Thirteenth century, just seventeen years before Salvino d'Amati died in Italy. Benjamin Franklin invented the bifocal. He was a smart fellow and thought of everything. It annoyed him to have to keep changing from far-sighted to near-sighted glasses, so he contrived the two-piece style.
