CHURCH NOTES

RADIANT LIVING

Why not read the best?

By Rev. C. M. Griffeth
Pastor Calvary M. E. Church
Sudlersville, Md.

In a canvas made by the American Newspaper Publishers' Association, it was learned that the American people spend twice as much time on magazines as on books, and more than five times as much time on newspapers as on books. It was found that most of the men canvassed read newspapers for an average of forty-five minutes a day, and a average of twenty-five minutes a day on magazines. One half of the group convassd read less than a book a month.

How much time do you put into reading each day? And how much of that time do you spend in reading the best?

Much of that which is being read today is unworthy of the time it takes to read it. It has been learned by investigation that nearly all of the best sellers of ten years ago are little known today, and even their authors are forgotten. If this is the fate of the best sellers, of what value was all the less popular writing?

A New York journalist recently declared that nine-tenths of the books published today are not worth the reading. A recent critic of modern magazine literature says that the novels of today are written under pressure from editors and are written for profits and not to portray American life as it really is.

Why then spend so much time in reading that which is trash, untrue, perishable? Why read trash when God has put into our hands a Book that will enrich our lives, bring glory into our souls and open for us the gates of heaven?

Why not read the best?

WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks punk.

Laxatives are only makeshifts. A mere bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get those two pounds of bile flowing freely and make you feel "up and up". Harmless, gentle, yet amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. Stubbornly refuse anything else. 164

THOSE WHO REMAIN

When death visits a home, the first concern is to perform the last service to the loved one in a becoming manner. What ever is done must express all the reverance and affection that is felt at such a time. But in addition to this a further responsibility rests upon the funeral director. It is his privilege and duty to lessen as far as lies with in his power, the burdens laid upon those who remain. By countless little acts of thoughtfulness he can make the way easier for them.

We consider this part of our work as important as any other. Our highest aim is to have our patrons look upon us as trusted friends, ready and anxious to render sympathetic assistance to those who remain behind.

STATES HAVE OPPORTUNITY TO SHOW WARES IN HUGE BUILDING AT NEW YORK FAIR

NEW YORK, (Special).—Included in the limited edition book of unusual size and beauty which the New York World's Fair 1939 Incorporated has sent to state governors and, through diplomatic channels, to foreign governments, is the following text devoted to.

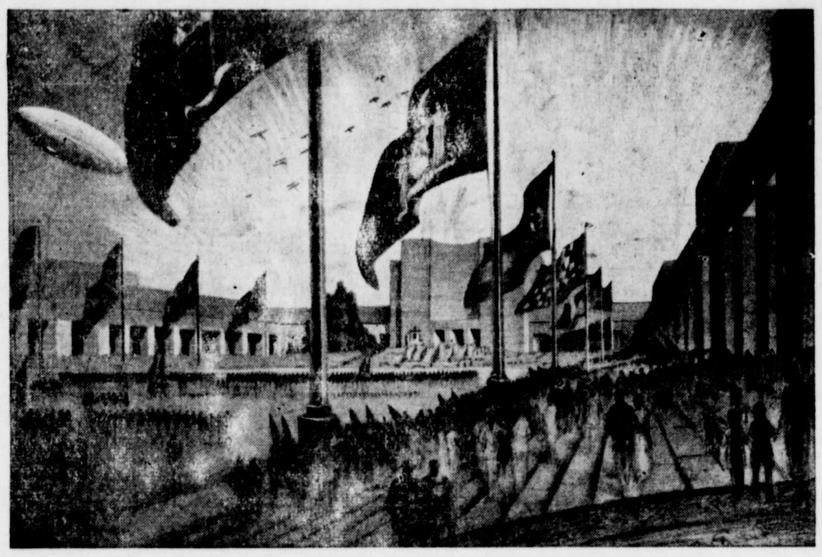

The Sovereign States of the Federal Union

George Washington, in declaring that the public felicity and prosperity of America depend upon the firm union and the unceasing cooperation of the sovereign American States, divined the future. The prosperity and the greatness of these United States have arisen from the free and unimpeded circulation of ideas and products in the world's greatest consumer market.

The Fair gives to each State the appropriate setting and opportunity to announce to the world its unique and indispensable contribution to America's rich and colorful civilization. The Fair contemplates a Hall of States, in the imposing Government group and flanking the structure which the Fair looks to the United States to build, to house the exhibits of the forty-eight States, and the Territories. Those wishing to participate more extensively will, in addition to their exhibits in the Hall of States, either erect their own buildings or obtain space to display their products and attractions in one or more of the exhibit zones.

The State of New York has naturally taken the leadership in the participation of the sovereign States of the Federal Union. Its total appropriations for Fair purposes may exceed $5,600,000; and the New York State World's Fair Commission, appointed by the Governor, has been active for some time. Other States already are beginning to express enthusiastic interest in participating more extensively than at previous world's fairs.

The many visitors will find a fresh cause for pride and enthusiasm in the revealing exhibits of their respective States. But beyond this, the exhibits will enable the States to make a persuasive presentation to all visitors of what they have to offer to the consumer and to the tourist.

Before the Hall of States, at the New York Fair, a Brigade Might Pass in Review

FARMALL FARMING Is Still 'Way Ahead of Any Other

McCORMICK-DEERING

THE FARMALL way of farming row crops is still the cheapest and best way. There isn't any other that can touch it. FARMALL owners have been able to cut production costs to the very bone—they are in a position to take advantage of any upturn in farm prices and profit by it.

Make the FARMALL investment yourself and enjoy all the advantages that FARMALL power brings to its users. There is a size for every farm now with the addition of the FARMALL 12 for small farms. Other sizes are the FARMALL 20 which handles 2 plows, and the FARMALL 30 for 3-plow work. Remember there is only one true FARMALL—the McCormick-Deering.

Come in and let us tell you about it. Or better yet, call us for a demonstration of the FARMALL that is best suited for your farm.
