States Reason For Curtailed Rail Service

The following letter was received this week by Mr. Polk T. Bramble in reply to a letter written by him about the proposed discontinuance of the passenger rail service here:

Cape Charles, Va., November 9, 1937
Bramble Poultry Farm,
Chestertown, Md.
Gentlemen:

Your letter of November 2, 1937, addressed to Pennsylvania Railroad Company, Philadelphia, Pa., has been referred to this office for attention:

The number of passengers using our trains on the Chestertown Branch, or that portion of our railroad extending from Massey, Md., to Chestertown, Md., has greatly decreased and the volume of traffic now offered clearly indicates that such service can no longer be considered a public necessity. A monthly deficit resulting from this operation continues to increase and sound business principles, such as you apply in your own business, demands that consideration be given to ways and means of obtaiinng relief from this condition.

The matter has been carefully considered from all angles, as a result of which we contemplate, in due time, applying to the Public Service Commission of Maryland for permission to discontinue passenger service on this Branch. If we are successful in obtaining permission to abandon this service you may be assured that arrangements will be made to handle mail, express and milk in a manner entirely satisfcatory to our patrons, and that we contemplate making no change in our freight service in this territory.

In support of our position and for your information we enclose herewith statements showing the use made of this passenger service by the traveling public, prepared in such a manner as to show the number of passengers handled to and from the stations on this Branch from June 20 to October 31 of the current year, together with the average number of passengers handled per trip.

There is also enclosed statement showing the average cost of operation, together with revenues and deficit for several months of the year 1936.

With these facts before you we feel that you will recognize the necessity for and justification of our contemplated action, especially in view of our assurance that arrangements will be made, in the event of the withdrawal of this passenger service, to handle mail, express and milk to the satisfaction of our patrons.

Yours very truly,
K. R. VOUGHT,
Superintendent

WAKE UP YOUR LIVER BILE—
Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks punk.

Laxatives are only makeshifts. A mere bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get those two pounds of bile flowing freely and make you feel "up and up". Harmless, gentle, yet amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. Stubbornly refuse anything else.
