THE PUBLIC LECTURES at Washington College will not be held for the next two weeks due to examinations. These lectures which were arranged for the public have not been attended as they should. College authorities will however continue the series for those people who are taking advantage of them. They afford an intellectual opportunity for the public and are delivered by experts in their line. The scientific lectures have proved more popular than the cultural ones which evidently proves that the public interest is along that line. It is hoped, however, that the love for the arts will not pass out in favor of the more practical line of thought.

THE SNOW HANDLING equipment of the local state roads department has seen no activity this winter so far although Wednesday night sand was placed at the important intersections. It is gratifying to know that if possible the roads will be kept passable by this force who work day and night in emergencies. This knowledge makes it possible to plan trips in winter weather without particular concern as to whether the roads will be passable.

THE STATEMENT BY the railroad officials this week that the Pennsylvania Railroad has abandoned their plan to discontinue passenger service on the Chestertown branch is very gratifying here. Their proposal brought a storm of protests as it would practically eliminate communication to those who do not have the use of an automobile. It is true that there is very little passenger travel over this line due to there being only one train a day but, particularly in winter, it is an efficient means of transportation when needed.

THE CHILDREN, who received skates and sleds for Christmas had hopes of using them this week but the rain on Friday washed these hopes out.

QUAKER NECK NEWS

Prof. Grover C. Nicholson, of Willards, Md., broadcast over station W. S. A. L., on Monday afternoon and dedicated it to one of the sick. Members of our community, Mrs. T. R. Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.

Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength.

Other signs of kidney or bladder disorder may be burning, scanty or too frequent urination.

There should be no doubt that prompt treatment is wiser than neglect. Use *Doan's Pills*. *Doan's* have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. *Ask your neighbor!*

WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks punk.

Laxatives are only makeshifts. A mere bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless, gentle, yet amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. Stubbornly refuse anything else.
