THE SOCIAL WANDERER

DEAR ROAMER:

The principal topic of the week hinges around weddings—past present and future. As our interest naturally centers around bird in hand let's talk of the one taking place at noon to-day. Miss Elizabeth Morgan, daughter of Rev. and Mrs. L. B. Morgan, of Middletown, and Mr. E. Clarke Fontaine, son of Dr. E. Clarke Fontaine, Jr., will be married at the home of the bride's sister, Mrs. Harold Purnell, in Georgetown, Delaware.

On Monday evening of this week. Mrs. Fontaine and Mrs. Robert Harrison entertained at a shower, followed by dinner and bridge in Miss Morgan's honor, at the Fontaine home on Water St.

Among the out-of-town guests was Mrs. William Anthony, of Baltimore, who has been a guest of Dr. and Mrs. Fontaine all of this week.

Last Saturday evening, Mr. and Mrs. William B. Nicholson were guests of honor at a shower given by Mr. and Mrs. Browne M. Roe at their home in Sudlersville.

The latest engagement to be announced is that of Miss Patience H. Pyle, daughter of Mr. and Mrs. E. L. Pyle, to Mr. Frederick G. Usilton, Jr. No date has been set for the wedding.

Mr. and Mrs. J. C. Loud celebrated their 59th wedding anniversary last Sunday with a family dinner party. Sunday was also the birthday of Mr. Loud.

A birthday dinner in honor of Mr. Charles Eshman was held on Sunday at the Voshell House. Among the out-of-town guests were: Dr. and Mrs. Wade Atkinson, of Washington.

Announcement has been made of the birth of a daughter to Dr. and Mrs. F. A. Holden at Miami, Beach, Florida. Mrs. Holden was formerly Miss Jean Klinefelter, health nurse here.

The increasingly popular lectures given by Mrs. Clara Stacy Solandt on China are creating much enthusiasm. At 2 o'clock on Wednesday of this week, Mrs. Solandt will talk on lustre and Magelica at the Library. Anyone who has any pieces of interest is asked to bring them. Mrs. Solandt is giving her talks for the benefit of the Kent and Queen Anne's Hospital Auxiliary.

It's all a matter of taste. Some like it cold and some like it hot. Per example—

Mrs. Morris K. Barroll left on Wednesday for Hamilton, Ontario, Canada, where she wil visit Miss Hamilton, who has frequently visited Mr. and Mrs. Barroll here in the summer.

Or, the other hand, Mr .and Mrs. Rex Whaley left this week for Florida where they will spend some time basking in the warm sunshine there.

Mr. H. D. Weyl and daughter, Miss Edith Weyl, of Wilmington, and Mr. and Mrs. Earle A. Barnes left Thursday for a motor trip to Miami, Florida. They expect to be gone two weeks and will vsiit the latter's son, Mr. Allan Barnes who holds a position in Miami.

Mayor and Mrs. Philip G. Wilmer leave to-day to be week-end guests of Mr. and Mrs. I. Norris Harrison at their home in Rydal, Pa. During their visit they will be guests of honor this evening at a dinner, held at the Barclay, followed by a theatre party.

Miss Martha Speicher will leave Washington Collgee at the end of this term and will enter Bucknell University on Feb. 6 to pursue her studies there.

Mr. and Mrs. Harry B. Cannon, recently of Old Field Point Farm, are now established in the Chapman house on Washington Ave. for the winter months. Mr. Cannan, who sold Old Field last week is contemplating a purchase in Kent in the near future.

Mr. Rolph Townshend, district roads supervisor, for the four county area, which includes Kent, is spending the week in Cleveland at a meeting of roads engineers.

Mrs. Rudolph Tull, of Cynwyd, Pa., comes to-day, to visit Mr. and Mrs. Dorsey Hines. Mrs. Tull will be the guest, the latter half of her week's visit, of Mr. and Mrs. James G. Beck. Already, many invitations have been issued fo rthis popular guest and it looks like a busy week ahead.

Mr. and Mrs. Morton Coale, of Cynwyd, Pa., will be guests this week-end of Mr. and Mrs. Beck who incidentally will celebrate their 40th wedding anniversary on Wednesday, January 26.

Mr. James L. Bacchus entertained the "bridge crowd" last evening at buffet supper followed by cards.

Mrs. James S. Kreeger, Jr., is spending several days in Baltimore and last Saturday evening entertained for a number of her friends.

Mrs. Jessie Blakeney was the week end guest of her brother, Mr. Morgan Matthews and aunt, Mrs. A. P. Matthews, in Baltimore.

Mrs. Alvin C. Brown, of Wilmington, Del., visited friends in town the first of the week.

Dr. and Mrs. Arthur Simpson, of Washington, D. C., were week-end guests of the latter's parents, Mr. and Mrs. Samuel E. Cooper.

Time's up, and I must say au revoir.

Yours for some snow,

THE WANDERER

Variety of Uses Found for Output of Beeswax

Beeswax, the main by-product of honey, also has a wide variety of uses. In addition to its extensive use in manufacturing church ceremonial candles it is employed in making wax polishes, modeling waxes, ointments, certain types of paints and inks, etc. In early times when the chief source of artificial light was the candle, says Pathfinder Magazine, the beeswax candle was much preferred to a tallow one because of its higher melting point and the fact that it gave off little odor.

The high commercial value of beeswax as the base of wax polishes is due to its fine texture and this has been known to the Old world for a long time. Many European and Japanese waxes are still derived from this source.

Industrial chemists who have made laboratory studies of the bee and its products find that in addition to lovulose, supposed to be the sweetest of sugars, honey contains such minerals as magnesia, iron, sodium, lime, etc. And while they say they do not expect honey and beeswax to ever become more important industrially, it is significant that they continue their researches into the subject.

Orchid Yields Many Seeds

A single orchid pod sometimes yields a million seeds. It ripens in about 6 to 12 months.

Ozarks Rich in History

The Ozarks are rich in history. From the early days of the French, who named the region because the Indians there about carried bows and were consequently "aux arcs," through the turbulent days of the Civil war, this section has played its part. A simple monument marks the Compromise line and a bullet-scarred tavern stands where one of the principal battles of the war was fought.

Riches, Strength Not Understood

Men seem neither to understand their riches nor their strength; of the former they believe greater things than they should, of the latter much less. Self-reliance and self-denial will teach a man to crawl out of his own cistern, and eat his own sweet bread, and to learn and labor truly to get his living, and carefully to expend the good things committed to his trust.—Lord Bacon.

Shot at President Jackson

President Andrew Jackson was shot at in the Capitol at Washington, January 29, 1835, by Richard Lawrence, a house painter. The weapon missed fire.

SHORT AND SNAPPY

Any game played in the street is a game of chance.

All birds do have feathers and no other animals have them.

From 87 Federal hatcheries last year came some 8,000,000,000 fish.

The electric motors of a great battleship have the energy of 1,000,000 men.

Helium is favored as a lifting gas for airships because it is both light and noninflammable.

Sixteen special issues of commemorative coins were authorized by the last session of congress.

Boy Scouts in forty-nine nations now number over 2,600,000, an increase of nearly 87,000 in a year.

It is estimated that Hawaii pays more taxes into the United States treasury than nineteen of the states.

In Alaska there is only one person to every ten square miles while in Puerto Rico there are 520 to a square mile.

In downright combat, a horse can move a big gun to a new point of vantage better than a motor, cavalry officers have told the house appropriations committee.

MILADY'S DOINGS

Face powder is now used by 95 of every 100 women in England.

More than 80 per cent of present-day snuff users in England are women.

The brain in women seldom exceeds an average weight of 1,140 to 1,340 grams.

South Africa's first Indian girl guide troop has been organized at East London.

A woman in England boasts that she has had the same carpet on her floor for half a century.

The average woman enjoys being envied even more than the average man enjoys being praised.

Miss Virginia Keister has lived for twenty years at 702 Virginia avenue, Virginia Heights, Roanoke, Virginia.

Of the nearly 11 million employed women in the United States, more than a third carry the full responsibilities of homemaking.

TOLD IN FEW LINES

Leningrad is situated on 19 islands.

All land in American Samoa is privately owned.

Queen Elizabeth used two crowns at her coronation.

A young crow requires about 10 ounces of food daily.

Half the Massachusetts State Police are college graduates.

Thirty thousand gallons of champagne are imported into the United States monthly.

Waste liquid at a Canadian paper mill is being converted into yeast, thus utilizing the sugar contained in the wood.

Carved representations of human fingerprints have been found in ruins on an island off the coast of France which are believed to be 30,000 years old.

Famous Marriage Papers

Famous marriage certificates are preserved at Somerset House, London, says London Answers Magazine. When George Fox, the founder of the Quakers, was wed in 1669, 22 persons signed the register. The certificate of marriage of William Penn, founder of Pennsylvania, is dated 1672 and bears the signatures of 46 witnesses.

Camels' Use in Battle

Tribal battles between the Arabs of North Africa always end in a sudden retreat of the side which first discovers it has only one camel left for every three men, says Collier's Weekly. Three is all a "mehari," or racing camel, can save at one time, two riding on its back and one hanging onto its tail.

When Paints Were Edible

According to history, paints made in early Colonial times were edible. Boiled rice, skimmed milk and salt were among the raw materials used in making homemade paints. Early American cook books contained formulas for making the various colors desired.

BETTERTON

The members of the Womens Club entertained delegates from the various clubs in the county on Tuesday at the Ferncliffe Hotel. Lunch was served at noon, and the business session followed.

Mr. and Mrs. Richard Fellows entertained the Epworth League at its business and social meeting on Thursday evening. Three cars carried members to the Youth Conference held at North East on Sunday afternoon. It also voted to appropriate a sum of money to be divided among the members attending the three day session of the Youth Conference to be held at Salisbury in February.

Mr. Howard Beauchamp Owens was operated on last Sautrday night for appendicitis at the Church Home in Baltimore. Mrs. Howard Owens, his mother, visited him there on Tuesday.

The members of the Betterton Odd Fellows and Rebekas Lodges held a banquet in their hall at Still Pond on Monday evening, observing the birthday of Thomas Wildey, one of the charter members of the first lodge in America.

Mr. and Mrs. Richard Gamber, of Baltimore, spent the week end with her father, Mr. Arthur Brice.

A new fire proof roof is being put on the school building. On two occasions the old roof has caught fire from sparks from the chimney.

The fourth quarterly conference of the Still Pond-Betterton Methodist Church was held at Betterton last Friday evening. Mr. Harvey Moore will be the delegate to the annual conference in Wilmington on April 1st and 2nd. Mr. Ralph Geary is the alternate.

Mr. and Mrs. Arthur Wilmer and son, of Philadelphia, spent the week end with his mother, Mrs. Anna Wilmer.

The quick action of men with fire extinguishers stopped what might have been a serious fire when a spark caught the dry leaves under the porch of Miss Lillian Leagers house on Main Street, on Saturday morning.
