THE TRANSCRIPT

Entered at the Chestertown Post Office as second class matter.

Publishers—R. H. Collins & Sons.

Editors—R. H. Collins, Jr., and William S. Collins.

IT IS VERY apparent that the various Democratic factions in Kent County agree on the fact that a harmony ticket is desirable. As to whether such a ticket can be worked out remains to be seen. The general opinion is that by averting a primary it will save county expense and assure a Democratic victory in November.

FOR SOME TIME merchants and business men of Chestertown have freely expressed themselves that Chestertown needs a small factory to bring in a weekly payroll and give employment to a limited number of people. It is very apparent that there is a possibility to secure such a factory for this town but before this can be done a suitable building must be made available. In order to do this the business men must agree to finance the building or remodeling of a plant to meet requirements. It is not a question as to whether this should be the case but it is a fact and must be faced. A factory was built in Chestertown a number of years ago by the business interests through a self liquidating plan which did not cost its sponsors a cent. Some such plan must be worked out again if this town needs and wants a small factory to take up the employment slack and bring in a weekly pay-roll.

FROM THE University of Maryland's Agricultural Station comes the proposal that the present system of country government be abandoned and that the State be divided into seven geographical and governmental districts. The proposal was based on economy in government and the saving in the salary of officeholders. The natural question that arises is why seven districts, why not three, two or one? Then why not go further and divide the United States into three four or five or combine Canada, United States and Mexico and the Central American Countries into one country and possibly include South America. Such a proposition is apparently the ambition of a few European Rulers over there. While every taxpayer wants economy in government yet freedom to share in the management of ones small territory is the foundation of American Government. The management of county affairs is gradually getting under the direct control of the State and the State under the Federal government. As to whether this is desirable or not is a question for argument but it is certainly responsible for increased taxation. The above proposal is nothing to become excited about as many moons will come and go before such a change could possibly be made. At the present itme it makes news and that is about all that can be said about it.

IN MEMORIAM

In memory of our dear father and husband, John Ward, who departed this life February 23, 1923.

Fifteen years ago today I lost
The dearest pal I had.
And only those that lost the same
Must know 'tis very sad.

The ivy does not fade so fast
As flowers that bloom and smell.
It is just a little memory dear.
Of our love we shared so well.

Many years we had
To call our own.
Each day that left behind us
The loneliness we'd known.

Many years of happiness
That grew each day.
The trials we faced together
Were dimmed along the way.

The joys many years can bring
I never knew until I gave
My promise
To share my years with you.

Loving wife and children.

MRS. ALLA WARD.

Old Timer Comments On Politics

Dear Mr. Editor:

It just goes to show that when it comes to politicks enybody is guess is as good as enybody elses en if a politikal boom was started at the watermen supper at Rock Hall last Saturday nite the sound was drownded out by the rain storm. Corse lots of the boys was there on an exact count showed 17 head on hand who have their eye on the Sheriff's office. There was probably two disapointments down there they being that the State politician didn't show up and the fact tha tthe boys standing out in front couldn't git warmed up to no real politikal gossip in the cold rain. Corse as I said last week osme of the local boys could learn a lot by watching the manuvers of htis State politician and thoe he wasn't there he exekuted a master stroke by sending a nice check to the church people. It has been said that money talks en that check did a lot of talking. If the lack of a politikal explosion disapointed enybody nobody wasted no time goin there cause the feed of fish, pork, osters and that thing they make by cuttin chicken up en mixing it with selry was woth the time spent.

From the talk around the stores you would think every third person in the county was goin to run for office but that ain't fooling me none cause I've bee naround too long and know that a man has got to get an awful lot of people to agree with him in order to git a politikay office, en lots of us have found that out. Corse I don't know it all but I've seen many people take an awful jolt at election time en think they didn't have no friends but politicks en friendship don't always run together. The rumor is getting about that one of the crowd tha tis running for the big job down at Annapolis might drop out en swing his support to a certain Eastern Shore candidate to beat another one of the crowd that hails from the big city. Corse I don' tbelieve all I hear but I like to hear what the boys are talkin about.

As to the politickal sitsation in Kent County ye kin hear most enything ye want en if you try to believe it all its nough to make ye head swim. Corse at this early time it looks like there might be three or four tickets in the field but afore its all over the Democrats will see there ain't no use in bustin the party wide open en will git things down to somepin what makes sense. Sorse it is just the pinion of an old timer who still seys "there ain't nothin new in politicks" in spite of this changin way of doing things but corse no body believes enything I seys cause I'm an old timer. Enyway its jis as well the boys round the store does their talkin now cause soons the warm weather comes on they won't be able to git en audience round the stove.

P. S.—Really enjoyed myself this wek cause since I made the complant last week bout there being no sand boxes round the stoves enymore one of our obliging store keepers put one in en I find my aim ain't no worse for the lay off.

Very truly yours,
Uncle Jake.

Live On THE SUNNY SIDE!

Bask in the bright sunlight of financial security where the shadows of sudden money worries can never penetrate. This sounds much harder than it actually is. The first thing to do is to open a savings account; the rest comes by adding to it REGULARLY, in large or small amounts. It's surprising how quickly an account will grow when handled in this manner. Some day, you'll have enough to meet emergencies, to take that coveted trip or just live happily, knowing you are secure.

THE FIRST NATIONAL BANK cordially invites you to investigate. All of our diverse facilities are at your disposal. Many of them could be used by you with convenience and safety.

HELP KIDNEYS
To Get Rid of Acid and Poisonous Waste

Your kidneys help to keep you well by constantly filtering waste matter from the blood. If your kidneys get functionally disordered and fail to remove excess impurities, there may be poisoning of the whole system and body-wide distress.

Burning, scanty or too frequent urination may be a warning of some kidney or bladder disturbance.

You may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel weak, nervous, all played out.

In such cases it is better to rely on a medicine that has won country-wide acclaim than on something less favorably known. Use *Doan's Pills*. A multitude of grateful people recommend *Doan's. Ask your neighbor!*
