NEWS GATHERED ON THE PENINSULA

Committee To Fight Beetle

Six Shoremen are members of a State-wide committee of 23 persons to aid in the State's fight against the Japanese beetle and other insect pests.

The Eastern Shore appointees include: J. Richard Phillips, Jr., and Joseph G. Harrison, of Berlin; William W. McCabe, of Ocean City; Charles R. Hayman, Salisbury; Paul Gunby, Marion, and A. Howard Johnson, of Centreville.

Services of the group, the State entomology advisory committee, will be at the disposal of Dr. Ernest N. Cory, State Entomologist, and will be directed against the beetle and othed insects attacking Maryland's shrubbery, gardens, and crops.

Increase Potato Rate Payment

The rate of payment on Irish potatoes in connection with the 1938 conservation program has been increased from 3 cents to 5.4 cents, it is announcel by Dr. Thomas B. Symons, Director of the University of Maryland Extension Service. This increase in payment was authorized by a recent amendment to the Agricultural Adjustment Act for 1938, which was one of several amendments approved by the President on April 7.

Ocean City Golf Course Planted In Potatoes

Plowmen are engaged in turning over the surface of Ocean City's fifteen-year-old golf course, on which Baltimoreans, Salisburians and other visitors from all over the United States have spent many a pleasant day, its owner, John S. Whaley, having decided to plant potatoes on the seventy-acre course this year after efforts to induce Ocean City business interests to guarantee support for the ninehole course this year fell through.

Shore Crops Ahead Of Schedule

Delmarva crops will start moving to hundreds of the nations markets ahead of schedule if present growing conditions prevail.

Strawberries were on sale in Eastern Shore of Virginia stores for several days last week as the patches in Northampton county ripened.

Would Revise County Traffic Courts

A proposal to create one traffic court in each county of the State and to require that the justices of those courts be members of the bar with five years of practice behind them was discussed at a recent meeting of the A A A Automobile Club of Maryland in Baltimore.

Adapting to the counties the system of audition tickets now in use in the Traffic Court of Baltimore, is also proposed.

It is the present purpose of members of the club to incorporate their ideas into a bill to be offered at the next session of the Legislature.

To Continue C. C. C. Camps

The Worcester County CCC camps located at Herirng Creek and on the Snow Hill-Pocomoke highway will not be discontinued.

State Stalled In Labor Dispute

Efforts of State officials to act as mediators in the crab-meat pickers' strike at Crisfield were stalled this week.

Under law the State can intervene only when there is a question of the violation of rights of the workers. And one way of forcing conference between the workers and the owners of the crab-packing houses is for the State to issue summonses to all parties to the controversy.

Today, however, spokesman for the packers said there was no question, as far as they were concerned, of opposition to their employes. The plants, which have been closed for nearly six weeks, remain closed, the packers said, because of economic conditions.

With that position taken by the packers—and not proved otherwise—the State, under the law, is powerless to force a conference. Officially there is no business being conducted by the packers. Officially there is no question of opposition to the right of the workers to organize. So officially there is nothing the State can do.

Another factor is that the season is on for steamed crabs which helps afford a market for the product.

Fire Damages Shore Factory

Fire late Monday razed the office and factory of the G. L. Davis Company at Willards causing damage estimated at 030,000.

Firemen from four towns fought with an inadequate water supply, but were able to keep the blaze from spreading. Engines responded from nearby Salisbury, Parsonsburg and Pittsville to aid the Willards firemen.

A small water supply was obtained when a Pennsylvania Railroad locomotive backed into a siding and fire engines pumped from its tender. Owners of the plant said an entire season's supply of crates was destroyed in the fire.

Centreville Co-ops By Milk Station

The rapid maneuvers affecting the Centreville Cooling Station completed their cycle on Wednesday when arrangements were made by which the plant would be taken over and operated as a Co-operative shipping station by milk producers of the Centreville area at some time between July 1 and 15.

The purchase of the plant as a co-operative is expected to stabilize the milk station in Queen Anne's county once more after six weeks of uncertainty.

The agreement to purchase the plant, formerly the Harbison plant and bought by the Embassy Dairies as of April 1, wes reached at a conference in Washington Monday.

It is expected that the cost of the plant plus improvements contemplated will be about $18,000, or about half as much as was to be spent in erecting a new plant under earlier plans of the milk producers. Among the alterations contemplated will be bricking up the side wall, repairing the roof and tiling the floor.

Thieves Raid Roost In Queen Annes

Roost robbers employing customary Saturday evening skullduggery raided the chicken house of John Bailey on the Sudlersville road just out of Church Hill while the family were in Sudlersville Saturday night between 8 and 10 o'clock, and stole about sixty purebred, blood tested barred rock hens. The thieves used the customary trick of driving into the farmyard in a truck.

QUAKER NECK NEWS
