KENT COUNTY APRIL HEALTH REPORT

Ne wHealth Officer Seems Up Conditions Here

The new Health Officer, Dr. A. F. Whitsitt, was elected officially by the county commissioners of Kent County on April 5, 1938. Since this was my first month in Kent County, I had many conferences with the officers of the various organizations and businesses with which this department comes in contact. Many of the friends of the Health Department have been in to welcome me to the county and I have appreciated it very much.

The twenty-fourth annual observance of National Negro Health Week was held in the county from Sunday, April 3 to Sunday, April 10, 1938. The program opened officially Monday evening, April 4. The annual parade took place, and floats, banners, and torches made a colorful scene through the streets of Chestertown. Just after the parade an enthusiastic group of five hundred people gathered in Bethel Church to hear the address which was delivered by Dr. Fred Livingood, head of the department of Education at Washington College.

A new cup was purchased again this year by Mrs. Nora C. Maxwell, to be awarded to the school having the most unique poster. The poster competition must be won for three successive years before the school retains the cup permanently. This year the Sharptown won the cup.

Seven pre-school clinics were held in various sections of the county, and a total of eighty-three children were examined. The clinics were held by Dr. A. C. Burwell, pediatrician of Baltimore, Maryland. Dr. Burwell's services were secured through Dr. J. H. Mason Knox, Chief Eureau of Child Hygiene, State Department of Health. Twenty-five infants were immunized against diphtheria, and ten were vaccinated against small pox.

There were seven dental clinics held by Dr. Myron S. Baker, dental clinician. Two hundred children were seen in the dental clinics. Dr. Baker's services covered examining, cleaning, and fillings of teeth of children needing dental work and unable to pay for the service.

Despite the fact that we have had a change in health officers and that we are still without the services of a white county nurse, the volume of work done during the month is considerable as shown by the following statistical summary of activities:
