DOG SAVES BOY FROM DROWNING NEAR ROCK HALL

Drags Bobby Colison To Shore When Sail Boat Upsets

Much has been written about the life saving ability of the St. Bernard days in the Swiss Alps but "Betsy" a Chesapeake Bay water dog demonstrated this week that her breed also has this marked ability.

Recognition of her remarkable feat of dragging little 12 year old Bobby Collier to shore when a sailboat upset and he was drowning in Greys Inn Creek, earned for her a S. P. C. A. medal which she can proudly display to her eight puppies.

Bobby with Jack Coperthwaite, and Edward and George Elburn were sailing on Grey's Inn Creek when the boat upset. All of the boys except Bobby managed to hold on to the boat but Babby, who could not swim drifted off and the other boys could not get him. Jack called to "Betsy" to get him and with her retrieving instinct grabbed the boy's collar in her mouth and dragged him to shore in an unconscious condition. Sixteen year old Billy DeFord, hearing the boys call swam across the creek and succeed in reviving Bobby.

The Chesapeake bay dogs in this section take to the water like ducks. They are powerful swimmers and loyal to their masters as evidenced by Betsy's obedence in this instance.

Recognition of the heroism of Betsy and Billy DeFord will be made at the Fourth of July celebration at Rock Hall.

CROP INSURANCE TO BE OFFERED TO LOCAL FARMERS

Effective For Next Year's Crop

Plans are now being made by the Crop Insurance Corporation of the Agricultural Adjustment Administration to offer crop insurance to wheat growers of Maryland on the wheat crop to be planted next fall, it is announced by Dr. Thomas B. Symons, Acting Dean of Agriculture at the University of Maryland. He points out that at a recent meeting of representative wheat growers and county agents from the important wheat growing counties of Maryland the proposed plan received hearty endorsement and it was recommended that as soon as the details could be worked out, the program should be offered to Maryland wheat growers.

For this year the crop insurance program wil be confined to wheat, although in future years it may be extended to other crops. The plan which is now being considered will offer insurance against loss by drouth, hail, pests, winter kill and other similar causes.

Under the proposed plan, for a small premium, wheat growers may receive insurance protection up to three-fourths of a normal yield. In other words, if the yield of wheat on a particular farm falls below three-fourths of a normal crop, the owner will be reimbursed for the difference between his actual yield and three-fourths of a normal yield.

Premiums would be payable either in the form of wheat or cash, at the option of the wheat grower, and likewise the reinbursement to the wheat grower, in the event of loss in yield, would be eithr in the form of wheat or cash.

Dr. Symons points out that because wheat yields in this state are not subject to great fluctuations the average prmeium paid by Maryland wheat growers will be probably less than one bushel, thus insuring the greatest protection for a small premium.

In a letter to former members of the band President R. Clark Davis requested a large attendance at a reorganization meeting to be held Tuesday evening.

TOUR KENT COUNTY ROADS TO PLAN NEW PROGRAM

Commissioners And Road Group Study State Requirements

The Commissioners of Kent County, with representatives of the State Roads Commission, made a tour Thursday of the Kent County roads scheduled for improvement under the State and Federal road plan.

The purpose of the tour was to study the conditions of the four stretches of road and the necessary requirements in order to meet State specifications so that the roads may be taken over by the State as part of that system when completed.

In addition to the roads stated for improvement to come under the State system, the Quaker Neck wharf road and Turner's Creek road, alreay completed, are on the State list.

The roads visited by the group on Thursday were:
Galena—Sassafras road.
Kentmore Park Road.
Smithville Road
Wilkins Lane.
Quaker Neck Wharf road.
Turner's Creek road.

Following the tour the State officials will advise the County Commissioners as to the requirements for State Control.

$1.35 County Tax Rate

BASE RATE TO MEET COUNTY EXPENSES

Seventeen Cent Lower Than Last Year

The County Commissioners, on Thursday of this week, set the tax rate for the coming year at $1.35 after a careful survey of the running expenses of the county during the next twelve months.

It is very apparent, following a study of the levy, that this rate is necessary in order to avoid the issuance of a large amount of certificates which have to be paid with interest the following year.

The largest items in the levy are for schools and roads, the school levy being increased from $76,236.94 to $82,959.07 due to the necessary increase in the salary of colored teachers in order to receive the State equalization fund.

The total prospective cost of the road system above that the estimated receipts from the gasoline tax amounts to $89,000. This item includes the retirement of bonds, payment of interest and the cost of the maintenance of the county road system.

An additional cost which must be provided in the levy for next year is $10,000 to pay the expenses of the election. This item is levied for in full.

The $1.35 tax rate struck this year is 17 cents below the $1.52 rate of last year. The new assessment which showed an increase of $621,000 meant a reduction of approximately 5 cents under that of last year. The remaining 12 cents reduction is due to small amount of certificates issued this past county year.

An increase of $650 in the levy for old age pensions making a total of $6,500 was necessary in order to meet the State requirements for this purpose.

Kent County's road bond issue, amounting to an annual retirement of $80,000 bonds plus interest will be paid off in 1941 which will make a very substantial reduction in the tax rate that year.

URDES SENATOR BRICE TO SEEK RE-ELECTION

Betterton Group Signs Petition

All but three of the Democrats residing in the Betterton precinct have signed a petition urging Senator Arthur Brice to seek re-election.

The petition was circulated by a group of prominent citizens of that town and it is predicted the petition will carry the signatures of the three mentioned above.

It was also stated that a number of Republicans in that precinct offered to sign the petition but were not permitted to do so due to the fact that they have no vote in the primary.

While Senator Brice has made no public announcement that he will seek re-election, it is generally understood that he will.
