

CHURCH NOTES

RADIANT LIVING

Seeing Beyond The Church
By Rev. C. M. Griffith
Methodist Pastor of
Deals Island, Md.

Out in a little place by the name of Moose, in Wyoming, located some forty miles back from the nearest railroad there is a small log cabin church which is visited every year by many tourists.

The unique thing about this church is that back of the altar, in the place of the usual wall, there is a costly large plate glass window through which the worshippers can see, as they sit meditatively, an inspiring view of lofty mountains in the distance. This is the handiwork of the Creator ever before those who worship Him in that sanctuary.

As you sit in your church and look straight before you, what is it that you see? Do you permit your thoughts to be filled with criticisms concerning those who sit in front of you, criticisms of life or dress? Do you permit your mind to be limited by the material and the visible? Or can you penetrate these and catch a vision of the spiritual that lies beyond them?

High above the altar in many churches is a large round window known as the rose window. Not only is this window most beautiful in its tracery and in the rich coloring of its glass, but its purpose is to symbolize the circular form, having no beginning and no ending, the truth of the eternity of God.

Whether your church has such a window or whether it has only a solid wall, drab in color, let your eyes gaze beyond the visible wall and catch a vision of the spiritual mountains of the eternal truths of God, truths so vast that they can not be contained within the limitations of material walls of wood or stone.

Beyond the church are the spiritual mountains of God.

Kennedysville M. P. Church

Rev. W. F. Bauscher, minister. 10 a. m. Church School and Men's Bible Class. Mr. Harvey Hopkins, Supt. Lesson Topic, "The Sin of Lying."

11 a. m. morning worship, sermon. Special Music.

Asbury M. E. Church, Millington.

A. T. McFarland, Pastor. 10 a. m. Church School, H. L. Higman, Supt. 11 a. m. Morning worship sermon by the pastor; Junior Church at the same hour; 6:45 p. m. Epworth League, Mildred Edwards Leader; 7:45 p. m. Happy Sunday evening service.

The Special feature this week is a motion picture of our missionary program. We were sorry to disappoint our people last Sunday evening in not having a picture. But there is such a demand for these pictures, that sometimes there is a slip up and a church is disappointed we had a fine service anyhow. We have positive assurance that we will have a picture next Sunday evening. Public welcome.

Betterton Methodist Church

Raymond W. Hallman, pastor. December 4, 1938.

10 a. m. Church School, Mrs. Archie Crew, Superintendent.

7:30 Wednesday evening prayer meeting.

7:30 Friday evening, December 9, the Sunday School Board will meet at the home of Mrs. George Cooper.

Godfather of the Constitution

Charles de Secondat, Baron de Montesquieu has been called "the godfather of the American Constitution. His works, entitled "The Spirit of Laws" and "The Separation of Powers," profoundly influenced American history. James Madison was thoroughly imbued with Montesquieu's idea and adapted some of the major ones.

TALKING AROUND THE WORLD

New York... The world's most powerful microscope, which will enlarge a subject 7,000 times, is used by the Bell Telephone Laboratories in New York City.

Vatican City... Vatican City has more telephones per person than any other community. The number greatly exceeds the official population of about 700.

Buenos Aires... Nation-wide telephone service in Argentina was inaugurated recently by President Ortiz and the governors of four provinces. The new service was made possible by the completion of an 840-mile telephone line extending through the heart of the most productive region of Argentina. It marks the completion of a 3-year program by the United River Plate Telephone System, whereby its large plant in Buenos Aires and other more populous provinces is interconnected with other Argentine telephone systems, thus providing this flourishing country with telephone facilities adequate to serve rapidly expanding industrial and social needs.

Since 1928 approximately 700,000 telephones have been interconnected into a continental telephone network through international land lines and through radio telephone stations which also provide the service with the United States and 93 per cent of all the telephones in the world.

Chicago... The origin of "Hello, Central," has been traced back to 1889 when Mark Twain first used the word "Central" as meaning a telephone operator. The word first appeared in his "Connecticut Yankee." In this book he says: "I used to wake and say 'Hello, Central!' just to hear her dear voice."

The credit for the first use of this well-known phrase to Mark Twain is given in the New American English Dictionary being compiled by University of Chicago experts. The dictionary, which traces the origin of words strictly American, is expected to be completed by 1943.

Bucharest... Telephone service in Rumania is operated by the Rumanian Telephone Company. The number of instruments in service on December 31, 1937, was 81,205. The estimated number of local calls handled during 1937 was 225,000,000; inter-urban calls totaled 7,125,483 and international calls 270,211. The Rumanian Telephone Company has started work on laying an inter-urban cable between Bucharest and Brasov.

New York... In 1876 there were only 200 telephones in Europe and 376 in the United States. Today there are 19,605,000 in the United States and approximately 39,500,000 in the world.

Hollywood... Telephone usage of movie stars, as reported by newspaper columnists, includes Sophie Tucker booming "Sophie Tucker speaking" when she answers a ring. Basil Rathbone closes all his telephone conversations with "God bless you." Irene Dunne wants a telephone conveniently at hand, so she has nine installed in her home.

New York... About 75 per cent of the telephone calls between New York and transatlantic passengers originate on the ships and are made while the vessels are within the 1,500-mile zone.

Baltimore... Maryland telephone users bear a large share of the cost of government. In 1938 they will pay in local, state and federal taxes, about \$2,198,000 or \$6,000 per day—15 cents out of every dollar of their telephone bills.

New England Hurricane Worst Disaster In Bell System History

Chesapeake and Potomac Emergency Crews Dispatched to Scene to Aid in Restoration

Scenes of utter desolation and destruction like this one at Hawks Nest Beach, Lyme, Conn., were repeated hundreds of times throughout the storm area. The drooping telephone lines and poles with the remains of a house behind them give some idea of the enormous damage caused by the hurricane.

When wind, rain, flood, hurricane and tidal waves battered New England late in September, the telephone systems in this thickly populated area sustained more damage than the Bell System had ever previously experienced at one time.

Nearly one-half million telephones were thrown out of service, 18,000 of them in New Jersey, 56,000 in New York, 108,000 in Connecticut and 300,000 in the rest of New England. Coupled with the damage to telephones came a corresponding increase in the demand for service from out of town as people sought to locate friends and relatives in the storm area. Many communities were completely cut off, and to others only a few circuits were available to handle the flood of calls.

Emergency crews were rushed into the New England areas from all over the east, south and middle west, including Washington, Maryland and Virginia. Washington sent 13 crews comprising 43 men and 6 trucks, Maryland 19 crews including 83 men and 15 trucks and Virginia 18 crews composed of 59 men equipped with 14 trucks. Because equipment and construction methods have been standardized in the Bell System these crews worked in New England as effectively as at home.

Some idea of the damage can be gained from the following list of supplies ordered from the Western Electric Company: 49,000,000 feet of wire, 3,600,000 feet of cable on 1,450 reels, 21,800 telephone poles, 22,800 hand telephone sets, 132,000 pounds of solder, 6,200,000 feet of strand wire, and 2,000,000 pounds of hardware, consisting of 275 different kinds.

Men worked day and night to repair the lines. Operators struggled with 100 per cent increase in calls at many points. Everywhere the spirit of service which is traditional among Bell System employees in times of disaster was manifest.

When wind, rain, flood, hurricane and tidal waves battered New England late in September, the telephone systems in this thickly populated area sustained more damage than the Bell System had ever previously experienced at one time.

Nearly one-half million telephones were thrown out of service, 18,000 of them in New Jersey, 56,000 in New York, 108,000 in Connecticut and 300,000 in the rest of New England. HEARTBURN, ACID STOMACH, GAS ON STOMACH?

Have you tried ALKA-SELTZER?

Alka-Seltzer makes a sparkling alkaline solution. As it contains an analgesic (acetyl-salicylate), it first relieves the pain of everyday ailments, then by helping to restore the alkaline balance, tends to remove the cause when due to hyperacidity of the stomach.

Get Alka-Seltzer at your drug store in 30¢ and 50¢ packages for home use, or ask for a glass of Alka-Seltzer at the soda fountain.

BE WISE-ALKALIZE!

Since 1928 approximately 700,000 telephones have been interconnected into a continental telephone network through international land lines and through radio telephone stations which also provide the service with the United States and 93 per cent of all the telephones in the world.

NOVEMBER Showing of the 1939 FORDS!

You are cordially invited to come in to see and run the new 1939 Fords on or after NOW.

WAKE UP YOUR LIVER BILE-

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sick and the world looks punk.

A mere bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get those two pounds of bile flowing freely and make you feel "up and up." Berman's formula, get amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. 25 cents. Stubbornly refuse any imitations.
