Mr. Lowndes of S. C. said he hoped the re- 1 solution would not paas, though he had no doubt the object the gentleman had in view would be fully attained without it. He perfectly well remembered asking an officer of Commercial Daily Advertiser; high reputation who had met with some success, but not as great as he deserved, in the operations in that quarter, whether any indisposition appeared among the seamen generally to serve on the Lake; and he had replied in the negative. But if the fact were that that service is not so inviting as some others, the plan of increasing the wages of seamen, offering additional inducements would work an effect Representatives of the State of Massachusetts. different from that which the gentleman wished; and would be rather apt to deter seamen from entering it, for fear of encountering hard- nor's late anglo-mania speech. - Among these | ple p. lb 12 1-2 a 13; Candle-wick p. lb 20 a ships more than commensurate with the additional inducements, &c.

Mr. Kilbourn spoke again in support of the motion, and stated more particularly some facts he had collected on this subject.

Mr. Reed of Mass. took occasion to remark that the wages of seamen were not fixed by law, but were entirely at the discretion of the head of the navy department. The question on the adoption of Mr. Kil-

bourn's motion was decided in the negative. Ayes 26.

Boston, Jan. 22. FROM SOUTH AMERICA,

We have received the following communication from an intelligent correspondent in South America:-

Buenos Ayres, July 26, 1813. We have heard both by English and American papers, of the several unsuccessful attempts of the Americans against Canada, I and also of many splendid exploits of our frigates and privateers over the English; but what would please me, would be to hear of a permanent and indissoluble peace between the two nations.

"The revolutionists here are prosecuting with vigor the war against the Limanians :-They have now an army of 4000 men in the city and vicinity of Potosi, near which it is said is also the army of Lima, and in a few days news is expected of a general battle. The troops from this place are commanded by Gen eral Belgramo, who has been very successful in taking from the enemy the cities of Tucuman. Salia and Potosi, within a short time past.

"On the other side of the river they are prosecuting the seige against Montevideo, and throw daily into our city 30 or 40 shot; but the Montvideans still hold out. There are now on their way to the seige, two large mortars, which have been manufactured in this city, which when they arrive, will probably effect something of importance. A Congress or Assembly has been formed here, consisting of deputies from the towns and cities of the province, but they have not yet declared their independence."

From the Fayetteville American, Jan. 7. HORRID MURDER!

A horrid murder on the 25th of fast month was committed in Malborough District, S. C. on Joshua Wise, by William Owen, both for several years residents and neighbours in said district. The writer is not sufficiently informed, of the circumstances to enter into a detailed narrative; but it appears that the parties were drinking together at a neighbouring tavern, and quarrelled, whereupon Owen stabbed his adversary, seventeen times!

As the perpetrator has escaped, the following accurate description may lead to his apprehension.

William Owen is about 40 years of age, and 5 feet 9 or 10 inches high; of a complexion marks recollected.

Among the variety of wines in use, there is none more justly esteemed than PORT WINE -which, besides possessing all the heneficial qualities of wine generally, is without those heating qualities contained in other kinds, and may therefore be used with more safety and freedom. From its highly valuable tonic and strengthening powers, it is recommended by eminent physicians as a valuable medicine in all cases of either general or local debility, and particularly in those cases of weakness and debility of the system occasioned by intermittent or long continued fevers, and has been found particularly beneficial in case of weakness and debility of stemach or bowels; and from its being cheaper than Madeira, or other wines of good qualities, enables almost all classes of perwill probably remain very low for some time | sons to have resource to this so valuable source of health.
