**Feed Your Cows "PFO" DAIRY RATION**  
For More Milk and Better Health Cows in Good Physical Condition  
Always Give Best Yearly Yield. "PFO" DAIRY RATION will keep your cows in good physical condition with less attention in feeding.

**PALATABILITY**  
No dairy cow ever did well on a feed she did not like. In selecting the ingredients for "PFO" DAIRY RATION we have paid most particular attention to the palatability of the mixture. Cows eat it eagerly and do not "go off feed" readily.

**GUARANTEED ANALYSIS**  
PROTEIN, 20 per cent.; Fat, 3 per cent.; Carbohydrates, 50 per cent.; Fibre, 15 per cent.

The above figures are not the real values to the feeder. It is the digestibility that counts and produces and just how much digestible nutrients in a dairy ration is what the feeder who knows his business wants to know. DIGESTIBLE PROTEIN 15 1/2 per cent. FAT and CARBOHYDRATES 60 per cent.
